

Important Cases To Be Reargued

(Herald Special.)

Washington, D. C., Dec. 31.—Following the holiday recess the supreme court of the United States will reconvene Tuesday for what promises to be one of the most important sessions in the entire history of that body.

Owing to the deaths of Chief Justice Fuller and Associate Justice Brewer and the illness of Associate Justice Moody, which necessitated his retirement from the bench, virtually all of the important cases argued during the past year before the highest tribunal must be reargued before they are decided.

When the court convenes next week it will be the first time in over a year that it has met with a full bench. The court will be composed of Edward D. White, the new chief justice, and Associate Justices Harlan, McKenna, Holmes, Day, Lurton, Van Devanter, Hughes and Lamar.

There are about thirty important cases heard at the last term which are on the docket for reargument. Many of the cases will be heard at the same time. The fifteen involving the constitutionality of the corporation tax were heard as one case and doubtless will be so presented at the next hearing.

The corporation tax cases are set for argument next Tuesday. These cases were brought to determine the legality of the new tax, which is bringing in revenue at the rate of \$25,000,000 a year. The law went into effect June 30 of this year. Should the supreme court, after reargument, declare the tax not constitutional, the money already collected must be refunded.

Of equal importance with the corporation tax cases are the suits brought by the government for the dissolution of the Standard Oil company and the so-called tobacco trust. These also are on the docket for reargument next Tuesday.

These two cases involve substantially every feature of the "trust question," so far as it falls within the purview of the Sherman anti-trust law. Yet they are not precisely alike. Indeed, it is said that in some particulars they are so dissimilar that the court might find in favor of the government in one case, and against it in the other.

The two cases are alike in that they are proceedings in equity to enjoin alleged violations of the law of the land—neither is in its essence a criminal action. In both suits the charges pressed are those alleging unlawful combination and conspiracy in restraint of interstate trade and commerce, and continuing monopoly or attempted monopoly, of important elements in interstate commerce.

The Standard Oil company of New Jersey is attacked as a "holding company," while the American Tobacco company is alleged to be both a holding and an operating company. Another difference between the two cases lies in the fact that the Standard Oil company is charged with offense against the Sherman law alone; the tobacco corporations are charged with offending also the Wilson tariff act of 1894, which extended the application of the anti-trust law to any conspiracy in restraint of trade one party to which was an importer.

As a result of the hearing of the two cases in the circuit courts, other differences were either made or became apparent. In the tobacco suit the lower court did not find sufficient evidence to hold that there was a monopoly in the trade in question, although it did hold that there was a combination in restraint of trade. In the Standard Oil case, the court was unanimous in finding that there was an illegal monopoly, in addition to there being a conspiracy.

A number of other important cases are to be reargued, in addition to the corporation tax cases and the anti-trust cases. The boycott and contempt cases arising out of the injunction proceedings in the District of Columbia against the American Federation of Labor have been assigned for hearing on January 16. Two other cases of importance are those involving the question whether the penalties for violating the twenty-eight hour law for the transportation of live stock shall be determined by the individual shipments, or by the train. Two more cases involve the validity of indictments for grazing sheep on forest reservations without the permission of the government; two others the use of the waters of the Walker river in California and Nevada, and two more the enforcement of the Oklahoma prohibition laws in interstate shipments. Still another important case that will come up for reargument is that involving the constitutionality of the hours of service law for railroad employees.

International Automobile Show. (Herald Special.)

New York, Dec. 31.—New York's automobile show season is on, and for three weeks the motor vehicle will rule, before it drops back to its normal position among the pleasure and commercial conveyances. Promptly at 2 o'clock this afternoon the doors of the Grand Central Palace were thrown open for the eleventh annual International Automobile Show, comprising the display of the "independent" manufacturers of automobiles and accessories. Monday will see the opening of the Importers' Automobile Salon at the Hotel Astor, and on Saturday of next week the annual National Automobile Show, under the auspices of the Association of Licensed Automobile Manufacturers, will open in Madison Square Garden.

NEW SCIENTIFIC PROCESS.

A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp into little white flakes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness. For years there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ. Destroy the cause, the effect will cease to exist. Kill the dandruff germ and you'll have no dandruff, no itching scalp, no falling hair.

Sold by leading druggists. Send 10c stamps for sample to The Herpicide Co., Detroit, Mich. One dollar bottles guaranteed. Bratton Drug Co., Special Agents.—Adv.

At a meeting of the executive committee of employed officers of the Texas Young Men's Christian Association, held in Dallas this week, it was decided that the next conference of state employes should be held on April 26 and 27, 1911, in Dallas. As there will be no state convention this year, special effort will be made to have as many secretaries, directors and committeemen as possible attend the conference. Invitations have been sent to Judge Selden P. Spencer of St. Louis, Dr. C. A. Barbour of New York and other prominent speakers, to appear on the program. The sessions will begin at 9 o'clock on the morning of the 26th and extend through the 27th, closing with a banquet in honor of the visiting delegates.
