TALK ON FERTILIZERS

In the use of Fertilizers great care should be taken to select the kind prepared specially for the crops you want to grow. The Fertilizer that we are handling is made for us according to the formulas that we know from actual experience are best. The Potato and Truck Fertilizer contains 8 per cent acid phosphate, 3 per cent amonia and 4 per potash. The Cotton, Corn and Cane Fertilizer contains 10 per cent acid phosphate, 3 per cent amonia and 1½ per cent potash. Let us tell you all about it before you buy or plant.

There are only two roads to take. Some enter into competition with Tom, Dick and Harry—the cheapest man in town—and fight like fury to play about even. We get in competition with ourself and forget the very existence of Tom, Dick and Harry, climbing right up to the very dot on this very minute, having all the Good Brands regardless of what others have—the Low Prices as well as the High; the very best in all relative lines at—

GENERAL STRIKE CALLED

Of Union Forces in Philadelphia, Says President Murphy of Central Council, But No Strike.

(Herald Special.) Philadelphia, Pa., Feb. 22.—Although President John J. Murphy of the Central Labor Union declared this morning that he had called a general strike of all the thousands of union employes in the city, no such action has been officially taken and the cooler headed leaders of the union forces say no such action will be taken. Murphy made his statement about a general strike after the arrest and imprisonment of C. O. Pratt, leader of the striking car men, and who was today held on a \$2,000 bail, charged with inciting a riot and revolt. Very few cars are being run today, and from four to six policemen are on each car sent out. The strikers are selling newspapers on the streets and seem to be faring well. Officials of the traction company again today declared that they will offer or accept no compromise in the premises, but will fight to the end and are confident of the outcome.

A company of state fencibles, called out for police duty, fixed bayonets and charged a large crowd of rioters at the Baldwin Locomotive Works, five blocks from the city hall, this afternoon. The mob, which had been stoning cars, broke and fled before the advance of the soldiers.

CHARLES MEETS KAISER

Fairbanks Was Presented to the Kaiser Today—Will Attend American Colony Banquet Tonight.

(Herald Special.) Berlin, Feb. 22.—Charles W. Fairbanks, former vice president of the United States, who is touring the old world, was received in audience by the kaiser today. Ambassador Hill presented the visitor to the kaiser. Fairbanks will be the guest of honor at the Washington dinner of the American colony here tonight.

NEGOTIATIONS ARE OFF

Between Officials of the Baltimore & Ohio and the Trainmen and Conductors.

(Herald Special.) Baltimore, Md., Feb. 22.—Negotiations between the officials of the Baltimore & Ohio railroad and the trainmen and conductors of the system on a new wage scale have been broken off. The trainmen will now take a referendum vote on the question of a strike against the road.

WAGNER WILL INVESTIGATE

Complaints That Labor Agencies Are Misrepresenting Wages Paid.

Austin, Texas, Feb. 21.—H. G. Wagner, deputy state labor commissioner, went to Bartlett on the noon train to investigate the condition of men employed on the Bartlett-Florence railroad, under construction from Bartlett to Florence, Williamson county. Representations have been made to the department of labor that employes have been imposed upon by certain employment agencies.

According to the complaints lodged with the department of labor the men are recruited in a North Texas city and told that the standard pay of \$2.50 and \$3.00 per day would be paid for experienced bridge men, but when they arrive at Bartlett they are put to work without being told what their wages will be. As most of them spent their last dollar to get to this work they are not particular and not suspicious. When the week is ended, however, say the reports, the men find that they are paid \$1.75 per day and out of it comes their railroad fare and board, with the result that they are almost in debt to the concern or person who paid them.

This results in their leaving and an endless chain of laborers being sent to the railroad work from the employment agencies in question.

Mr. Wagner will also investigate the possible existence of conspiracy between the employment bureaus and others who are responsible for the men and their work. If conditions are found as reported prosecutions will follow.

DARING HIGHWAYMEN

Two Men Robbed Cafe Cashier in the Heart of St. Paul This Morning, and Got Away.

(Herald Special.) St. Paul, Minn., Feb. 22.—Stanley Colbron, cashier of the Calings Uptown Cafe, was held up in the restaurant this morning by two robbers, who robbed the cash drawer of \$200 and made their escape in the crowd. As the men left the cafe they shot at the negro door-tender and fired seven shots at men on the street who tried to detain them. The cashier was held up at the point of a revolver while the cash drawer was plundered. The men had evidently hung around the cafe, watching the patrons pay their bills, until they thought enough had been taken in to justify the attempt at robbery.

NIGHT RIDERS WILL AID

In the Next Outbreak Against the Negro at Cairo is the Statement of One of the Leaders.

(Herald Special.) Cairo, Ill., Feb. 22.—That "night riders" from Kentucky and Missouri will be called in to lead the next mob that attempts to lynch the next negro arrested in Cairo for committing crime was the statement made today by a man who is known to have been one of the leaders in the two last outbreaks. Though cowed by the presence of the militia the mob spirit is still evident here. The men who are said to be leaders in the movement declare they are fighting for a principle and are only waiting for an opportune time to strike at the negroes as a class.

CAMPBELL VISITED THE PEN

At Huntsville and Talked With Convicts—Inspected Industries.

Huntsville, Texas, Feb. 21.—Governor Campbell was among the visitors to arrive today for the corner stone laying of the agricultural building of the Sam Houston Normal Institute, which takes place tomorrow. The governor made the trip via Palestine, arriving in Huntsville at noon. He spent the afternoon at the Huntsville penitentiary, visiting the various industries and making an inspection of physical properties of the institution. Later in the afternoon a great many convicts were given an audience, but it is safe to say that only a small percent of those desiring to talk with him had an opportunity to do so. It would consume two or three days of time to hear them all.

There was a joint entertainment by the societies of the Sam Houston Normal Institute tonight, and the subject for discussion was the division of Texas into four parts, but the trip from Austin here and the afternoon within the walls had proven too strenuous for the governor, and he begged to be excused, desiring to rest and be the better fitted for an inspection of the normal and the speech-making that follows the laying of the corner stone.
