**A BRILLIANT LECTURER RARE EVENT WILL BE SEEN**

Governor Luther Manship Is One of the Foremost Platform Men of the Present Day.

Governor Luther Manship will be the sixth number of the Lyceum Course of attractions, and will be heard at the city hall this evening. Governor Manship has visited this city before under the auspices of the Lyceum, and was declared by those fortunate enough to hear him to be the best entertainer heard here in a long time. He has some personal friends in Palestine, and they are especially solicitous that he shall be given a large audience, because they argue as a result of a quarrel. The slayer made a plea of self-defense in the first trial, which ended in a disagreement of the jury. Since that time Yarling has been at liberty on bail.

Eclipse of Moon Will Occur Tonight, While the Comet Blazes on Horizon and Jupiter Shines Above.

Tonight will be one in hundreds of years for star-gazers, hunters of sky-bugs, and patrons of the celestial theater. Paelstineites are already much interested—almost as much as they were in the passing of Halley's comet. With a sky free from clouds the residents of this city may see a stellar drama enacted upon the celestial stage, the like of which has not been seen for centuries and the like of which may never happen again. But here are the principal acts during the evening: The moon in total eclipse in the eastern sky, time 9:40 to 11:55 o'clock; Halley's comet blazing brilliantly near the horizon in the zenith, looking down on all with a dignity that befits anything named Jupiter. The comet was sighted near the horizon in the west a few minutes after sunset Saturday evening, and if the clouds do not bother, it ought to be seen some little distance above the horizon in the west, during the twilight hours tonight. Saturday evening it had considerable tail, and the predictions are that as the comet turns away from the earth, on its backward journey in its orbit, we will be able to see more of the searchlight tail. Watch for it tonight, if the western sky is clear.

**STORM DID MUCH DAMAGE TEXAS SUMMER TRAFFIC**

Trees Were Broken and Twisted, Fences Down, and Damage From Lightning Is Reported.

Last evening about 9 o'clock what promised to be a very serious storm visited Palestine. There was considerable wind, and the electrical display was constant and vivid. As a result considerable damage was done in and about the city from wind, and lightning is reported to have struck in different places. The wind twisted off limbs of shade and ornamental trees, and in some instances fences were leveled. A show window in the Dobbs Furniture store was blown in, and an awning east of the Motley Drug store was blown down. Lightning struck the Second Ward school building, entailing damage. Two windows were knocked out of the third story, or cupola, the casing was torn off, several bricks were torn from the wall, and the wall was cracked for a distance of about six feet. Damage is covered by insurance. Near the Maury home in the southern part of the city a tree was struck and considerably torn up. It gave the nervous ones a time to take on a genuine fright. A heavy rainfall followed. The electric light plant suffered to some extent, several wires going down over the city. Service in some sections was more or less interfered with.

Texas Railroads Getting Ready to Bring Northern People to the State For the Summer.

Houston, Texas, May 23.—The recent large purchases of material by the Texas railroads, says the correspondent here of the Texas Commercial Secretaries' Association, is a clear and safe indication of business conditions for the summer and coming fall. A few years ago this state was only recommended as a winter resort, but as the government weather reports are more generally published and read, the people of the north are beginning to realize that Texas not only has a fine winter climate, but between the gulf and mountain breezes the summer is also cooler and more pleasant than most any of the cities or sections of the north, excepting those on the great lakes or near the Canadian line. The great development of oil and natural gas fields, and of the mineral, building stone, grain, fruit, truck and cotton and cattle industries keep things lively the year around, and Texas railroads have to keep hustling to meet current passenger and freight demands. Texas is also coming forward rapidly as a mineral spring and resort section for both summer and winter. Several of the mineral spring centers of this state are surpassed by but few in the country, and more hotels are among the strongest needs of the state, not only for transients, but for winter and summer resorts and sanitariums, for people of the state and from New Orleans, the central south, from Mexico and Central America, and even from states further north, whose citizens now how to appreciate the cooling breezes of the gulf and western mountains. Furthermore, Texas some time ago came to the conclusion that this state had reserves of capital, natural advantage enterprise the year around, climate sufficient to meet most of local needs, and thus railroads here will not have to wait until fall to get busy, their busy time is all the time, an all-the-time state, and northern people who have not yet tried Texas summer climate and business conditions are cordially invited to give a trial, and prove that the statements of Texas railroads and steamship lines are no exaggeration, but are based on actual conditions of climate, comfort and health and summer possibilities, which are drawn from many directions.

**WEATHER FORECAST.**

Published By Authority of the Secretary of Agriculture.  
For Palestine and vicinity until 7 p. m. Tuesday: Tonight and Tuesday partly cloudy weather; showers tonight or Tuesday.  
Minimum temperature, 58.  
Maximum temperature, 80.  
Precipitation, 1.10 inches.

**Weather Conditions.**

An area of low pressure extends from Canada to the gulf, with the cyclonic center over the great lakes. This storm has been attended by general rains in the Mississippi and Ohio valleys, the South Atlantic states, the lake region and the gulf states. High winds and thunder storms are reported in the west gulf states. The weather is cooler in the west and light frost formed in Kansas and Wyoming. Cloudy weather prevails over Eastern Texas this morning, with a fall of the state.

**TEXAS NEWS NOTES.**

Captain Joe Shely, who was instrumental in breaking up the Garza revolution on the Mexican border several years ago, died at San Antonio.  
In ruling on the anti-nepotism law the attorney general rules that a school board cannot employ a principal who has married an aunt of the wife of a trustee.  
Railroad Commissioners Mayfield and Williams have completed the draft of the new cotton tariff.  
Intangible values will show an increase of \$1,000,000 over last year.  
Two cars of watermelons were shipped from Brownsville last week.

**Service Was Discontinued.**

In some sections of the city last night the electric light company discontinued service because wires were reported down as a result of the storm. This course was taken as a matter of public safety. The service was again soon cut in in some sections of the city. In other places the service was discontinued for the night. Mr. Hays, the manager, said the damage done to wires, etc., was not near so great as he feared, the greatest harm done being the forced discontinuance of service in a few places.

**At the Lyric.**

The management says: Lloyd and St. Clair, original composers of popular songs, will open at the New Lyric Theatre tonight in their comedy singing, talking and dancing act. These people have played some of the largest houses on the Hopkins Lyric Vaudeville Circuit, and are said to be one of the best teams on this circuit. The feature film in motion pictures tonight will be "I Must Forgive," a high art Pathe subject.

**Bleeding Athletic Meet at Ottawa.**

(Herald Special.)  
Ottawa, Ont., May 23.—Many star athletes from various parts of Canada and the United States are flocking into the capital to take part in the big athletic meet to be held here tomorrow. The affair has been arranged under the joint auspices of the Ottawa A. A. A. and the athletic association of the University of Ottawa and from all indications it is to be one of the most important athletic meets ever pulled off in the Dominion. A number of runners of international reputation are entered for the sprints, which will form the premier events of the day's program.

**Oklahoma Seeks to Oust Oil Company.**

(Herald Special.)  
Enid, Okla., May 23.—The suit brought by the state of Oklahoma to dissolve the Waters Pierce Oil company is on the docket in the district court for trial this week. The case is similar in all its important aspects to that successfully prosecuted some time ago by the state of Texas. In the present suit the state of Oklahoma alleges that the Waters Pierce concern is a subsidiary to the Standard Oil company and that its operation in Oklahoma is in restraint of trade and therefore a violation of the anti-trust law of the state.
