RAILROAD MEN RESTLESS.

Engineers, Trainmen and Conductors in West Want Wage Increase.

Chicago, Ill., Sept. 21.—Seventy-five thousand locomotive engineers, trainmen and conductors on all the systems in the west are preparing to open negotiations with the railroad managers for wage increase of approximately 15 per cent. The engineers gave notice of their demand some time ago, and their general committee will arrive here next Monday to meet the general managers in conference. The trainmen and conductors are now taking a referendum vote before presenting their demands to the management. The vote will be completed October 1, when the question will at once be submitted to the managers. It is expected that thirty days may elapse before trainmen and conductors ask for a conference.

The demands cover every railroad system west of and including the main line of the Illinois Central. The Brotherhood of Railroad Trainmen and the Order of Railway Conductors are acting jointly in the wage movement, while the engineers are acting alone. About 25,000 engineers are involved and over 50,000 trainmen and conductors. The firemen on the same railroads presented demands last spring which were settled by arbitration under the Erdman law, giving the men an increase of about 10 per cent in wages.

FIRE LOSS HALF MILLION.

Uncontrolled Flames Are Sweeping New Iberia, La.

New Iberia, La., Sept. 22.—Fire broke out in the business center of New Iberia at 12:30 o'clock Thursday morning and at this hour it is beyond control and is sweeping everything before it. The fire is being driven by a strong gale of wind and is leaping from building to building with lightning-like rapidity. The property destroyed up to this hour aggregates half a million dollars.

An entire block on Main Street, in the heart of the business section, is enveloped in flames and apparently doomed. There was every indication that the flames would spread and destroy much more valuable property. Special police officers have been sworn in by Mayor Powers to prevent depredations and to safeguard life.

At 1:45 a. m. it was stated that the water supply was proving inadequate. The Southern Pacific railroad tendered engines and cars to bring assistance from nearby towns. As yet, however, no outside aid has been asked.

HE IS NOT IN SYMPATHY

Kavanaugh is Not in Sympathy with President Taft's Waterways Program.

(Herald Special.)

New Orleans, La., Sept. 22.—W. K. Kavanaugh, president of the Lakes-to-the-Gulf Waterway Association, in a letter to Phillip Warlein, president of the Progressive Union, today denounces President Taft's waterway attitude and condemns the president's failure to appoint Lyman Chooley to the board of engineers. Kavanaugh quotes extensively from Roosevelt's St. Paul speech under the subject, "The Waterway Movement Must Go Forward."
