## One of Those Handsome Incandescent Lights

Will Make Your Gas Yield Over Six Times More Illumination Than You Can Get in Any Other Way for the Same Money.

We prove this—Never before have we put anything in the way of an improved light that sold in the start like this one. It actually yields a volume of pure white light equal to 150 candles and lights with the pull of a chain—no matches required. We have all the parts—mantle, chimney, and globe—built to our order in quantities that enable us to put them out at factory prices—namely, \$1.60 per lamp. Of course we make no charge for installing them. Call at our office, see one in action, and learn how we sell them and charge cost to your account.

Ask for our booklet, "History of Light." It gives the history of light from the dark ages to the light described above.
