

DISSOLVE COAL "TRUST"

Is the Object of the Government—Arguments Heard After Three Years of Examination.

(Herald Special.) Philadelphia, Pa., Feb. 21.—After nearly three years spent in the examination of witnesses for both sides the suit instituted by the government in 1907 to break up the alleged anthracite coal trust came up for argument in the United States circuit court today. The principal defendants in the suit are the Central railroad of New Jersey, Lehigh Valley Railroad company, Reading company, Philadelphia and Reading Railway company, Philadelphia and Reading Coal and Iron company, Delaware, Lackawanna and Western Railroad company, New York, Susquehanna and Western Railroad company, Erie Railroad company, Pennsylvania Coal company, Temple Iron company, Lehigh and Wilkesbarre Coal company, and New York, Susquehanna and Western Coal company.

It is the contention of the government that the defendants are parties to a general combination and conspiracy which stifles competition and obstructs trade and commerce among the states in anthracite coal. It asks the court to restrain and enjoin the alleged monopoly, and to further enjoin the defendants from carrying out the contract with the so-called independent companies by which the latter turn over their product to the larger companies for sixty-five per cent of the tidewater selling price.

THE DOCTOR'S QUESTION.

Some Advice Against the Use of Harsh Purgatives and Physics.

A doctor's first question when consulted by a patient is, "Are your bowels regular?" He knows that 98 per cent of illness is attended with inactive bowels and torpid liver. This condition poisons the system with waste matter and causes accumulation of gases which must be removed through the bowels before health can be restored.

Salts, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments causes chronic irritation of the stomach and bowels, dries and hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has almost, if not fatal results.

We have a pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case where it fails to produce entire satisfaction. This remedy is called Rexall Orderlies. We urge you to try them at our entire risk.

Rexall Orderlies are eaten like candy, they act quietly and have a soothing, strengthening, healing, regenerative influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effects, and they may be taken at any time without inconvenience.

Rexall Orderlies overcome the drugging habit and safely remedy constipation and associate ailments, whether acute or chronic, except in surgical cases. They are especially good for children, weak persons or old folks. Price, 36 tablets, 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Palestine only at our stores—The Rexall Stores, Bratton Drug Co., either store, Oak or Spring street.

conservation of health began in this city today with a good attendance of medical men, health officers and others interested in the welfare of the state and its people. The conference is to last two days and will be devoted to the formulation of a program for the education of the people in regard to public health and the efficient administration of the sanitation, quarantine and other laws having to do with the public health.

Subjects to be discussed during the two days' session include the treatment of tuberculosis, the legal powers and responsibilities of health officers, the economic loss to the state from preventable disease, and the regeneration of child life in the south through modern research methods applied to education and labor. Methods for the eradication of malaria and the hookworm disease, will also receive attention.

DEMOCRATS OF KANSAS

Gathering at Topeka For Purpose of Attending Committee Meeting and Washington Banquet.

(Herald Special.) Topeka, Kas., Feb. 21.—Topeka is today the mecca for leading democrats from all parts of the state, who have gathered here for the double purpose of attending today's meeting of the state central committee and the Washington birthday banquet tomorrow. The conference of the leaders is regarded as important in view of the preparations already on foot for the coming campaign.

Harmony is the watchword of the Kansas democrats just at present. They expect to profit by existing dissensions among the republicans and have strong hopes of electing a part, if not all, of their state ticket next fall. All indications at present point to the selection of State Senator Hodges of Olathe as the candidate for governor. The state central committee is to elect a chairman and secretary and also choose a national committeeman to fill the place left vacant by the removal of John H. Atwood from the state.

TO BE TRIED FOR MURDER.

Case of William and Aime Houle Was Called For Trial Today.

(Herald Special.) Montreal, Feb. 21.—The case of William and Aime Houle, charged with murder, was called for trial at Valleyfield today. The crime of which the brothers are accused was

a token of appreciation of Dr. Murray's efforts in establishing the present educational system in Japan. Dr. Murray, who was a well known American educator and at one time secretary of regents of New York University, went to Japan in 1876 and became superintendent of education. During the three years he remained in Tokio he organized a system of education closely modeled after that in vogue in the United States.

THEY NEVER FAIL.

That Is What They Say About Them In Palestine, and It Is Therefore Reliable.

Another proof, more evidence, Palestine testimony to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of that remarkable preparation:

Mrs. W. B. Rose, 12 Fulton street, Palestine, Texas, says:

"Since using Doan's Kidney Pills I have enjoyed good health and I therefore gladly recommend this remedy. For a long time I was rarely free from backache and I knew that this was caused by disordered kidneys, as the secretions from these organs were irregular in passage. I was also subject to spells of dizziness and pain in the back and top parts of my head. Upon taking Doan's Kidney Pills, procured from the Bratton Drug Co., my troubles soon disappeared. I firmly believe that this preparation will prove of equal benefit to others."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HENRY S. GRAVES, SUCCESSOR OF PINCHOT AS CHIEF FORESTER.

The successor of Gifford Pinchot as chief forester of the United States is Henry S. Graves, who has been director of the forestry school of Yale university since 1900. He was formerly associated in the government service with Mr. Pinchot, and it was through the recommendation of the latter that Mr. Graves was selected to head the Yale school. Mr. Graves is known in Europe as well as in America as an authority on trees, as he has made extensive observations of the methods of scientific forest preservation and use followed on the other side. Mr. Graves was born at Marietta, O., in 1871 and was graduated from Yale in 1892.

committed nearly a year ago. The victim, Domina Pelletier, was a brother-in-law of the accused men. Owing to family troubles Mrs. Pelletier had left her home and was living with the brothers. This led to bad feeling between Pelletier and the Houle brothers, and frequent quarrels took place. Pelletier was shot early one morning last April as he was entering his stable. Investigation led to the arrest and indictment of the Houle brothers on the charge of murder.
