MOORE WAS FINED \$1000

Enters Plea of Guilty to Destroying County Records—Compromise Verdict in District Court.

Wednesday in the district court L. T. Moore, of Rusk, was fined \$1,000 for destroying county records, and he paid the fine, which goes to the county treasury.

It was a compromise verdict, and was entered after the evidence had been heard and the jury had retired to reach a verdict.

On September 20 Moore created quite a stir in the county clerk's office by deliberately tearing out and destroying a page of the deed records, after he had secured the original deed he had left with the clerk previously, for the purpose of recording. Just what was his motive was not ascertained.

At the time of the act Moore had asked one of the lady clerks in the office for the record book where certain deeds he had left for record had been recorded. The book was secured for him, and before it was realized what were his intentions, he had torn from the book a certain page, on which one of the deeds had been recorded. Then he turned to County Clerk Britton, asked him for a match, and deliberately applied it to the scrap of paper, and burned it. Then the man walked out to the court house steps, and was observed to burn the original deed. After standing around the corridor of the court house a while, talking, etc., he walked down to the Lindell Hotel, where he was later arrested, after affidavit had been sworn out against him before Justice Dexter. He declined to make a statement at the time, and remained in jail for a short while until friends could make bond for him. His bond was fixed at \$500.

Moore is a well known real estate man of Rusk.

MR. J. F. NASH

Announces as a Candidate For Representative From This County.

The Herald has been authorized to announce Mr. J. F. Nash as a candidate for representative of this county

in the Texas legislature, subject to the action of the democratic primary. Mr. Nash is well known to the voters of the county. He is a successful farmer, and for a term of years was a county commissioner.

Mr. Nash has some original ideas of legislation, and expects to issue a circular setting them forth. The circular will state his platform, and will give an outline of legislation he deems necessary at this time, and which legislation he will endeavor to have enacted, should he be elected. As to the merits of his suggestions each voter will have to judge for himself.

The gentleman is one of the county's successful men. See the announcement in the proper column.

BIG BUNCH OF CONVICTS

They Occupied the I. & G. N. Waiting Room For an Hour While Women and Children Stood.

This morning, for an hour or more, thirty-one state convicts were seated in the I. & G. N. waiting room, reserved for white passengers, while women and children stood. Through preference some of the women remained outside the building. These convicts were being transferred from Rusk to a state farm in South Texas.

Of course the prisoners had a right to be protected and made as comfortable as possible, but they could have been handled in a manner much less offensive to the traveling public. Being hauled from Rusk in a car they could have remained in the car until transferred to another on the I. & G. N. The very sight of these men in prison garb is an offense to most people—especially to women and children, and in transferring, etc., they should be made just as little so as possible.

THE FARMERS' INSTITUTE

Commissioner of Agriculture Kone and Others Will Address Anderson County People.

Under the direction of the state department of agriculture, Farmers' Institutes will be held at Palestine on January 27; Elkhart, January 28, and Grapeland, January 29. The Palestine meeting will be held in the city hall, beginning at 10 a. m.

The Farmers' Institute is the grown people's school for the study of better methods of farming and live stock raising. Every farmer and public-spirited citizen in each of the localities named should attend these institute meetings. Every one interested in the advancement of the agricultural interests of Texas should join in the discussion of the leading topics which will be discussed.

The meetings will be addressed by Hon. Ed. R. Kone, commissioner of agriculture; J. W. Neill, director of Farmers' Institutes, H. L. Porter, and other experts.

Improved methods of farming will have careful consideration, as also live stock raising, dairying, home building and the household; fruit and truck farming, and any other topic of vital interest in each locality.

The state department of agriculture has published valuable reports and bulletins upon the soil of Texas, citrus fruits, dairying, onion culture, and many other topics of vital interest to the farmers of the state.

It is the purpose of the department of agriculture to organize a Farmers' Institute at each locality named, and many others as rapidly as possible. All members of these institutes will immediately receive all the bulletins issued by the department free of cost, and will be placed on the regular mailing list for future bulletins and reports.

These institutes are farmers' meetings, devoted to the upbuilding of the best interests of the farmer. It is urged, therefore, that farmers bring their families and devote at least one day to a careful study and discussion of the agricultural questions which lie nearest their hearts.

TRADES AND LABOR COUNCIL

Will Hold Important Meeting at City Hall Tomorrow Night.

The Palestine Trades and Labor Council will hold an important meeting tomorrow night in the council chamber of the city hall, and all delegates are urged to be present with their credentials.

The annual election of officers will be held, and delegates appointed to the various labor conventions that meet this year.

Other important matters will also be disposed of, and reports on the progress of the poll tax payment movement among the laboring people will be made, and a last appeal made to union men and others to pay their poll tax before it is too late.

Don't forget the meeting and all delegates from the various labor organizations should be present.

WEATHER FORECAST.

Published By Authority of the Secretary of Agriculture.

For Palestine and vicinity: Tonight and Friday: colder. Minimum temperature, 44. Maximum temperature, 62.

Weather conditions.

A storm area of considerable intensity is centered over the upper Mississippi valley. A secondary depression over Eastern Texas has caused rain in that section and in the southern portion of the Mississippi valley. The pressure is relatively high on the eastern coast and the weather cool. An area of high barometer, attended by fair weather, extends from the

Pacific coast to the eastern slope of the Rocky mountains. The weather is unsettled over Eastern Texas, while it is clear over the western portion of the state.

T. R. Taylor, Official in Charge.

"Dad" Knows.

"Dad" Love says the next governor of Texas will be named Johnson. He says he knows. Dad says he has been making predictions as to who will be governor for the past twenty years, and has never misguessed it once. He has always called the turn, until now he says he is a true political prophet. Johnson has many friends here who hope Dad will hit it right once again.

PAYING POLL TAXES

More Than Six Hundred More Paid This Year Than Were Paid Same Time Last Year.

Anderson county voters are securing poll tax receipts, and getting ready to participate in the year's elections.

Collector McReynolds gave the Herald the figures on poll tax payments up to Tuesday night as 2,108, against 1,496 for the same date last year, which is a gain of 612 for this year, up to that date.

There are to be held some important state and county elections this year, and this is partly the reason for the increased number. Another reason, no doubt, is that the people have more money this year than they had last year.

City Poll Taxes Paid.

Miss Sallie Word, city tax collector, states that up to date there have been paid 480 city poll taxes, and that about the same number were paid at this time last year.

Marconi Wireless to Extend.

(Herald Special.) London, Jan. 20.—Signor Marconi sailed today for America. He will proceed at once to Glouce Bay to superintend the installation of trans-Atlantic wireless apparatus there in place of that recently destroyed by fire. The station at Clifden on the Irish coast has been re-equipped, so that the trans-Atlantic wireless service can be resumed as soon as the station at Glouce Bay is ready. While in America Signor Marconi will also give attention to the plans of the Marconi company to establish numerous stations at points throughout Canada to which messages from Great Britain can be transmitted by wireless telegraph.

Married By Justice Dexter.

On Tuesday in the office of Justice Dexter, the judge officiating, Mr. S. L. Murphy and Miss Lillie May Walling were united in marriage. The bride was a resident of this city, and the groom was formerly in the furniture business here.

Again last night at 11 o'clock at his home on Magnolia street, Judge Dexter was called on to unite Mr. James Lee and Mrs. Nannie Smith in marriage. They are both residents of this city.

The best wishes of friends are extended to both contracting parties.

Danderine

GROWS HAIR and we can PROVE IT!

A lady from Minnesota writes: "As a result of using Danderine, my hair is close to five feet in length."

Beautiful Hair at Small Cost

HAIR troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment; when baldness occurs the scalp has simply lost all its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions.)

The natural thing to do in either case, is to feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Knowlton's Danderine has a most wonderful effect upon the hair glands and tissues of the scalp. It is the only remedy for the hair ever discovered that is similar to the natural hair foods or liquids of the scalp.

It penetrates the pores quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One 25-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself.

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends this free coupon to the KNOWLTON DANDERINE CO., CHICAGO, ILL., with their name and address and 10c in silver or stamps to pay postage.
