LESSING, SOLOMON & ROSENTHAL.

OVER THE WIRES.

Telegraphic Miscellaneous Carefully Culled From Sundry Sources.

Patent Medicine Fakir Taken In.

OMAHA, Tex., March 16.—Yesterday a man by the name of Lewis, claiming to be an agent for the Hot Springs medicine company located at Little Rock, Ark., made his appearance in our town, and by the aid of costly premiums, smooth talk and a letter of recommendation purporting to have been given by the Smith drug company at Texarkana, succeeded in gulling the firm of Cameron & Pinson, druggists, to the tune of \$10 and undoubtedly would have made good his escape had it not been for Robert Burnett of Corley, whom he had sold also. Mr. Burnett, it seems, had his suspicions aroused and by the liberal use of the telegraph found not only that his recommendation from the Smith drug company was bogus, but that there was no such company as the Hot Springs medicine company at Little Rock, and that his medicine was simply salt water with chlorine and seasoned with cinnamon and rust to suit the taste. Mr. Burnett followed on the midnight train, and after consulting with Messrs. Cameron & Pinson called in Constable Curley and locked the gentleman up, who after looking over the matter concluded to disgorge, when he was allowed to depart in peace. Messrs. Cameron & Pinson are highly elated at getting their money back, and say it will be a very chilly day when they are caught again by the same kind of bait.

Yellow Fever Germs.

MOBILE, Ala., March 14.—The revenue steamer Seward returned to-day from Chandeleur Islands, having transferred Surgeon Carter, of the Marine hospital service, his family and servants from Ship Island station to the new Gulf queen line station, on North Chandeleur. At the abandoned quarters on Ship Island the buildings and grounds are strewn with worn-out mattresses, condemned clothing, furniture, etc. Tons of matter believed to be infected with the germs of yellow fever lie piled up there, and tramps will soon be digging in the debris with the hope of finding something fit for use. The department has been advised to have everything destroyed by fire, but no orders have been received.

Chinese Claim Indemnity.

MILWAUKEE, March 16.—The Chinese ambassador at Washington has been notified of the disturbances that occurred in this city early in the week, and has sent word through Chow Tai, representative of the Chinese interests, that the Chinese government will insist upon full payment for any damage done to the property of Chinamen during the disturbances. He says that when in certain Chinese cities American residents, were attacked and their buildings burned the Chinese government erected new buildings and made complete restoration. Brazen up by the backing from the flowery kingdom, the different Chinamen who sustained damage will present their claims to the city and, in case they are not paid, will begin suit.

Ruinous Runaway.

DALLAS, March 16.—Runaways are so common in Dallas that they have long since ceased to be new items, but this morning an extraordinary case of this nature presented itself on Main street. The police patrol wagon drawn by two splendid animals, was the outfit that furnished the fun. The team was hitched in front of the temporary city hall on Commerce street. The horses became frightened, broke away from their moorings, and went down Commerce at a healthy gallop until they came to Austin street. Here they turned the corner and entered Main. By this time they were going at full speed and furiously swept through the thoroughfare which was lined with buggies. The buggies were mown down like grass; a saddle horse was killed, and the runaways were not checked until \$1,000 damage had been done.

After "40 Acres and a Mule."

RALEIGH, N. C., March 15.—The negro exodus from the state is about to take the form of a colonization of negroes in Arkansas. Negroes are holding mass meetings almost nightly and preachers are urging them to colonize and organize a "North Carolina emigration association" for the purpose of securing organized action toward colonizing all negroes in the state of Arkansas, where they are offered lands for a trifle. Circulars say that white people do not want them here and they have determined to go.

Squabble Over a Kid.

ABELLE, Tex., March 17.—Upon the arrival of the east-bound passenger train yesterday a gentleman was seen to step from the train, hurriedly enter the passenger depot and at once commence conversation with a noble looking lady who held a three-year-old child in her arms. After some words it was discovered that the gentleman and lady were man and wife and the child was the fruit of their union and that a separation was to be made on that day. Both held prior claim, it seems, on the child, and the father went so far as to try to take the child away from its mother by force. Officers were summoned and made the gentleman desist his novel undertaking, and the lady with her infant departed on the train east. Your reporter is informed that the gentleman bears the name of Black and is a citizen of Nolan or Fisher county.

A Scareful Accident.

KANSAS CITY, March 16.—At three o'clock this afternoon Clara Hunter, aged six, was playing in an empty wagon on Pendleton heights when in some manner the wagon as started and went over a bluff. Her mother heard the child scream and went to her assistance but her dress caught in the wheel and the wagon rolled down the precipice, thirty-five feet, dragging the mother and child. The child was instantly killed and the mother was so badly injured she is not expected to live through the night.

San Antonio Fair.

SAN ANTONIO, Tex., March 17.—The board of directors of the San Antonio International Fair association will meet Tuesday to settle up the affairs of the November exposition and to determine upon a date for the opening next fall. The report of the treasurer will show that all prizes and premiums have been paid in full, all other obligations promptly met and ample funds on hand to push vigorously preparations for the next exposition.

Belton's Prospects.

BELTON, March 17.—The artesian well bored by Capt. A. J. Harris, on his place within a mile of the courthouse, gives a flow of two gallons per minute. The depth is 450 feet. A pipe was placed in the well extending thirty feet above ground and the water flowed from the top of the pipe with the same force and quantity as at the surface. With waterworks, artesian wells and the Grand Trunk railway just in sight, Belton's future is growing brighter.

Want Ten Thousand a Year.

Washington, March 17.—The resignation of Senator Chase upon the threshold of his second term of six years in the highest legislative body in the world has aroused renewed interest on the subject that is bound to receive early and earnest consideration in congress. Senator Chase in private gives as the reason why he can no longer serve his state and country in the legislature that the compensation was not sufficient to allow him longer neglect of his business. He has expressed the opinion that he is considerably poorer for his legislative experience than he would have been had he remained at the helm of his business ship and directed its course through the breakers of the past ten or fifteen years. He is one of the largest cotton manufacturers in New England, and several times during the recent tariff debate in the senate evinced his familiarity with that subject in its relations to the industry in which he was interested, and gave valuable assistance to his republican colleagues in the discussion of the senate substitute for the Mills bill. The question of increasing the compensation of congressmen has been receiving earnest attention, the senators, especially, of late, and there is an overwhelming sentiment among them in favor of making the salary of congressmen \$10,000 a year instead of \$8,000 as it is at present. Members of the house of representatives, while thoroughly in sympathy with the senators on this point, are not yet ready to go to the full length desired by them, fearing a repetition of the outbreak of censure visited upon the congress of 1873 for its action on the salary question. But it is argued by the advocates of increased salary that what the people were indignant about then was the "back pay grab" feature, and that if the increase were made to date from the end of the fifty-first congress no serious opposition would be made to it.

For a nice clean shave, good haircut, and polite attention, call at Jeff Williams's O. K. barber shop on Austin Avenue.

First-class carriages for calls, vis its, etc., at Molder & Hearne's.

East Texas yellow yams at Joe Thompson's.

Celebrated Budweiser beer at Cotton Exchange.

Fish and game of all kinds, at the Silver Moon.
