Albert Harris Loses Balance and Plunges 50 feet to the Ground; Is Killed.

Elgin, Ariz., July 29.—Albert C. Harris, a homesteader here from Texas, was killed near Sonora by falling 50 feet from a railroad bridge on which he was working. He was using a crowbar to pry up the tie when he lost his balance and fell. The cause of the fall was a heavy rain in this vicinity within the last few weeks and crops and grass are growing fine. Cattle have plenty of feed and water and are fat.

# CHARGED WITH FIENDISH CRIME

Charged with criminal assault, Teo Pas, aged 30 years, was arrested Tuesday night by officers York and Thompson. The complaint was filed Wednesday morning in judge E. B. McClintock's court.

The revolting crime with which Pas is charged is alleged to have occurred on June 24, when, it is charged, he assaulted Trinidad Morales, aged 19. Pas was caught Tuesday night by Wm. Dayton, at the corner of Hill and Fifth streets. He held the accused man until the arrival of the officers. The prisoner was transferred from the city to the county jail Wednesday morning.

When he was taken before the child, who has been in a critical condition since the crime, he declared he killed that he was the man who committed the deed. Pas denied that he had anything to do with the assault, saying he was a hard working Mexican.

# Red Blotchy Skin Easily Remedied

Bathe Your Blood with a Cooling, Purifying Remedy

When your blood is overcharged the complexion of inflammation makes straight for the skin. Then is the time you need that famous blood purifier S. S. S. The skin is a modified form of mucous membrane and it is in these membranes that impurities in the blood are prepared for expulsion. S. S. S. has a most remarkable action in assisting the membranes to eliminate those secretions which are the result of inflammation whether they take the form of catarrh or red patches on the skin. Its cooling, purifying effect is almost immediate since in three minutes after entering the blood it traverses the entire circulation. It so acts upon the cellular tissues in the skin that each cell rejects any invading germ and secretes only its own essential nutriment from the blood.

These facts are brought out in a strikingly illustrated book "What the Mirror Tells" which is mailed free by the Swift Specific Co., 109 Swift Building, Atlanta, Ga. Get a bottle of S. S. S. today of any drugstore and thus insure pure blood and consequent health. Beware of imitations and disappointing substitutes.

# FRANZ JOSEF, IN MANIFESTO FROM THE THRONE, GRASPS SWORD FOR PUNISHMENT.

Vienna, Austria, July 29.—Upon "the intrigues of a malevolent opponent," emperor Franz Joseph, in a manifesto issued Tuesday night, blames the conditions which have brought about war between Austria-Hungary and Serbia. He stated it had been his wish to declare his declining years to peace, but found providence had decreed otherwise.

Thus, after long years of peace, the emperor announced, he is now obliged to grasp the sword.

Alleged Serbia Ungrateful.

The manifesto refers to the ingratitude of Serbia for the support the emperor's ancestors afforded to Serbian independence, how Serbia for years has pursued a path of open hostility to Austria-Hungary; how Austrian rights in Bosnia and Herzegovina, which injured no Serbian rights, called forth in Serbia outbreaks of the bitterest hatred.

"My government," continues the emperor, "then enjoyed the handsome privileges of the stroker, and with extreme consideration and leniency only requested Serbia to reduce her army to a peace footing and promise to treat the path of peace and friendship."

The emperor stated that he was Austrian forerunner two years ago that enabled Serbia to reap the fruits of the struggle against Turkey, the emperor said.

The hope that Serbia would keep its word has not been fulfilled, the emperor stated, and he has been forced to take the sword. He stated that he has been forced to take the sword. He stated that he has been forced to take the sword.

Partial mobilization of the Russian troops in the southern and southwestern districts was ordered by the Russian war office Tuesday night, according to dispatches received here.

It is argued in official circles that although this action is generally considered the chances of maintaining European peace, it does not necessarily imply a rupture of relations between Austria-Hungary and Russia.

STOCK QUOTATIONS NOW AND 20 YEARS AGO ARE INTERESTING IN COMPARISON

New York, July 29.—With railroad securities which for decades have been considered the solidest investment, making new low marks in the stock market, nearly every day, an interesting comparison developed between present prices and those obtaining exactly 20 years ago this month.

In July, 1894, Atchafalaya, Topoka & Santa Fe stock which is selling in the 20's was then selling as low as 3. Northern Pacific which is now selling above par could have been purchased at that time at 1 1/2. Union Pacific at that time sold at 7 and Southern Pacific at 17 1/2. At present these two stocks are selling respectively at over 150 and over 30.

The reason assigned for the great increase over prices of 20 years ago is in spite of the fact that business is supposed to be bad, is that 20 years ago there was a great revival of feeling away from what was then looked upon as wildcat railroad development, the public preferring to invest their money in such railroad securities as New Haven and New York Central on the theory that they were perfectly safe investments because they were properties situated in the settled and prosperous east.

Now, however, the form reversal has become complete. New Haven which has sold as high as 239 is now paying a dividend and last week sold below 50, while New York Central has reached the lowest mark in 23 years. Probably no more striking illustration could be afforded of the manner in which securities expand and contract in value.

EXPLOSION KILLS 25.

Tudela, Spain, July 29.—Twenty-five people were killed and 50 others injured, some of them fatally, by an explosion of fireworks during a local festival today.
