The jury in the Wiley Smith case, wherein the defendant was charged with rape, brought in a verdict at 2 o'clock this afternoon finding the defendant guilty and sentencing him to sixty years in the state penitentiary. The case was brought here from Trinity county on a change of venue. Both sides were ably represented, and the arguments were concluded late yesterday afternoon, and the case given to the jury. ### JEWS EVICTED FROM KIEV.

Three Hundred Families Have Been Expelled—Heart-Rending Scenes.

St. Petersburg, May 26.—The exodus of Jewish families from Kiev has begun. The total departure from that city up to last night were three hundred proscribed families belonging exclusively to the poorer classes. The expulsion is attended with harrowing sights. The evicted ones were veritable paupers, lacking all means of sustenance. For the moment the Jewish families possessing some means are undisturbed. All day a straggling train of wozons passed out of the city gates, carrying the miserable household effects of the banished. Sobbing women clung to their little ones.

A different procedure is adopted toward the Jews who have wealth, who are put to great expense in being obliged to return to their native towns to secure permits for a visit to Kiev on the grounds of urgent personal business. These permits are issued for limited terms, and so require fre-

some friend to a free tuition scholarship for five months of 1910.

### SCHOOL'S "PURE AIR" PLAN.

Chicago Pupils Sit With Wide Open Windows—Pleased With Result.

Chicago Examiner.

A cold air experiment "for the health of the children" was discovered at the Graham school after careful concealment for three months on the part of the principal, William E. Watt.

A room containing ninety first grade pupils was found with windows wide open and the children with their wraps on and, in the words of the principal, "tiedled to death at being given the opportunity to breathe pure air all day, in school and out."

It is an experiment suggested by Mr. Watt and consented to by Mrs. E. Flagg Young, superintendent of schools. Mrs. Young, however, when told of the cold room, expressed doubts as to the wisdom of "going so far" and said that she would make an investigation.

Mrs. Isabelle O'Keffee school trustee, visited the school and made a report to Mrs. Young, saying that she did not like the idea of putting the pupils in so cold a room.

"I am always inclined to use a little judgment in such matters," said Mrs. Young, after hearing Mrs. O'Keffee's report. "I shall look into the matter tomorrow."

"The children are delighted," said Principal Watt. "They are not compelled to sit in the room under such conditions, but there are many more clamoring to get in. It has been a most successful experiment."

"Pupils have been cured of nasal catarrh, swollen glands in their necks have been reduced to normal size and tubercular symptoms have disappeared. Their resistance to disease has been raised and they are much more healthy."

### Starting It Too High.

It was in the days before church organs and choirs and Deacon Dorsey volunteered to lead the singing of an old hymn. He started out very well:

"My soul, be on thy guard—ten thou—" and he stopped, unable to go any further because he had such a high pitch. He started over again. "My soul, be on thy guard—ten thou—" and once more he stopped at this time pitched so low that he could not proceed.

"Say, Brother Dorsey," said one of the congregation, "hadn't you better start it with five thousand?"—Success Magazine.

### A Mean Return.

We are all acquainted with the mean man, but for downright cruelty the following will take a lot of beating:

The park policeman walked up to the quiet, modest-looking stranger, and politely asked him for the loan of a lead pencil. The gentleman, with a smile, obliged the man in blue. "Now," said Robert, "please give me your name and address, as I saw you pick a snowdrop a moment ago, and I want to summon you."

### Boat Completely Wrecked.

Laredo, Texas, May 26.—Dean Zimmerman and family of San Antonio, who started to make a trip down the Rio Grande from Laredo to Brownsville, returned today on his return home, his boat having been completely wrecked when one hundred miles below Laredo by the recent storm which swept over this section of the country.

### Governor Deneen Arrested.

Peoria, Ill., May 26.—Governor C. S. Deneen was arrested with a touring car party for exceeding the speed limit in this city at midnight. Chas. H. May, publisher of the Herald-Transcript, host of the party, was released under bond. The governor will not have to appear at the hearing tomorrow.
