

PARKED SAIS RESOLUTION IS FACED BY GREGIANS

WATERWORKS TRANSFER IS MADE

GEORGE GOULD SEES DOG TO FEAR

DOCTORS FROM MEXICO IN SESSION

INITIATIVE IN NEW MEXICO DEFEATED

Declares the Man Who Beat Him for Presidency Does Not Stick to Truth.

DEFENDS MEN WHO ARE UNDER FIRE

Utica, N. Y., Oct. 27.—This is Theodore Roosevelt's 52nd birthday anniversary. His celebration is being observed in an extra hard day's campaigning. He reached Utica early today and after a short stop there, the colonel started out on a circuit which included speeches at Fond du Lac, Wis., and at the El Paso fair, and a meeting at Utica tonight.

Oswego, N. Y., Oct. 27.—Judge Alton B. Parker, beaten by Roosevelt for the presidency five years ago, is "saying things" about the victor in the state campaign. He says Roosevelt is not sticking to the truth in his campaign talk. Speaking here last night he said:

"This is what our colonel says: 'Now, one of the honest men of Wall street has sent me a letter and in it he has put one of the circulars sent out by Tammany Hall to the Wall street ticker crowd. The circular says that this campaign more than any other will affect the business of the financial interests and every Wall street man ought to give it serious thought.'"

"Observe in passing, that the colonel admits that there is one honest man in Wall street. So that will make two honest men in this state that this campaign has thus far developed. Possibly, with accustomed modesty, he told you when here today who the other one was."

"The colonel is unusually disturbed. He would make a legitimate appeal for the funds needed for the legitimate expenditures of a campaign the issue of the hour, a vital issue, as he puts it. No, that won't do. Nobody will take that seriously. Everybody knows by this time that the Democratic party in this fight stands for tranquility and business peace and is opposed to the wild doctrines of Roosevelt, which would unsettle and disturb business and renew the panic from which the country suffered in his administration."

"Speaking of the charge that Mr. Dix, Democratic candidate for governor, was connected with the 'Wall paper trust,' Judge Parker said:

"Mr. Dix asks for an apology from his detractor. Will he get it? No. The colonel will continue to steal away the good name of Mr. Dix. He will continue to tell you not to vote. This 'big Roosevelt doctrine' resolves itself into this, 'don't do as I do, but do as I tell you.' 'The king can do no wrong.' Is this a warning a decent campaign for decency?"

"With that same disregard for fact, the colonel has declared that the Democratic party of Connecticut has nominated for governor a former judge, Simon E. Baldwin. There was another just as plain, just as clear, just as emphatic which was this: 'Thou shalt not hear false witness against thy neighbor.'"

CHILDREN SEE THEIR FATHER SHOT TO DEATH.

Waxahatche, Texas, Oct. 27.—H. A. Ratterree, who, it is charged, shot and killed Charles H. Boggs last night in Ennis, was jailed here today. He will be given an examining trial at Ennis Saturday.

Boggs was accompanied by his two small children when he was shot, four bullets taking effect in his body. Family complications it is said led to the shooting.

WHOLE BLOCK BURNS IN VICTORIA, B. C.

Victoria, B. C., Oct. 27.—Fire last night swept through the business section of this city, wiping out several of the finest buildings and inflicting a loss estimated at from \$1,500,000 to \$2,000,000.

Fire brands swept over the water front and it was with the greatest difficulty that the firemen, aided by the militia and garrison of Work Point barracks, kept the flames from sweeping a broad path to the water's edge. Several pleasure yachts in the harbor caught fire and were destroyed.

The fire started in the department store of David Spencer & Co., and spread with great rapidity. The Times office and the Five Sisters building, the latter a five story office block, were destroyed. The Driad hotel was considerably damaged and the guests turned into the streets.

A number of firemen were badly hurt by the falling walls. The block in which the fire broke out is bounded by Government, Fort and Broad streets and Troncon alley.

Second in a Year Reported to Have Broken Out in That Ancient Country.

KING IS NOT A NATIVE GRECIAN

Berlin, Germany, Oct. 27.—A persistent rumor in financial circles says that a revolution has broken out at Athens, Greece. Telegraphic inquiries sent to the Grecian capital this afternoon have elicited no response.

About a year ago, led by a lieutenant of the navy, there was a short revolt in which a navy yard arsenal was captured and several warships taken and held for several days, but the revolt was finally suppressed.

There has been much ill feeling in Athens recently against the national assembly, culminating in the dissolution of that body Tuesday. The assembly was especially elected for the purpose of revising the constitution. A new revisionist chamber is to be elected November 28.

The king of Greece is not a native, but is a Dane, being brother of the queen mother of Great Britain. He is said to be very democratic, but he has not proved capable of holding the loyalty of his subjects and has often been threatened with dethronement since he took the crown, November 2, 1863, but has held on until few monarchs have a record of continuous service longer than himself.

The king is said to have to economize a great deal to make both ends meet at the palace. He dresses plainly and travels among his subjects and sips coffee in their cafes in a most democratic manner, often attired in threadbare garments.

SEATTLE MAN IS FILIPINO VICTIM

Man Murdered in Uprising of Natives Managed a Plantation.

Seattle, Wash., Oct. 27.—Earl V. Geer, who was killed in the uprising on the Minisano island, Philippines, left Seattle for the Philippines last December under a five year contract to manage a plantation for the Seattle-Manila Plantation company, most of the stock of which is owned by local capitalists.

Geer was married shortly before leaving Seattle and took his bride with him. He formerly conducted a photograph gallery here. He was 26 years old.

In recent reports made to officers of the company here, Geer said that he was having trouble with the natives, but did not look for a disturbance of a serious nature.

Dispatches from Washington say that no particular significance is attached to the uprising, as a battalion of constabulary and a company of the 29th Infantry, lately from El Paso, Texas, are stationed in Davao. Reinforcements are scattered nearby.

CRIPPEN'S EXECUTION MAY BE DELAYED.

London, England, Oct. 27.—Solicitor Newton today entered an appeal in the court of criminal appeal in the case of Dr. Hawley Crippen, sentenced to death November 8.

The hearing will be expedited, although it may be necessary to postpone the execution. When religious consolation was offered, Dr. Crippen declined it with the remark that he was more interested in getting his rights than listening to a priest.

Unless the home secretary recommends to the crown that he be reprieved, Dr. Crippen will be hanged in Pentonville prison on November 8.

ITALIAN KILLED WHILE MANEUVERING IN BIPLANE.

Rome, Italy, Oct. 27.—Lieut. Saglietti fell from a military biplane in which he was maneuvering today and was instantly killed.

Establish New World's Record Before Descending in Canadian Forest.

HARD TIME IN SEVERE WEATHER

Chicoutimi, Que., Oct. 27.—Alan Hawley and Augustus Post, who made a new balloon record by traveling 1355 miles from St. Louis, the starting point of the international balloon race, reached here at 10 o'clock last night after three days and nights spent in fighting their way through the pathless forest of northern Quebec, a long canoe journey and a drive of 40 miles from St. Ambrose.

This morning they took the train for Quebec. In spite of the hardships they had undergone, both are feeling well and are elated over the result of their long journey. But both agreed that the most welcome sight in all Chicoutimi upon arrival was the bathtub in their room at the hotel.

Their balloon, the America II, is still on the side of an unnamed mountain near Lake Du Banc Du Cable. Joseph Pedmand and Joseph Simard, two trappers who brought the balloons to a bark canoe to St. Ambrose, will go back and see what can be done to get the big balloons to the railroad here. This will not be an easy task.

Hawley and Post landed 46 hours after their departure from St. Louis. They probably flew in all about 1600 miles, although the direct distance to the point of landing is only 1350.

New York, Oct. 27.—A grand welcome home is being planned for the two balloonists when they reach New York Monday or Tuesday. Courtlandt Bishop, president of the Aero club, of America, says he will be the largest celebration of its kind the country has ever seen. All American and foreign aviators now in that city will remain to take part in the celebration.

An Arduous Trip.

Showing plentiful marks of an arduous week of struggling through the wilderness, Hawley and Post reached this city last evening, safe, after causing uneasiness for several days.

They landed at 345 Wednesday afternoon, October 19, 1500 feet up on the face of an unnamed mountain, which as nearly as they could reckon, lies about 53 miles north of Chicoutimi and about eight miles north of lake Tahashagana. They had been involved in a snowstorm, accompanied by a change in the wind to a more northerly direction from that which had previously bade fair to carry them to the Labrador coast. The adverse condition compelled them to land, much against their wishes. Landing was effected easily, but the balloon was left in good condition, they say.

They were uncomfortably near the end of their provisions, and for three nights they were obliged to stop in the open air. It was a stiff fight through snowy forests. The weather was exceedingly cold. When the camp of a trapper was struck on the river Alou, and a day's rest was enjoyed in the hut. Again five trappers appeared and took them down the streams in their canoes to St. Ambrose, a little settlement 40 miles from here. On six hour drive brought them here last night. Tonight they expect to be in Quebec.

According to their reckoning they covered 1450 miles in the air during the 46 hours they were up. Mr. Post, acting as spokesman, told the story of the trip last night.

Story of the Trip.

"We had a great trip," said Post. "We crossed lake Michigan and Lake Huron and followed what I should judge to be the proper route of the Georgian bay canal and if you ask me, there is water enough in that section of the country not only to suit the canal, but to float all the ships in the world."

Then we crossed the Ottawa and floated over the forest of the same Quebec, passing over innumerable lakes and rivers. The country below us always was densely wooded. Finally on Wednesday morning we found that we were north of lake St. John and going well and we had hopes that we would be able to continue the trip to the Labrador coast.

"Unfortunately about 3 o'clock Wednesday afternoon, the 19th, a storm came up and it became necessary to make a landing.

"Next morning we started for civilization, heading south. We had three days of strenuous exercise with no more to eat than was absolutely necessary, as we had to carry all our food as well as the blankets to cover us at night. And we needed those blankets badly, for we had two snowstorms on the way.

Council Closes Final Negotiations for Purchase of the Plant.

CONTRACT PRICE IS CLOSE TO MILLION

Be it resolved by the city council of the city of El Paso:

Section first: That the city of El Paso does hereby sell to the International Water company the \$375,000 of the El Paso city waterworks bonds for the sum of \$300,000 cash.

Section second: That the city of El Paso does hereby purchase of W. H. Burges the entire plant, stocks and assets of the International Water company as it was in existence on September 20, 1910, and since, upon the terms set forth in the deed from said Burges to the city.

Section third: The mayor is hereby authorized to do everything necessary or advisable to carry this resolution into effect.

By the passage of this resolution at the regular meeting of the city council Thursday morning, the properties of the International Water company were transferred to the city of El Paso. The resolution was offered and read by alderman McGhee, and upon the roll call, was approved by aldermen McGhee, Blumenthal and Clayton. Alderman Hewitt is ill, but has sanctioned the purchase of the plant. Mayor C. E. Kelly presided at the meeting.

The contract price for the purchase of the plant is \$327,000. This includes the assumption of outstanding indebtedness, in the form of bonds, amounting to \$477,000. The balance is covered by the sale of the bonds amounting to \$275,000, for \$330,000 and the city's paper.

The deal has been pending for several weeks and the preliminary steps for the purchase of the plant was among the last of the official acts of the mayor, W. F. Robinson, who was killed by a falling brick during the progress of the Buckler building fire.

The city has been practically in possession of the water company plant since October 2, as all the revenue and expenses have been under its direction. Supplies have been ordered by the city. The boring of eight new wells on the mesa is under consideration at the present time and the corresponding cost and end is engaging the attention of the city officials.

Is Not a Nuisance.

The petition of A. L. Sharpe asking for the removal of the popcorn and peanut stand at the corner of Oregon and Mills streets was denied upon the recommendation of alderman Blumenthal, who stated that he had investigated the proposition and that it could not be considered a nuisance, which would be necessary for its removal.

The hearing of the case before the police committee of the city council resulted in O. H. Barbee, a custom officer, resigning from the service. J. H. Nichols, the owner of the stand, charged Barbee with exacting 15 percent commission for the privilege of conducting the stand at the government building corner.

Hospital Removal Denied.

A petition asking for the removal of a hospital at 1905 Arizona street, read at the council meeting last week and referred to the sanitary committee, was denied upon the recommendation of alderman Blumenthal.

The petition of the Mayfield Realty company and J. B. Oliver for water service connections to block 102, East El Paso, was referred to the fire and water committee.

Health Officer's Report.

The report of Dr. W. H. Anderson, city health officer, submitted at the meeting, recites that 19 deaths and 16 births occurred during the past week; that there are but 67 remaining cases of typhoid fever and but one new case of tuberculosis.

Cat Show Is Called Off; No Room—Running Horses to Arrive From Dallas.

FIREWORKS MAN ON THE GROUND

George Gould, the multimillionaire sportsman of New York, has sent his prize winning Russian wolfhound to El Paso to compete in the kennel club show at the El Paso fair. C. N. Bassett, president of the fair association, also owns a prize winning Russian wolfhound and will enter it.

Horse Show to Start on Time.

The horse show will start promptly at 7:30 Monday evening, because of the large number of entries. The entries in the annual show will be at the fair grounds at 6 o'clock in order to pass an examination by the veterinarian of the fair.

The fair association office was moved to the fair grounds Thursday morning and will be located to the left of the main entrance. The office force employed by secretary Rich will be on the grounds until after the fair to attend to the detailed work of the big show.

Cat Show Called Off.

The cat show has been called off because of the lack of room on the fair grounds. A total of 50 entries were received.

An effort is being made to have a branch postoffice established on the main colonnade in connection with the registration booth.

A shipment of 20 running horses is expected from the Dallas fair Friday.

C. W. Wilson, who will be in charge of the fireworks exhibit Tuesday and Wednesday evenings, has arrived with his four assistants to arrange for the exhibit.

QUESTION OF HAIR ANSWERED AT FAIR

Goat Exhibit Will Be Interesting to "Rat" Wearers and Others.

Where, oh where, does all the false hair that women wear these enlightened days come from?

The answer will be seen at the El Paso fair in the goat exhibit of the live stock department. There will be seen the long haired angoras, whose fleeces are clipped, carded, combed and dyed to make "mink" a coat of which old queen Bess would have been envious.

Silver Cups For Exhibits.

L. L. Lussuove, of New York, the biggest buyer of Angora fleeces in the country, supplies exclusively the dealers in false hair goods. To encourage the growing of unusually long mohair, L. L. Lussuove has offered three large silver cups for the best exhibits of long mohair at the El Paso fair.

Many Exhibits Entered.

Director Fred Knollenberg, of the goat department, has received entries for more than 200 exhibits in the animal show at the fair. Secretary S. O. Baker, of the National association, will arrive from Silver City, N. M., Saturday and will establish headquarters for the Mohair Growers' association at the St. Regis hotel.

American Physicians in Sister Republic Hold Annual Meeting in El Paso.

DEMONSTRATIONS AT THE HOSPITALS

A small but earnest group of American doctors in Mexico is holding the seventh annual meeting of the International Medical association of Mexico in El Paso this week, in conjunction with the El Paso County Medical society.

The meeting opened Thursday morning in the assembly room of the Y. M. C. A., where the headquarters for the association have been established. Called to order by Dr. W. L. Brown, of the El Paso County society, the annual meeting was opened with an address of welcome by former mayor Joseph U. Sweeney.

Dr. C. T. Race, president of the El Paso County Medical Society, welcomed the doctors of the meeting and read an address in defense of the medical fraternity.

Response by Dr. Husk.

The addresses of welcome were responded to by Dr. C. E. Husk, president of the International association, who told something of the hardships the members of the association had to contend with in Mexico and outlined briefly the history of the association of reputable American doctors in Mexico.

Scientific Session Opens.

The scientific part of the morning session opened with the reading of a paper by Dr. G. H. Kelly, of San Antonio on "The relation between public diseases and diseases of the mind and nervous system." This paper was discussed by Dr. B. M. Worsham, Dr. S. H. Hodson, Dr. B. H. Stevenson, Dr. F. S. Cary, of El Paso, followed with a paper on "Hydrophobia."

Clinics at Hospitals.

The hospital program which is to be in connection with the convention, opened Thursday morning with an operation for the removal of the gall bladder and appendix at Providence hospital at 8:30 a. m. Dr. B. P. Stevens performed the operation. This was followed by an appendectomy operation by Dr. H. E. Stevenson, at 1:30 p. m. another appendectomy operation was performed by Dr. Stevenson, followed with salpingectomy demonstration.

Dr. Brumby Is Coming.

Dr. W. M. Brumby, state health officer for Texas, who is in Tucson on business, will arrive in El Paso Thursday evening for the meetings of the International Medical association of Mexico and the El Paso County Medical society. Dr. Brumby will remain until the close of the annual meeting and is assisting to make the lecture hall at the El Paso County Medical society on the border a success.

Convention Notes.

Dr. Carlos E. Husk, president of the International association, is located at Santa Barbara, being chief surgeon for the American Smelting and Refining company. Located is used advisedly for Dr. Husk calls Shabbona, Ill., his home, after the fashion of all professional men in Mexico. He is a graduate of Illinois university of the class of 1898, and has been located in Mexico since his graduation. He has been located at Aguascalientes and also at Chihuahua in the employ of the American Smelting and Refining company.

Garage at Quana Burns.

Quana, Tex., Oct. 27.—The Panhandle garage and Sales company's building was destroyed by fire last night, causing a loss of \$15,000. T. Y. Hendrix owned the building. One fireman was injured while fighting the blaze, which started when a gasoline stove exploded in the second story.

Modified Referendum Goes. Republicans Now Working in Perfect Harmony.

HIGH COURTS TO BE MADE ELECTIVE

Santa Fe, N. M., Oct. 27.—The entire day of the constitutional convention was devoted to debating the initiative and referendum. At 7 o'clock this evening the debate will close. The vote will be against the initiative, but a modified referendum, permitting a popular vote on acts of the legislature upon a 10 percent petition and the suspension of any act upon a 25 percent petition presented within a certain time limit, will be adopted.

Harmony has been restored among the Republican majority, but it took three sessions of the party caucus and two days to effect a compromise, but now the Republican delegates will present a solid front and will vote together for the main features of the majority report from each committee. The fight came over the initiative and referendum, an elective judiciary and prohibition. The final agreement is that the initiative is not to be written in the constitution, that prohibition will be left for the first state legislature to battle with, that a modified referendum as quoted above will be adopted.

RAILROADS MUST RENDER IN FULL

Otherwise, They Can Only Earn on Amounts for Which Assessed.

Phoenix, Ariz., Oct. 27.—The only feature of a doll session of the constitutional convention today was that introduced by Jones, of Maricopa, a proposition creating a corporation commission, and providing that the reasonableness of railroad rates be determined from a physical valuation of the road based on the report of the board of equalization for the purposes of taxation.

The system of judiciary has been agreed upon by the committee on judiciary. It provides for a supreme court of three members, elected for terms of six years, at salaries of \$10,000 annually and the age minimum is 38 years. A superior court is also provided for each county excepting Navajo and Apache, which are combined. Salaries are from \$3000 to \$5000.

OAXACA PUTS BAN ON CHURCH FEAST

Trouble May Follow Precautionary Health Measure in Mexican City.

Oaxaca, Mexico, Oct. 27.—Fearing that smallpox might spread if a large crowd were to gather here, the city council has issued an order denying the right to observe the feast of All Souls on November 2, in this city. It is a custom for the Mexican people to gather at the cemeteries on that day and pray for the souls of their departed, but this year no persons will be permitted to enter the cemeteries on that day unless they are accompanying a corpse.

FALL FROM MOTOR CYCLE KILLS YOUTH

Making 85 Miles an Hour at Dallas Fair, Wylie Meets Death.

Dallas, Tex., Oct. 27.—Wade Wylie, aged 20, was instantly killed at the state fair grounds race track this morning when he fell from a motorcycle which was running at 85 miles an hour. This is the second fatality since the races began here.

GEOLOGIST SAYS TOYAH OIL FIELDS ARE RICH

"In my opinion that district will prove to be one of the most productive and richest oil fields ever found in the United States."

This is what Prof. Robert T. Hill, geologist and mining engineer, of New York, thinks of the Toyah field. He passed through El Paso Wednesday from Alamo, Nevada, on his way home. Prof. Hill is operating some rich gold mines in Alamo.

Speaking further of the oil fields in the Toyah district, which he examined in 1903 for the United States geological survey, he said:

"If you draw a line from San Mariz on the dividing line between El Paso county and Reeves, northwest to Guadalupe Peak in the northern part of El Paso county, the oil field lies along the eastern side of that line. The exploration should be conducted in the valleys and plains and not in the mountains."
