### FIRST SCOOP FOR RECORD

Fort Worth's New Morning Paper to Receive Associated Press News.

New York, N. Y., Sept. 17.—For the first time since the suspension of the Fort Worth Gazette in 1897, Fort Worth is to have a full Associated Press and Leased Wire service. The directors of the Associated Press today elected to membership Clarence Ousley, editor of the Record, which is to succeed the Register. The service will start with the first issue of the Record about October 1st, and will be identical with the service going to the Dallas News, the Houston Post and San Antonio Express.

Fort Worth's fight for the franchise has been interesting and sometimes dramatic since Mr. Ousley began the campaign last May, and the happy culmination today has brought him the congratulations of all the newspaper people here, few of whom believed he could win without paying a large sum. The situation was complicated with a plausible appearance of vested rights in the franchise by other parties, and much credit is due to President Noyes, and Secretary Stone for the patience and skill they have employed in handling the matter.

With the full Associated Press service and a joint service in combination with the Houston Post, the people of North Texas may be assured that the Record will meet the highest expectations.

The above is a copy of a special which appeared in the Fort Worth Register yesterday morning and will be read with no small degree of interest here where Mr. Ousley numbers his friends by the score. This is the first scoop scored by the Record and the indefatigable work of Mr. Ousley to secure the full Associated Press news service is certainly to be commended. As is well known to newspaper readers the Dallas News has held the franchise for the Associated Press morning news service over Fort Worth since the suspension of the Gazette in 1897, which fact has been a great handicap to a morning newspaper in Fort Worth, but now that this has been removed the Panther City will have a metropolitan newspaper that will not only be a credit to the state, but to the entire South.

Many designs in cut glass. Joe A. Harris, the jeweler.

### The Finch Club.

The Finch Club spent a most pleasant afternoon yesterday with Misses Eloise and Laura McClellan at their pretty suburban home in University addition. In the series of games Miss Annie Kennedy captured the souvenir, a copy of Curtis' "Potaphor Papers." The consolation, a teething ring with an appropriate inscription, fell to Margaret Erwin. Mrs. Arch Thompson and Miss Maud McClellan assisted the hostess in serving an ice course before taking leave.

The latest thing for ladies is the dagger fob. Joe A. Harris, the jeweler.

### Monday and School

Synonymous that day.

**School Books, School Tablets, School Pencils, School Baskets, Book Straps, etc.**

We're Publisher's Agents for school books and are authorized to make exchanges for old books.

Come to us for school supplies.

**HERRING Drug Company**

### MUST BE A CLEANING UP

Dr. Tabor Sends Letter to the Health Officers.

Following is a copy of a circular letter mailed this week by State Health Officer Tabor to every county and city health officer in Texas:

On account of yellow fever existing in several places in Mexico, in cities near Texas, and wishing to prevent its introduction into this state, I request that you take up at once with the proper authorities the matter of sanitation in your communities. I especially urge that means be adopted for the destruction of mosquitoes, as these insects are now known to be distributors of yellow fever. The expense required for the total extermination of mosquitoes would be very small, and the means very simple.

The free use of kerosene oil in tanks, cisterns and pools of stagnant water, or in sewers will effect the destruction of these insects. The oil should be used twice a week. An ounce of refined oil put into a cistern will destroy all wiggletails and mosquitoes, and will not affect the water. Crude oil could be used in other places.

In addition to these methods for the destruction of mosquitoes, other measures should be adopted for the purpose of putting your cities and towns in thorough sanitary condition by a general cleaning up and burning of all trash and refuse matter and free use of disinfectants such as lime, carbolic acid, bichloride of mercury and ashes. This should be done for the prevention of other diseases as well as yellow fever.

As yellow fever is near us, having made its appearance on the border, I respectfully request that this be given your prompt attention and that you take the matter up with the proper authorities, and secure also the co-operation of all your citizens.

Prompt and vigorous action may prevent a disastrous epidemic.

Please impress upon your officials the necessity of clothing you with proper authority and giving you financial assistance to put these measures into immediate effect. The delay of a day may prove disastrous.

Earnestly soliciting the prompt co-operation of every health official in the state, I remain,

George R. Tabor, State Health Officer

Sterling silver shirt waist sets, belt pins and hat pins, all new designs. Joe A. Harris, the jeweler.

### A Busy Day.

Every day is a busy day in Waxahachie just now, but business today appeared to be better than usual. All day long the public square and streets were thronged with cotton wagons and the buyers were kept on the move the greater part of the day. The receipts today were the heaviest of the season and the price paid ranged from 10 to 10 1/2 cents per pound. The business houses were crowded with customers and trade in most all lines was good.

### A WOMAN'S COMPLEXION.

It is rank and foolish to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists. For sale by B. W. Fearis. daw a

If you know a pretty hand on which you would like to see the sparkle of a handsome diamond ring come to see us. We can supply one that will please and the price will be moderate. Joe A. Harris, the jeweler.

### School.

I will open a private school the first Monday in October. Those wishing to patronize will see me as I wish only a limited number. Will begin a night school at the same time. T. B. Criddle. It d-wj

### THE TEXAS STATE FAIR.

Eighteenth Annual Entertainment—Sept. 26 to Oct. 11.

The Eighteenth Annual Entertainment of the Texas State Fair will be formally opened at nine o'clock a. m., Sept. 26, 1903, by his Excellency S. W. T. Lanham, the Governor of Texas, who will deliver the address of welcome in the music hall on the grounds.
