IDAHO TOWN WAS BURIED

In An Avalanche---Hundreds of Men Are Doing Rescue Work---Twelve Bodies Recovered.

(Herald Special.)

Wallace, Idaho, Feb. 28.—Hundreds of men are digging frantically today to recover the victims of an avalanche which buried many houses last night at Mace, a small village five miles from here. Three bodies have been taken out and others are reported as found. The latest estimates say that one hundred and twenty-five people were caught under the landslide.

Later report.—Twelve bodies have so far been recovered, and twenty-five seriously injured have been brought to Wallace and placed in hospitals. All of the dead have been identified. The avalanche was caused by the wind and rain of yesterday loosening the snow. A later report estimates the number of buried at one hundred and fifty.

BITTER AGAINST U. S.

Honduras Resents Attitude of the United States Toward the Zelayan Government.

(Herald Special.)

Teucucigalpa, Spanish Honduras, Feb. 28.—The sentiment against the United States and Americans in general has reached such a point in Honduras that the proposition of the Morgan railroad loan is considered as almost certain to be rejected. Congress has been in session nearly two months now but practically nothing has been done, owing to the deadlock on the question of the attitude to be taken toward the United States. Several concessions to Americans were introduced in congress today for ratification, but such a storm of protest was raised that they were quickly withdrawn. The anti-American demonstration is entirely due to the attitude of the United States toward the Zelayan government in Nicaragua. The radical members of congress and the natives fear the same spirit will be shown toward them.

WILL AID THE AMERICANS

State Department Instructs Consul at Managua to Report on and Aid Wounded Americans.

(Herald Special.)

Washington, Feb. 27.—The state department has required its vice consul at Managua to report on the condition of any Americans who might be in the Nicaraguan hospitals and to render them such assistance as may be consistent with our obligations to these men. This carefully worded instruction to the American consular officers in Nicaragua was issued in response to the appeals from relatives of Captain Godfrey R. Fowler in Texas, and of other Americans with the insurgent army, who were either wounded or taken prisoners in the recent clash near Tisma and Granada. It is possible that a detailed report in reply to these instructions will be received within the next day or so.

Dr. Corea, the representative of President Madriz in Washington, says he has not heard anything in regard to Captain Fowler, but points out that President Madriz, on assuming office, instructed all field officers to give due attention and consideration to Americans who may be taken with the insurgent forces.

REBUKED U. S. SENATORS

Justice Wright of the Supreme Court Rendered an Opinion Which Handled the Senators.

(Herald Special.)

Washington, D. C., Feb. 28.—In an opinion which required two hours in the reading, Justice Wright of the supreme court of the District of Columbia administered a scathing rebuke to the United States senate. He held that the court had jurisdiction over the actions of the joint congressional committee on printing, because it is constituted by statute. He advocated that no person is above the law, no matter how exalted his position or station.
