#### YELLOW FEVER SPREADING

##### Natchez Miss., Excited.

New Orleans, September 21.—A Picayune special from Natchez, Miss., dated yesterday says that city is in a fever of excitement to-night at the yellow fever reports from Jackson and a shotgun quarantine will be established at once. A large excursion of forty people from Natchez, who visited Jackson are shut out from their homes. All the trains on the Natchez, Jackson and Columbus road beyond Hamilton have been stopped. A special train was sent out at 11 o'clock to-night to bring in the Natchez people from Cooper's Wells, Harrington and other points along the road who have not been to Jackson. By the shotgun quarantine in 1878 yellow fever was kept out of Natchez and it is believed it can be done again.

##### Strict Quarantine at Helena.

Helena, Ark., Sept 21.—Strict quarantine has been declared here. Trains from the south are not permitted to even discharge the mail.

##### REPORT FROM JACKSONVILLE

Jacksonville, Fla., Sept 21.—Thirty-five new cases and five deaths were reported up to noon to-day. The work of relief is being systematized. Surgeon Wise has inspected the fumigation stations near this city and indorsed the thoroughness of the system in vogue.

##### Fever at Jackson, Miss.

Memphis, Tenn., September 21.—Dr. Wirt Johnson, secretary of the Mississippi state board of health, at Jackson, Miss., officially notifies by telegram of this date Dr. G. B. Thornton, the president of the Memphis board of health, of the presence of three cases of yellow fever in Jackson.

##### Quarantine at Cairo.

St. Louis Sept 21.—A special from Cairo says that city has established quarantine against all trains from the south on the Illinois Central and Mobile and Ohio. All passengers from the north will be compelled to have health certificates.

##### Clubbed to Death.

St. Louis, September 21.—A special from Little Rock says: John Brickley, an old and a well known citizen of this place, who was clubbed by C. C. Branch, last night, while endeavoring to protect a lady and a young girl from insult, died this morning. Branch was captured.

##### Shot Through the Body.

Cameron, Tex., Sept. 21.—For some time there has existed a feud between B. B. Williams and Tom Newman, who lives between this place and Milano junction, in this county. Last night they met near Milano, and both being armed Williams shot at Newman. Newman shot Williams through the body with a rifle of large calibre. Williams was thought to have been mortally wounded. Newman is in the hands of the officers.

Edison is engaged in studying the problem of aerial navigation, so perhaps the problem of reaching the North Pole by balloon, once scouted as chimerical, may yet be accomplished.

The only woman lawyer in Philadelphia is Mrs. Carrie B. Kilgore. She has an enviable reputation at the bar, and there is not a judge in the city who does not respect her for her legal ability.

The Bishop of Liverpool protests strongly against the encyclical letter on the ground that it "ought to have contained some distinct reference to the unhappy division about the Lord's Supper, which threatens to break up the Established Church of England unless speedily held."

The Boston Journal says that a colored nurse, who went from New Orleans to take charge of yellow fever patients in Jacksonville, rather astonished the physicians by a refusal to nurse colored people. She said indignantly: "Me take charge of the colored ward! Not much! I'm one of the leading trained nurses of New Orleans, and I didn't come here to nurse niggers! I'm a lady!"

## Lessing, Solomon & Rosenthal,

As an illustration of progress in Central Asia it may be mentioned that while a few years ago the traveler was likely to be killed by the natives, he is now in greater danger of being smashed up in a railroad accident. A train on the Trans-Caspian road was upset a few weeks ago near Samarcand, and five people were killed. They happened to be train hands and Europeans, but had they been Mohammedan pilgrims, who now employ this modern method of expediting their journey to Mecca, there might have been a great outcry against the in-fidel invention for killing off the faithful.

Recently Recorder Davenport, of Kansas City, decided that women may dress in male attire. Since his decision men have been dressing in the garb of females and nightly appearing in such on the streets, some of the thieves and footpads having adopted the scheme to ply their trade. Recorder Davenport was asked on Sunday what he would do with men dressing in female attire. He laughingly replied: "I have given no attention to that side of the matter. I suppose I'd be staggered if such a case should be brought before me. I'd rather not commit myself on it, but I see no reason why a man shouldn't wear pants-letts if he wants to."

Mrs. Anastasia Patten, who was widely known as a society leader at Washington, died at Portland, Me., the other day. One year ago she suffered a nervous shock as the result of a narrow escape from drowning at Seabright, N. J. She had been more or less of an invalid ever since. Mrs. Patten was one of the richest women in America. She was said to be worth \$5,000,000. She was a bold speculator, and during the past few years added largely to her wealth by real-estate investments. Eighteen months ago one of her daughters was married in Washington to Congressman Glover of Missouri. The wedding was one of the notable society events of the season. Mrs. Patten signaled the occasion by presenting the bride with \$500,000 worth of 4 per cent United States bond.

George Keenan, in his article on Russia, published in the Century magazine, tells a good story, illustrating the carelessness that characterizes the working of the Russian government. A "stola nachalnik," or head of a bureau, in the provincial administration of Tobolsk, while boasting one day of his power to shape and direct governmental action, made a wager with another chronicler that he could get the Governor of the province—the late Gov. Lissogorski—to sign a manuscript copy of the Lord's Prayer. He wrote the prayer out in the form of an official document on a sheet of stamped paper, numbered if, attached the proper seal to it and handed it to the Governor with a pile of other papers which required signature. He won his wager. The Governor duly signed the Lord's Prayer, and it was probably as harmless an official document as ever came out of his office.

The Atlanta Constitution, says if the farmers of the whole South are as much in earnest in their efforts to destroy the jute Bagging Trust as the farmers of Georgia there will be no trouble about the matter whatever. The Georgia planters are in earnest, and the probability is that the trust will not have much of an effect on them. By antagonizing the trust in every possible way the farmers will not only save money, but will aid in the development of new enterprises for the manufacture of bagging. There will be no lack of capital to invest in these enterprises, and the only wonder is that the South, with its wonderful resources has not long ago prepared itself to furnish the wrapping for its great crop, instead of buying it abroad.

The days of Mormonism in the United States are numbered. The Gentiles now have the majority in the Territory, and there is nothing for the "Saints" to do but to take up their beds and march to the vast estates they have purchased in Mexico. It will be a good riddance.—Louisville Times, Dem.
