Palestine Population 10,432

Special to the Herald.
Washington, D. C., Dec. 31.—The census bureau announced populations of Texas towns today as follows:
Palestine, 10,432; Sherman, 12,412; Waxahachie, 6205; Corpus Christi, 8222; Beaumont, 20,640; Brownwood, 6967; Denison, 13,632; Gainesville, 7624; Paris, 11,269; Port Arthur, 7663; Terrell, 7050; Tyler, 10,400.
The 1900 census gave Palestine 8297, and this shows a gain of 2135 for Palestine in the past ten years. The census figures given out for the county a few days ago showed the entire county had gained approximately 1600 in the past ten years. This would indicate that Palestine gained more than the entire county in that period; therefore the county must have lost in population outside of Palestine.

REVIEW OF THE YEAR AND IMPORTANT ITEMS

(Herald Special.)
Chicago, Dec. 31.—Featuring the fact that during the year 1910 Americans made public gifts of \$141,604,538, the Chicago Tribune today prints a compilation of the benefactions, disasters and other data of public interest during the last twelve months. In the million dollar class Carnegie gave \$18,664,325; Rockefeller, \$16,039,000; Mrs. Russell Sage, \$3,888,325; J. Pierpont Morgan, \$1,040,000.
The number of suicides reported for the year: Males, 8252; females, 4356.
Loss of life: By fires, 3562; drownings, 5112; in mines, 1004.
Financial loss through fires: \$220,000,000.
Railroad fatalities: Killed, 3520; injured, 2856.
The embezzlements for the year total \$225,000.

Local Data.
During the year which will come to a close at midnight tonight, 428 marriage licenses were issued in Anderson county. Of instruments placed of record effecting land titles, such as deeds of trust, mechanics' liens, releases, deeds, powers of attorneys and affidavits, 2352 was the total, with 3578 mortgages. The record of births for the year shows a total of 309, with 56 deaths, although the record as to deaths is admittedly incomplete. There is a state law requiring physicians to file this information with the county clerk, but for some reason it has not been lived up to.
The number of criminal cases tried in the county court during the year 1910 is given at 195, with the following result: 57 convictions, 13 acquittals, 34 dismissals, 23 cases pending. Only one case was appealed. The aggregate amount of fines imposed was \$1497.

Many substantial improvements have been made in Palestine during the year now drawing to a close. Scores of residences have been erected and several fine business houses have gone up, among the latter being the new Silliman building on Crawford street, and the fire station, opposite the Silliman building.
Work is now under way on the new federal building, at the corner of Oak and North Sycamore streets.
The city has purchased two park sites, and these will be put in shape during the coming year.
Up-to-date fire-fighting equipment has been secured and will be put in service by the fire department early in the new year. This includes an auto fire engine and a chemical truck.
The sewer system has doubled its mains, now covering almost the entire city.
Work started and far advanced on the \$25,000 church home of the Centenary Methodist congregation at the corner of Magnolia and Reagan street.
Magnolia street has been graded and lots terraced for several blocks.
Block after block of concrete sidewalks have been laid.
The Knights of Pythias have purchased a new lot and are preparing to build a modern castle hall and store room.

Making things as a whole, the city has enjoyed a substantial growth during the year.

JAPS ARE MAKING MAPS

Of the Entire Archipelago, and Another Stir is Occasioned in the Philippines.
(Herald Special.)
Manila, P. I., Dec. 31.—Information obtained today shows that Japanese spies are now engaged in making a map of the entire archipelago. The authorities are aware of this menacing Japanese authority, but are powerless to interfere, owing to the lack of law for the punishment of the spies. The maps are extraordinary and are intended for the particular benefit of Japan should that government seek to forcibly acquire possession of the islands.
