Truck and Fruit Business.

Dear Editors—For 30 years we have carefully watched the untiring efforts and unceasing energy of the JIMPLECUTE in trying to get your people out of the old ruts and on higher plains of prosperity, and if you were actuated by the success you have made you would have rung off long ago and said as one of old, "They are joined to their idols."

Twentyfive or thirty years ago at Lodi, we began the trucking and fruit business, a thing hardly known or thought of in Texas, a pioneer and all alone in the business. We tried in vain to show it to our people. We wrote to a commission merchant at St. Louis, P. M. Kiley & Co., telling them what we were trying to do. They sent us a lot of pamphlets showing the prices of different products at the different seasons of the year; express and freight charges, etc. I distributed these among our people trying to get up a concert of action with our people but they could not see it, and they dont see it yet.

You have as fine lands for the business as any county in Texas, and your opportunities for hiring help to gather fruit, berries, etc., is as good as you could ask for. With your opportunities for shipping all together, makes it an ideal place for the fruit and trucking business, which has long passed the experimental stage. It would do your people good to get out and go and see what other localities are doing with no better opportunities than they. Go to Smith county and travel from Troupe N. W., by Tyler, Lindale and all of these shipping points, which are every 5 or 6 miles at this time of the year, and on through peach season. In 1905 Smith county shipped out 125 solid car loads of strawberries, dewberries, blackberries, grapes, peaches, plums, tomatoes, etc. The county and the people are growing rich; lands have advanced from \$3.00 to \$50.00 per acre and prices still soaring upwards. Not only in Smith county is this the case but in all sections in East Texas, where they have the people who have the get up and get about them are prospering.

Last year we had the pleasure of traveling nearly all over the fruit belt of East and North Texas by private conveyance. While traveling we had the pleasure of stopping with our old Marion county friend and neighbor, Jeff Gafford, living four miles south of Sulphur Springs, who was a pioneer in the peach business in his section. He put out 1000 Elberta peach trees, and about his first good crop he got about \$1400 for his peaches. Land there was worth then about \$3.00 per acre, and in two years time advanced to \$25, and now is selling at \$50 per acre. The fruit business is what has done it, and such is the case everywhere where the people have taken hold of the business with system, energy and co-operation. Marion county can do the same.

Fruit men are fast learning that the most successful way to handle a crop is to have a canner; ship as long as you get fancy prices then go to using your canner.

Marion county has some as noble people in it as there is in Texas and if they get out on these lines and organize and stick together, as hundreds of other communities are doing. This is practically nothing but common sense and elbow grease is needed to make Marion county bloom as the rose and her people as prosperous as any people in Texas. D. S. WARNER, Antelope Gap, Texas.

-TREASURER STATE OF WISCONSIN

Uses Pe-ru-na In His Own Family as a Catarrh Remedy.

GEO. W. HONEY, Ex-Treasurer of the State of Wisconsin, is a man of wide acquaintance and extensive experience.

He has used Peruna in his own family with the most gratifying results.

He gives it unqualified endorsement as an efficacious catarrh remedy.

It is just such testimony as this which has given Peruna such a high standard in the estimation of the American public.

There is no possible way to gainsay such frank and genuine testimony.

The only way to account for such testimony is the fact that Peruna really does what is claimed for it.

Because it relieves catarrh, it clears the way for Nature to re-assert her

power over the physiological forces of the body and thus

rid the system of a great many different chronic diseases.

Catarrh is the stronghold of lingering diseases. Once rid the system of catarrh and it is very difficult indeed for disease to linger very long.

Followed Dr. Hartman's Advice.

Mr. John O. Nelson, Dayton, Tenn., geologist and mining engineer, while a Captain in the Federal Army during the Civil War, contracted a case of rheumatism.

This malady was constant and persistent, inducing the development of other ailments, which also became chronic. After taking a course of Peruna, Capt. Nelson writes:

"Having been painfully afflicted with chronic rheumatism and the adjunctive complications for many years, and after having received many general and special treatments with only temporary relief, I read your scientific treatise on catarrhal diseases.

"At my request, you prescribed for me a special course of the Peruna remedies, which I closely followed, and am happy to report that my rheumatism and complicated ailments are subdued, and I feel young again at the age of sixty-nine years.

"Reason will accept your classification of catarrhal diseases as scientific and true, and the Peruna remedies as a standard treatment for them.

"I thank you heartily for your skilled and logical advice."

A bridge force and steam pile drives are at work here on the M. K. & T. railway bridge that crosses Big Cypress. The company will put in a steele span.

The JIMP. People thought they had the first mess of new Irish potatoes, but find that Alderman E. S. Hooper had his first mess on same day, Tuesday.

It is still cold up to Friday morning.

HON. GEO. W. HONEY.

"Other Remedies Failed —Pe-ru-na Efficacious."

Hon. Geo. W. Honey, National Chaplain U. V. U., Ex-Chaplain 4th Wisconsin Cavalry, Ex-Treasurer State of Wisconsin and Ex-Quartermaster General State of Texas G. A. R., writes from 1700 First St., N. W., Washington, D. C., as follows:

"I cannot too highly recommend your preparation for the relief of catarrhal troubles in their various forms.

"Some members of my own family have used it with most gratifying results.

"When other remedies failed, Peruna proved most efficacious and I cheerfully certify to its curative excellence."

A. L. Hewitt, J. P., West Berlin, Vt., writes:

"I am happy to be able to write you this letter in relation to what your Peruna has done for my family.

"When I brought the first bottle home, I found my wife and daughter both sick—my wife with indigestion and my daughter with a severe cold. They were both cured.

"I am willing to state that Peruna, taken in the beginning, will cure the worst cold in 24 to 48 hours."
