

Forty Thousand Women to March In Suffrage Parade

Above is "general" Rosalie Jones, who will take a leading part in the New York suffrage parade. The picture shows her in her famous "hiking" costume and carrying her staff and "Votes for Women" sign. Below is Miss Inez Millholland on horseback and in a costume in which she recently took part in a suffrage pageant. She will lead the parade up Fifth avenue on horseback.

NEW YORK, N. Y., April 25.—Women on horseback, women in coaches, chariots and wagons; women on foot, yes, and men on foot, too, will take part in the annual woman suffrage parade next week. According to the predictions of those in charge every state in the union will be represented when the order to march is given and the procession headed by delegations from the states in which women have won the ballot with Miss Inez Millholland on horseback at the front.

Remembered that his mother and grandfather were Montenegros. "Well," he replied, "I think you ought to be there fighting, but as you are not, I suppose I ought to go to grandpa's aid and show him that we are on his side. Why are you not with him?" "King Victor hesitated and chose his words with care. "I am fighting in Tripoli and I am required here," he said finally.

son of King Victor thinks Italy should help little Montenegro. The Princess and the Acrobats. Another incident to royalty which has provoked widespread discussion befell princess Isabelle, duchess of Genoa, recently.

ACROBATS OFFER SKIN TO PRINCESS. A year ago the duchess was passing on foot through her country place, on the outskirts of a tiny village, when her attention was attracted to a party of strolling acrobats, quite as much by their poverty as by the cleverness of their tricks.

Fourth American Peace Congress Is to Be Held in St. Louis. NOTABLE MEN ARE ITS ACTIVE WORKERS. ST. LOUIS, Mo., April 25.—Notice of the fourth American peace congress to be held in St. Louis, beginning May 1, and continuing until May 2, will be read in all churches throughout the central west tomorrow.

Women Take Prominent Part. At this peace congress the women will occupy a more prominent position than they did at the other three congresses. (Continued on next page.)

American Delegation Goes to Investigate European Financial Systems. PLAN MORTGAGE LOAN BANKS FOR FARMERS

NEW YORK, April 25.—A further effort is to be given the high cost of living in the delegation of 106 Americans which sailed from here for Naples today succeeds in its endeavor to devise a separate banking system for American farmers. The official name of the delegation is the American commission on agricultural cooperation. The investigation is to be made under the auspices of the southern commercial congress. Its aim is to place cheap money at the disposal of American farmers in order to increase agricultural production and to lower the cost of producing food.

Will Aid Currency Reform. The work of the commission is closely connected with the reform of the banking and commercial interests to secure currency reform. The principal aim of those seeking currency reform is that the present banking system which permits banks to re-deposit their funds with other banks who turn them over to the Federal Reserve Bank, the tendency is to collect the surplus of the nation's funds in New York City.

Seeks Mortgage Banking System. The second attempt of the commission will be to secure the establishment of a mortgage banking system in the United States. Such a system in Germany has brought over \$2,000,000 to the German farmers for the development and improvement of their land.

The Commissioners. The federal commissioners appointed by the president are: U. Fletcher, lawyer-farmer and president of the Southern commercial congress; senator Thomas P. Gore, of Oklahoma, chairman of the senate committee on agriculture; representative Moss of Indiana, who was a farmer before he was elected; and Dr. Clarence J. Owens, managing director of the southern commercial congress.

New York Woman Made Coquette. Several American women outside of convent walls have received recognition from the Catholic church for their good works. The countess Anne Leary of New York was made a countess by pope Leo XIII because of her great charities and the work she has been doing in the Balkan war and during the Balkan war and during the Balkan war.

Establishment of Methodist Church in America Due to Barbara Heck. AMERICANS FOUND RELIGIOUS ORDERS. ASHINGTON, D. C., April 25.—The establishment of the great Methodist church in America owes much to the devoted energy of Barbara Heck who was one of the early converts of John Wesley.

Work of Catholic Women. Catholic women in America have been active in many ways. The founder of the order of the Sisters of Charity and its first superior, Mother Seton, was a convert to Catholicism in 1781. Her little band located in St. Joseph, Md., and a copy of the regulations of the order was established in the United States.

Teaching Blind Children. The remarkable steps which have been made in this city in the education of blind children have just been evidenced by a striking report showing the progress of those in the public schools where they come into active competition with normal children. Entirely aside from institutions devoted solely to the education of the blind, the lower grades of the public schools now contain no less than 145 "sightless" pupils who are being taught to read and write and to do the more fortunate brothers and sisters are doing and saying and learning.

New York's Sewage Disposal Plans Call For \$37,000,000 in Expenditures. WAGON DRIVERS ARE WORKING BIG GRAFT

NEW YORK, N. Y., April 25.—Plans for a great sewage disposal plant which will involve the building of a new island three miles out at sea and the expenditure of more than \$37,000,000 for its completion and the purification of all the city's waters, have been completed here, which when they are finally put into effect, will give this city the most efficient sewage disposal system in the country.

New Lines of Organized Graft. New lines of organized graft have been developed so rapidly here since the beginning of the year that it takes something out of the ordinary to make New York sit up and take notice. However, the discovery of organized graft among the drivers of the delivery wagons of the city's merchants amounting to \$2,000,000 a year is attracting much attention and the barium of the whole situation will be closely followed.

How Is Raised. With the \$12,000,000 for the plans for New York's \$37,000,000 courthouse as a result of the competition in which the architect was chosen, a howl of criticism has arisen here as the opening of a controversy which promises to involve the whole architectural profession, to say nothing of the public.

Wife In Higher Authority. Son-in-law throughout the country and daughter-in-law in the city, it will undoubtedly be interested in a decision rendered here to the effect that the wife and not the husband is in higher authority in the home—that is, of course, from a legal standpoint. As a matter of fact, the law is not clear on this point, but a decision rendered here in the case of a woman who left her husband's home and refused to be taken as long as his mother lived with them.

Music Clubs to Meet on Coast. Chicago, Ill., April 25.—Los Angeles, Calif. was the meeting place of the 1915 convention of the national federation of musical clubs.

Paris, France, April 26.—French army posts on the German frontier have been provided with powerful searchlights that sweep the heavens at irregular intervals throughout the night on the lookout for alien dirigibles. This is the latest development in the watchfulness with which the French are guarding the German line, especially since the landing of the Zeppelin at Lunenburg a week or so ago.

Alarm Quickly Given. The wires leading from the frontier to Paris were discovered in the lookout of the Zeppelin crossed the border and descended at Lunenburg. Intelligence officers at the Nancy headquarters received from watchers along the frontier four telephone calls telling of the passage of the airship. The news on all that part of the line were astir with alarm and doubt; a thousand field glasses swept the haze and fog of the heavens for a glimpse of the unwelcome visitor.

Beauty of the rose has been enhanced greatly by a new soil treatment recently discovered in an odd manner. When the first excavations were made for the Paris subway a gardener carted away a few loads of earth dumpings. He tried roses on the soil, thus producing to his amazement they grew finer than in the highly prized fields. Since then there has been a great demand from rose growers for subway soil.

Goby Makes Discovery. M. Goby, a French scientist, has devised a new method for the application of the X-ray to microscopic organisms. He expected to have a very important bearing on the study of the smaller organisms, because of their capacity, have resisted all attempts to obtain any accurate knowledge of their functions.

Invents Flying Bicycle. "Arlette" is the name given to a flying machine propelled by the leg-power of the operator, reading as being a bicycle. It is being tried out at Meaux, near Paris, by M. Etienne, a military telegrapher attached to the third Hussars. He can rise from the earth and fly from 150 to 200 feet. The physical efforts in starting is considerable, but after the start Etienne does not find the work harder than running. With experience and a perfected machine, he believes, a man could probably fly for half or three-quarters of an hour without excessive fatigue.

Public of Central and South America have sent delegations to represent them at the congress. As early as 1875 the peace societies of Central and South America of the United States, 11 women's organizations, 31 educational institutions, 11 commercial organizations and even the territory of Hawaii had already selected their delegates. Since then the number has probably increased two-fold. The fourth American Peace congress promises to be the largest peace meeting ever gathered in the history of the world.

Carnegie a Delegate. The delegates at large include Andrew Carnegie, who has given \$11,000,000 toward the furtherance of international peace, representative Richard Bartholdi, of St. Louis, president of the peace congress; Charles W. Fairbanks, former vice president of the United States; John Barret, director general of the Pan-American union at Washington, D. C.; Thomas E. Green, of Chicago, and Charles A. Towne, of New York.

Women Take Prominent Part. At this peace congress the women will occupy a more prominent position than they did at the other three congresses. (Continued on next page.)

BREAD AND WATER IS FAKE FOR I. W. W. PRISONERS

Colorado Springs, Colo., April 25.—Fourteen members of the Industrial Workers of the World were arrested on their arrival from the police court and ordered to work out their sentences on the city rock pile. This is the latest development in the force of the law against the I. W. W. The court thereupon ordered the men back to the jail to be fed on bread and water until willing to obey the order of the court.

BRYAN'S WINELESS DINNER IS CALLED "TEETOTAL DIPLOMACY"

London, England, April 25.—Teetotal diplomacy as suggested by the innovation at Washington in secretary Bryan's wineless dinner to the foreign diplomats, is receiving considerable notice in the English press. The daily News raises the question whether the American secretary has a real "moral right" to send round the teetotal punch and condemn his enforcement of the law of temperance may not lead to some horrid questions by upsetting the temper and dignities of the diplomat.

Border Constantly and Zealously Guarded Against Invaders.

CROSSING OF ONE AIRSHIP IS CAUSE

PARIS, France, April 26.—French army posts on the German frontier have been provided with powerful searchlights that sweep the heavens at irregular intervals throughout the night on the lookout for alien dirigibles. This is the latest development in the watchfulness with which the French are guarding the German line, especially since the landing of the Zeppelin at Lunenburg a week or so ago.

Alarm Quickly Given. The wires leading from the frontier to Paris were discovered in the lookout of the Zeppelin crossed the border and descended at Lunenburg.
