### BOILER EXPLODED.

Two Railroad Men Are Dead and One Seriously Injured.

Dallas, Texas, Dec. 12.—J. Fesmire, aged 26, was instantly killed; Ben Hill was so seriously injured that he died without regaining consciousness, and Mac Reed was seriously hurt when the boiler of the Missouri, Kansas & Texas engine No. 261 exploded about 4 o'clock this afternoon, a mile and a half north of Fisher, a little station six miles north of Dallas. The boiler of the big engine was lifted from its truck and hurled 200 feet from the track, carrying with it Fesmire's body. Two freight cars were demolished, three others damaged and thrown from the rails, and the track was torn up for a distance of between 150 and 200 feet.

Engine No. 261 pulled a water train between Dallas and Rockwall and left here this afternoon about 3:30 o'clock. The train was in charge of Conductor A. D. Campbell. The explosion occurred while the train was making a run for the hill beyond Fisher. Without warning a seam on the underside of the boiler burst, tearing the boiler from its mooring and throwing it high into the air.

J. Fesmire, the head brakeman, was instantly killed, Fireman Ben Hill's skull was crushed, and Engineer Mac Reed was painfully scalded.

Just to show it in action alongside of any other kind of light you may chance to be using.

You will be surprised to note the immense volume of light that it gives—a greater volume than you get from three to five house lights of any other type.

Its effect on your eyes will be a sensation of rest and comfort, and will reflect for the first time the faces of your family, under artificial light, their natural soft, warm colors and the harmonies of decoration and dress will be undisturbed.

We will send out and attach this light to any gas fixtures you designate, you to have the privilege of buying or refusing the light after inspection.

If you wish to keep the light we will charge its cost, \$1.00, to your account—two payments if you like.
