## EUROPE STORM SWEEP

### Blizzards, Floods and Hurricanes Extend From British Isles to Italy, Russia and to Gibraltar.

(Herald Special.)  
London, Jan. 26.—Practically all of western Europe is today in the grip of severe storms with blizzards, hurricanes and floods that will cost the loss of many lives and thousands upon thousands of dollars in property. The storms extend from the British Isles to Italy and Russia and to Gibraltar. Ships are reported wrecked along all coasts and many railroads are crippled.

(Herald Special.)  
Paris, Jan. 26.—A heavy snow is falling, but being warmer it is melting as it falls. The weather bureau offers no relief in the situation. It is estimated today that 200,000 Paris homes are flooded and all of the factories located along the banks of the Seine have been closed down, throwing fifty thousand people out of employment. The government today began making requisitions upon all vacant houses in the city for the purpose of sheltering the homeless. Robert Bacon, the American ambassador, refuses to leave his home, notwithstanding that the lower part of the building is five feet in water. Water fills the basement, and the lighting and heating plants have been put out of commission. Even the house has lost its telephone connection with the outside. All of the neighbors of the ambassador are vacating their homes. Almost the entire standing army has been mobilized to fight the raging floods and in rescuing the inhabitants of the inundated sections of the city. A new danger arose today in the encroachment of the water on the city's gas plant in the Granelle quarter, in West Paris. Almost the entire city uses gas from this plant for lighting and cooking. Water is now two feet deep in the basement of the city hall. One hundred and twenty marines and eighty auto boats, under the command of naval officers, arrived here today to assist in the relief work.

(Herald Special.)  
Chicago, Jan. 26.—Inquiry by the federal grand jury into the packing industry of the country has begun in earnest. Thirty witnesses, all employees of the various packing companies in Chicago, appeared in the federal building this noon in response to subpoenas issued by United States District Attorney Sims. No prominent officials of the packeries were called, as the government wishes to be careful that none of the "men higher up" are provided with immunity baths. Secretary-Treasurer Snow of the National Packing company was the first witness to appear in the building. He was called into the grand jury room shortly after noon.

The investigation promises to be the biggest overhauling of government affairs since the famous postoffice scandal of seven years ago.
