How to Insure Your Pocketbook

To do that you simply make sure of getting the highest quality for the most reasonable price. You yourself cannot be familiar with the values of all the necessities you buy, and so you must rely on what others tell you of the good points of the various articles.

Insure your pocketbook by taking the word of the man who has his all at stake—the manufacturer himself. If he tells you an untruth through his advertisement you will not continue to use his goods, and his profits will fall off. In time his misleading statements to buyers will drive him out of business.

You can insure your pocketbook with the help of THE HERALD—get quality and price and convenience with small effort. Rely upon the advertisements of THE HERALD'S advertisers. You can in that way put yourself out of the power of unscrupulous manufacturers, and be guided to the stores of reliable dealers. It pays in time, money, and trouble saved to read THE HERALD'S advertisements closely and constantly every day.
