### COMPERS' OPINION.

Thinks Federation Will Not Commit Itself to Any Party.

San Francisco, Nov. 15.—President Gompers of the American Federation of Labor speaking of work of coming session, said: "I cannot give expression to my official views, but personally I do not believe this body will be committed to any special party of whatever name, whatever claim or whatever pretense. The only safe course for organized non-committal to any political party. There may be five or six delegates with Socialistic leanings, but if any resolution looking toward the adoption of Socialistic tenets come up it will, I am sure, meet with the disapproval of an overwhelming majority." The main questions that will come up, according to the president, are the discussion of trade jurisdiction and affiliation of labor bodies, in the opinion of President Gompers the time is not yet ripe for gathering foreign labor bodies into the international federation with the possible exception of the longshoremen of the world.
