The unexpected great offensive has begun to force high cost of living to a minimum. If you would enjoy the spoils join the great army of buyers that's coming to our store to save money. We bought the entire stock of Parker & McCormick Grocery store and bought it away below the wholesale value. We are moving this stock to our store on Franklin street and will sell this stock with our already complete stock at prices far below present values. Every item we offer you is in first class condition and we guarantee perfect satisfaction or money back without question.

We will have a full line of vegetables and fruits at saving prices. We specialize on fresh berries by the crate. We have many other items at real bargains. It will pay you to come to our store and take time to look. These prices are for spot cash. No charge at above prices. Bring us your eggs, butter, green beans, peas and beets. We buy most anything in the produce line.

The Boyd Gounah Grocery Franklin Street Make our store your store.

THE IMPORTANCE OF RAISING MORE HOGS

As stated in the columns of this valuable paper in the last month, that on the first Monday of this month, which was the 7th, the subject for discussion at our Farmers' Marketing and Diversification association would be "The Feeding, Breeding and Marketing of Hogs," and also that I was going to appoint a committee whose duty it would be to learn all of the details relative to establishing a Federal Farm Loan association.

We had the discussion on the hog proposition and I venture the assertion that all who attended will verify the remark that it was profitable. We had from the A. & M. College an expert on the subject. His talk was along real practical lines. Judge Groce gave us the personal experience of one closely related to him which was forceful. The Rev. L. R. Campbell of Italy told us how they were managing hogs on his farm and he is enthused over the fine hog proposition. His talk was also along practical lines. F. S. Chapman ventured a few of his characteristically practical remarks on the subject. C. E. Schuster made some strong points on the subject as usual. D. D. Floyd told us how they were making money in North Texas raising hogs and his information certainly was feasible. John Keyworth, our famous corn raiser, had some practical questions to ask and advanced some good thoughts on the subject of hogs. When it comes to practical, horse sense, applied to hogs, Mat Robinson is a match for the best of them. You might say that we have three farmers in Ellis county who have become widely known in their line. Mat Robinson, hogs, and John Keyworth and A. Wicker, corn.

James Langford made some suggestions along business lines for which I thank him. James is master of one of the most precious gifts—kindness—as well as being endowed with other noble traits in proportion. I put on the committee, to gain information relative to the Federal Farm Loan bank. Messrs. L. R. Campbell, F. S. Chapman and W. A. Few. They then voted to include myself as a member of the committee.

Our organization has sustained a sad loss in the death of Frank Hawkins. This loss is not confined to our organization, but to all who knew him and far passed the confines of Ellis county. This good man possessed the most admired traits of which we mortals are heir. We were shocked at the sad news as we have rarely ever been shocked before because of his really unusual worth. Nobility sits on the throne when viewed by such people as constitute the citizenship of Ellis county—of this Frank Hawkins was the embodiment. There was a committee appointed to draft resolutions of respect for the noble man but I could not refrain from these remarks. Our esteemed friend Will A. Few was appointed to fill his place as chairman of the Fall Crop and Stock Show. to be held at Waxahachie this fall.

And men, those of you who have land notes against your land and also to those who have some money who want to become land owners meet me at 1:30 p. m. on first Monday in next month and this committee I think will be prepared to impart to you any information you may want to know relative to locating a Federal Farm Loan association here. I understand the rate is 5 per cent. F. HOSFORD.

ENGINEER'S WIFE LAYS HER CRUTCHES ASIDE

P. G. HOOKS SPENT \$2,000 TRYING TO RESTORE HIS WIFE'S HEALTH—GAINS 16 LBS. ON TANLAC.

Another wonderful endorsement for Tanlac that will read with interest by thousands of frail, suffering women throughout the south was given recently by Mrs. Elizabeth Hooks, of Rome, Ga. Mrs. Hooks is the wife of P. G. Hooks, a well-known Southern railway engineer. Mrs. Hooks made the remarkable statement that she had received more benefit from four bottles of Tanlac than from medical treatment that had cost her husband \$2,000, which he had paid out in the past two years in an effort to restore her health.

"For about two years," said Mrs. Hooks, "I have been in very bad health and have suffered from stomach trouble, extreme nervousness and a bad form of rheumatism. For more than seven months I was confined to my bed and was almost a nervous and physical wreck. My diet was so poor, I had to diet myself and rarely ate anything but soft boiled eggs and milk and things of that kind, and even the lightest foods would nauseate me and lay heavily on my stomach. "Any sudden noise would affect my nerves, and my husband had to quit setting the alarm clock and the door to my room had to be kept closed so I could not hear the ringing of the telephone. I have had the rheumatism in my left hip and shoulders so bad I could hardly bear anything to touch me. "My condition became so bad, my husband took me to Hot Springs, Ark., where I remained for a month. I had to use crutches all the time. The treatment there helped me for a while, and I returned home. I soon relapsed into my old condition, and then I was taken to a specialist in Atlanta. "The specialist prescribed a course of treatment, but before using the medicine I decided to give Tanlac a trial. I did this because of what I had read of Mr. Cooper's new medicine as because my husband had heard so many railroad men recommend it. "That was the best resolution of my life. I am now on my fourth bottle and feel better than at any time since I became ill. I can now eat anything I want, and my food agrees with me—besides, everything I eat tastes good and I enjoy my meals. "I have set my crutches aside and actually feel so much better I told my husband a few days ago I believed I would turn off the cook, but he insisted that I wait a while. "I now weigh one hundred and five pounds, which is a gain of sixteen pounds, and am improving right along every day. Before taking Tanlac I was so weak and frail I was greatly discouraged and could not persuade myself to believe that I would ever be able to enjoy another well day. But I don't feel that way now. I am not nervous like I was, and I can see and feel a great improvement. I sleep better and my strength is returning rapidly." Tanlac is sold in Waxahachie by Curlin's Two Drug stores; in Ennis by Ennis Pharmacy; in Palmer by McIntosh & Sons; in Italy by Jenkins Drug Co.; in Ferris by Cox & Malloy; in Maypearl by Caviness Drug Store; in Trumbull by J. M. Davis & Bro.; in Wilford by O. K. Drug Store; in Midlothian by J. E. Sewell; in Bristol by Munroe Burris; in Bardwell by Kennon Drug Co.; and in Forreston by N. B. Newton.—(Adv.)

Woman's Meeting.

The women of the First Baptist church will have their monthly missionary program at the church next Monday afternoon at 3:30 o'clock. The regular business meeting will be at 3 o'clock. Following is the program:

Subject—"The Home Base."
"Holding the Ropes."
Leader—Mr. B. R. Moffett.
Hymn—"How Firm a Foundation."

Scripture Lesson, Hosea 6, 7 and 14.
Hymn.
Prayer.
Roll Call. Let each one present tell some way in which Christians in the United States may do more for the foreign mission work. Repeating in concert of slogan Isaiah 5:2.
Talk, "The Inter-dependence of Home and Foreign Missions"—Mrs. Gough.
Talk, "Tell Something of William Carey, of His Feeling and His Success Toward Those Who Hold the Ropes"—Mrs. McCaul.
Short Talks: Holding the Ropes

EAR CARRIED IN POCKET IS SEWED BACK ON HEAD

SAN ANTONIO, Texas, May 23.—A lone highwayman operating in the outskirts of San Antonio cut off the ear of Santiago Garcia, a 14-year-old Mexican boy, when the youngster told him he was unable to produce any money from his pocket. The boy picked up the severed ear, placed it in his pocket and came down to town, saying later that he did not like to think of part of his anatomy lying in the public road. He was very much surprised when surgeons at the hospital stitched the ear back in its natural position on his head and told him that except for the scar there would be no difference in his appearance. Upon a description furnished by the boy, who said that his assailant had used a long butcher knife, a man was arrested a short distance from the place the young fellow had been temporarily deprived of his ear.

Through—
1. Prayer—Mrs. Sarah Thompson.
2. Through Study—Mrs. Scruggs.
3. Through Gifts—Mrs. Wheeler.
4. Through Missionary Societies and Conventions—Mrs. Coleman.
5. Through Training of Young People—Mrs. Potter.
6. Through Mission Literature—Mrs. McKnight.

Prayer for deepened interest in these essentials.

Talk—"Arousing the Local Church to its Missionary Responsibility"—Mrs. Willie Todd.

Talks: The Relation of—
1. Number of Missionaries to the Foreign Mission Opportunities—Mrs. Simpson.
2. Gifts to the Needs of the Foreign Mission Enterprise—Mrs. Wallace.

Offering.
Closing prayer.

PRES. TENER VOICES NEED OF BASEBALL

By H. C. HAMILTON.
(United Press Staff Correspondent.)
NEW YORK, May 23.—"The National league must win some world's championships or baseball—as well as the National league—is going to suffer," said John K. Tener, president of the National league, today. "The ease with which the Red Sox defeated Brooklyn last year and the fact that they had little trouble in winning from Philadelphia the year before makes it rather hard for the National league. "We haven't been winning world's championships often enough. The reputation of the old Cubs and the

old Giants doesn't do us much good. The fact that the Braves established a record by winning a world's championship in four straight games, defeating what is called the greatest baseball machine ever pieced together, doesn't get us any prestige at all. We've got to win championships and keep on winning them. "I realize just as much as any one that our league doesn't seem to shape up with the American, although I know in my own heart that by comparison—honest comparison on the record of years—we do not suffer."

Tener undoubtedly has grasped the point on which the National league kind of baseball is going to live or die. The National league will have to win some championships before it can take rank with the brand produced by Ban Johnson's subjects. New York has acquired considerable of a National league baseball club. It is expected everywhere that it will win the National league championship. If it does it will provide some pretty strong opposition for anything the American league can trot out. In a short series it would be a hard task to defeat that aggregation of high-strung, hard-playing athletes. The regularity with which the Athletics formerly crushed National league opposition, the success of the Red Sox in 1912 and their two later victories in 1915 and 1916 look rather bad for the National league—and all this in spite of the wonderful feats of the Braves.

CALIFORNIA INSTITUTIONS LAUNCH GREAT FARMING PLAN

SACRAMENTO, Calif., May 23.—Fifteen big farms conducted by state institutions will produce food for the 15,000 inmates of the institutions this year, F. E. H. Floodgood, member of the board of control predicted today. Under war economy pressure, production on these farms will be increased 25

SAGINAW, Mich., May 23.—War went halt Michigan's campaign for better roads. With state appropriations available as usual, plans were laid here today at the annual meeting of the State Good Roads association to continue the program of highway construction and improvement on a systematic basis.

ANNIVERSARY OF OPENING OF BROOKLYN BRIDGE.

NEW YORK, May 23.—Thirty-four years ago today Brooklyn bridge was opened to the public. War prevented any celebration being planned. Armed guards now patrol the bridge night and day, keeping the crowds moving, forbidding the taking of photographs and sometimes searching suspicious bundles.

AMERICA PREPARING.

WASHINGTON, May 23.—One half cup of milk wasted daily by every family in the United States would involve a total waste of \$12,500,000 quarts a year, the product of 400,000 cows; the department of agriculture estimates today in a bulletin urging war economy.

LORAIN, O., May 23.—Business men and merchants here have promised to spend a week of their summer vacation helping farmers harvest their crops.

LOS ANGELES, May 23.—Sheriff Cline has turned 125 pieced deputies over to federal authorities for military training and will increase the number to 400. They will be returned to the sheriff's trained and armed home defense force.

PORTLAND, Ore., May 23.—The Oregon Patriotic Service League today has collected and sold several tons of old papers and periodicals and will continue the campaign to raise defense funds.
