THE TEXAS TARIFF DOCTRINE.

There is abundant evidence of a purpose to resist the reaffirmation of the Texas tariff doctrines. A faction of the party, harking back to another political contest and nursing the personal and factional hatreds of a former defeat, will seek to make discord and dissension in the hope of annoying or embarrassing Senator Bailey. But there is even more abundant evidence that the effort will fail. Perhaps by the time the disgruntled ones reach Galveston they will conclude that discretion is the better part of valor. If not there will be no doubt a little dramatic demonstration, a dull thud and a small grease spot.—Fort Worth Record.

And what is the Texas tariff doctrine?
In brief, this:
Give us our part of the loot.—Waco Times-Herald.

SPECIAL MATINEES

FOR LADIES AND CHILDREN

At the Lyric Theatre on Main Street,

Wednesday and Saturday, 5

to 6 O'Clock.

Everybody should get in line and help to make Labor Day a big holiday. It is about the only day in the year when everybody goes picnicing.

Don't send your money away from home. When sent away it does not come back. Beside there are just as good bargains at home as are to be found in Chicago and other mail order centers.

The state democratic convention meets tomorrow, and it is predicted there will be a hot time. We will no doubt have an opportunity of seeing how the policy of political rest and peace is to be inaugurated.

The second and last democratic primary of the year will be held next Saturday, when the candidates will still be reduced to one in a hill. Those making the second race are exceedingly anxious that a full vote be cast.

The government census of Houston shows the city to be about twenty thousand short in population of what the school census indicated and about fifty thousand short of what Houston wanted it to show. Still, we all get these call downs now and then.

The Herald is anxious to give the particulars of an organization of Palestine men who will promote our first big colonization scheme. Such a plan will be the beginning of the immigration movement in this county in dead earnest. Anderson county offers a most inviting field for people who want to build a home in an ideal place, where the climate and soil are all that can be desired.

The democratic party has always stood opposed to a protective tariff, but if signs are not deceiving a bunch of the "modern" democrats who go to Galveston to the state convention will be found asking the party of the state to stand for a deal whereby Texas and the south can get some of the tariff loot. And these are the same fellows who always refer us to the democracy of the fathers.

Here is a grim joke: Some ten or fifteen men rode out of Palestine this morning in a private car labeled "Anderson County for Bailey and Colquitt and Old Time Democracy." Of course such a big delegation riding in this car from old Anderson will carry conviction, in spite of the fact that the county convention refused to indorse Bailey or to give Colquitt a majority in the primaries. But, some people will have their joke at any cost.

Pretty soon cotton will begin to roll in, and then business will move ahead with renewed energy. Palestine has enjoyed a good business right through the summer, but with the coming of fall it will move ahead. It is time right now to make a campaign for an extended trade territory. With the stocks and business concerns here Palestine should have a trade territory extending over four or five counties and it can be had by making the proper effort.

Since it is the people's business they have a right to ask all the questions necessary to arrive at a thorough understanding of the park and fire equipment bond issue. These questions should be asked frankly and answered in the same way. The Herald hopes a full and complete discussion of the issue will be had that no one will have cause to be misled or vote unwisely. As the Herald has stated before it is not interested in the political side of this matter, if indeed it has a political side; we are interested in seeing the city get the parks that it is entitled to.

Both Rested Better.

News from the home of Mrs. Cella Bowen this morning is to the effect that she rested better than usual last night and showed improvement this morning. Mrs. Bowen broke her hip in a fall a few days ago.

It is also reported from the sanitarium that Mrs. Hannah Ash rested better last night than at any time since her accident.

A DELIGHTFUL PLACE

Ferguson's Club House and Cedar Lake Make Ideal Fisherman's Combination.

To have at one's disposal a comfortable house, nice clean beds, and three rooms comfortably furnished, as bed-rooms, kitchen, dining room and sitting room, is not half bad; in fact, it is very comfortable. But add to this one of the prettiest lakes in all this section, and a pretty woodland; the lake full of game fish, and the woods full of life-giving ozone, and free of troublesome insects, and it is certainly ideal. Such is J. H. Ferguson's club house, located on Cedar Lake.

A Herald man spent three days at this place, accompanied by his family, and every minute of the time was pleasantly spent. The house is really a much more comfortable one than many so-called modern homes. The floors are clean, the beds are comfortable, and everything for enjoyment and comfort is at hand that most people have at home. A good well of water is near the cottage, a stable is handy for the team. Doors and windows of the house are all well screened; so there is freedom from flies and mosquitoes. One of the surprises, though, was the absence of mosquitoes. There are not near so many on the lake as are to be found in Palestine. And the fishing is good. In Cedar Lake you have a stretch of about two miles of as pretty fishing water as you ever saw, while just a mile further on is Big Lake, another of the county's most noted fishing places.

Mr. Ferguson will rent his house by the day to couples or families of right character, and the money spent here in an outing is money well invested.

And, too, the road leading to this place is among the best in the county, making the going easy.

Weather Conditions.

A slight disturbance over the Middle Atlantic states has caused rain in the Ohio and Tennessee valleys, and in North Carolina and Pennsylvania. A depression north of the Dakotas has caused scattered showers in the northern Rocky mountain region, the upper Mississippi valley and in some of the Plains states. An area of high pressure, central over Montana, is attended by clear, cool weather in that section. The weather is generally clear over Texas this morning, and light showers have occurred in the southern portion of the state during the past 24 hours. Generally fair weather is indicated for this vicinity tonight and Tuesday.

GETS IN FAST COMPANY

O. J. Dugey, a Palestine Boy, Playing With Waco, Has Been Sold to Chicago Team.

One of the late items of interest in the baseball world is the announcement that O. J. Dugey, known to his teammates as "Kid" Dugey, who has been with the Waco Navigators in the Texas League for the past several years, has just been sold to the Chicago White Sox of the American League, one of the fatest teams in the game. Dugey got his preliminary training in the baseball world in this city when he was a member of the Palestine champion team of a few years ago. Since leaving here and taking up baseball as a profession Dugey has developed into a steady player, and is recognized as one of the best hitters in the Texas League. He plays a good steady game all the time, and his work has attracted the attention of the big leaguers. The scouts for the big teams of the country are getting many good men out of Texas this year, and next year quite a number of Texas League players will show up in fast company. The Texas boys now playing with the big teams over the country have made good.

With Banners Flying.

This morning the Colquitt contingent left for Galveston to attend the state convention. About a dozen went, and rode in a private car, on which banners streamed bearing this: "Bailey and Colquitt, old time democracy. Anderson county. Political peace; legislative rest." The delegation was headed by Dr. E. L. Rose, Dr. J. H. Evans, Judge King, and others.

A larger number of delegates will go down tonight.

This county failed to indorse Bailey in convention, but his friends are determined to let the senator and the senator's friends know Bailey has some friends in Palestine and Anderson county.

Reddin Andrews, nominee for governor. One of the most cultured, eloquent and logical speakers in the movement; Thomas A. Hickey, author of "Roosevelt—the Political Dr. Cook;" Mrs. O'Reilly of Chicago, Ill.

Returns to Palestine.

Dr. Roy Cain, eldest son of Mr. and Mrs. Will Cain, who has been visiting here for several days, returned to Palestine yesterday afternoon, where he has a responsible position in the I. & G. N. railway hospital.

After finishing his lectures some years ago, Dr. Cain practiced medicine in Dallas county for some time. He then went to Palestine and secured employment in the railway hospital, where he has since lived. Those who are familiar with his record as a young physician say that it is very flattering, and a bright future is predicted for him.—Tyler Courier-Times.
