TALK ON FERTILIZERS

In the use of Fertilizers great care should be taken to select the kind prepared specially for the crops you want to grow. The Fertilizer that we are handling is made for us according to the formulas that we know from actual experience are best. The Potato and Truck Fertilizer contains 8 per cent acid phosphate, 3 per cent amonia and 4 per potash. The Cotton, Corn and Cane Fertilizer contains 10 per cent acid phosphate, 3 per cent amonia and 1½ per cent potash. Let us tell you all about it before you buy or plant.

PINCHOT TOOK THE STAND

Against Ballinger This Afternoon.
Said Ballinger Had Done Vast
Harm In the Service.

(Herald Special.)
Washington, D. C., Feb. 26.—When the Ballinger-Pinchot committee met today it was with the expectation that Attorney Brandies would finish the examination of minor witnesses before the end of the day and that the star performer of the prosecution, Pinchot, would be called to the stand.

Pinchot's Statement.
(Herald Special.)
Washington, D. C., Feb. 28.—Gifford Pinchot took the stand this afternoon in the Ballinger investigation, and made a thorough statement of the case. He spoke of the policies of ex-President Roosevelt, regarding conservation, and said that Ballinger had totally disregarded these policies and in many cases had gone exactly contrary, and characterized him as an enemy to the public welfare. Pinchot said that in some cases affecting the conservation of the natural resources of the country at large that Ballinger had been indifferent, which he said was as bad as being hostile, as the enemies of the country got the upper hand, and would always do so unless resisted, and that naturally Ballinger in his position was the only man who could resist them. He declared that Ballinger had done more harm to the service during his regime than Roosevelt could do good in a life-time. Pinchot said he did not believe President Taft was disloyal to conservation, but that Ballinger had falsified to him and made him believe he was doing what is for the best. Pinchot concluded his statement by saying it would have been impossible for Ballinger to have helped the private moneyed interests more than he had in the past.
