**Overfatness Condemned.**  
Fat, or even fattish, women readers who want to be in the mode this year must understand that the demand is for lines, not curves, and govern themselves accordingly.  
That means OFF with the fat. It has become a duty. Many are trying exercise or dieting; but it is certain they will find these methods too slow and unreliable. The cheapest and safest way to get in form for the Dietreolite mode is by means of Marmola Prescription Tablets. Any druggist (or the Marmola Co., 1113 Farmer Bldg., Detroit, Mich.) will give you a large sized case of these elegant little fat reducers, containing a good, generous supply, for seventy-five cents, and even this quantity should be enough to make a decided impression on your excess fat. Many have lost as much as a pound a day.  
These Marmola Prescription Tablets may be used with impunity and likewise perfect confidence, for, being made strictly in accordance with the famous Marmola Prescription, they are, of course, quite harmless. They are rather beneficial than otherwise, in fact, never disturbing the stomach or causing a wrinkling of the flesh.—Adv.
