THE MARRIED MAN.

Adown the streets the married man
Starts off with hurried tread,
But from th door a wifely voice
Calls, "Don't forget the bread."

He smiles and nods and turns to go,
The careless married man,
When loud the servant calls him—"O,
You haven't got the can!"

He nods again, in fretful style,
And pulleth down his hat,
And lo! his sister with a smile,
Cries, "Won't you bring my hat?"

"Oh, Yes," he shouts, and, true to tell,
He need not shout so loud;
But shrill his son, with stunning yell,
"Theatre tickets for the crowd."

His daughter from a window high,
Estops him with a call:
She wants a fan, a pair of gloves,
A new pink parasol.

He hears no more; for down the street
His echoing footsteps fly;
And all day long in measure fleet,
He hums, "Sweet buy and buy."

But when the evening respite brings,
And his day's toil is done,
Though told to get a hundred things,
He hadn't brought home one.

Wilford Hall.

How is the mighty fallen!

Wilford Hall, the great phenomenon in the modern literary world, the successful refuter of Newton's Principia, of the wave theory of sound, and Darwin's and others evolution theories, has come to a sudden stop in his progress in enlightening the world. Hall has a task in this celestial drama, but when he goes beyond this, his genius will not assist him, and consequently he acts as many other foolish human beings, when venturing on the cause of spiritualism, earthquakes, dowsing, the entietis of heat or cold, and other questions of science.

In the February Microcosm, page 213, he says that he is glad because the text books are correct in asserting, that cold is nothing else but absence of heat, and no substance whatever, and goes to prove it by the following nonsense: "Every blacksmith knows that if the hot end of an iron bar or rod, be slowly pushed into cold water or a bank of snow, the heat being a substantial entity or thing, will at once begin to travel along the bar toward the cool end by radiation or dispersion, keeping in advance of the cooling water or snow till it will soon blister the hand, if not let go, where just before the bar had been cool." This statement is false, as every blacksmith knows. Hall is stretching facts on the torture bed of Procustes, like modern scientists often do, to make ends meet, with the textbooks. In Hall's writing on subjects outside of those on which he is inspired to write, the clubbish foot of infidelity peeps out from under his arguments. If Hall had consulted the Bible he would not have wrote, "that cold was nothing else but the absence of heat." We have observed, that when there are two sides to a scientific problem, the one which comes nearest the text of the Bible comes nearest to truth. The ship builders on the Mersey river have been for years experimenting on a model for a fast going ocean vessel, finally they adopted a certain model as nearest to perfection. Some time after, one of the workmen found out, that the model was the exact counterpart of the despised Noah's ark.

"Hast thou entered into the treasures of the snow? or hast thou seen the treasures of the hail, which I have reserved against the time of trouble, against the day of battle and war? Out of whose womb came the ice? and the hoary frost of heaven, who hath gendered it?" Job. chapter 38, verse 22, 23, 29.

God spoke those words to Job in a semi-tropical climate, where the cold from the ancient sea of ice, surrounding the North Pole had little effect, therefore God must have had allusion to another place.

Hall is too much learned to reconcile science with the Bible, therefore he sits astride of the fence.

We used to be an infidel on account of too much learning, and at one time, when studying over the mysteries of the sun, we accidentally read the 5th verse of the 19th psalm on the sun, "which is as a bridegroom coming out of his chamber, and rejoiced as a strong man to run a race." Can it be possible that there is a dockyard in the end of the heaven, where so large a vessel as the sun, can be built and launched? The answer is: there must be such a place; first, the Bible says so, and next, the sun with all its regular movements and change of spots, cannot come into existence and hold its own by chance as the textbooks teach. We are not prepared at present to reconcile all of the Bible texts and miracles with science, but we can prove, that cold is an entity, a substance, that emanates from the tundras of Siberia, to act as a climate regulator for the Northern hemisphere.

The common school geographies state, that Jakutsk is near the centre of the Asiatic Pole of greatest cold. According to the information of explorers, it is colder on the tundras (tablelands) near that town than in any other part of the world. This centre of greatest cold is about the 63d degree latitude, the same as the latitude of Southern Sweden and Norway. It is well known, that the coldest weather in Asia, Europe and North America, can be traced to the tundras in the neighborhood of Jakutsk. The testimony of Prof. Nordenscold, who wintered in the Artic Ocean, North of Jakutsk, is especially valuable, consequently we cannot get out of uncertainties, but we must admit, that cold is a terrestial substance, emanating from the tundras and wafted by aircurrents over the Northern Hemisphere. If a current of this Siberian cold strikes North America and meets a Polar wave, this cold is sometimes carried to the Gulf of Mexico. The Siberian cold is a different substance from the Polar cold, it is known in different parts of the world by different names, here in Texas it is called blizzard or blue Norther, and has a peculiar sulphuric smell. If those blizzards should change their course to the Mississippi valley, it would injure the fertility of those regions, and improve the deserts of the Rocky Mountains and the Staked Plains.

Wilford Hall has a permanent list of 40 contributors, published in his Religio-Scientific monthly, the Microcosm. All but one, have a handle to their names, but this exceptional case has such an aristocratic surname (Alphonzo) as to make up for the handle. Hall and his high-toned contributors have on several occasions invited such men as Huxley, Tyndall, Hemholz and others, to contribute. We have tried several times to have replies to contributors, and our original religio-scientific discoveries published in the Microcosm, but never received a reply. It seems there is no room for a plebian philosopher, without a handle to his name, in that high-toned monthly.

How does Hall account for the cold, when the Black Sea was frozen from shore to shore, that the traffic was conducted over the ice? Was it caused by a diminishing of the sun's energy, or by an extra supply from God's treasury of cold? We pause for a reply.

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and Sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.

DR. JOHN BULL'S
Smith's Tonic Syrup
FOR THE CURE OF
FEVER and ACUE
Or CHILLS and FEVER,
AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

BULL'S SARSAPARILLA is the old and reliable remedy for impurities of the blood and Scrofulous affections—the King of Blood Purifiers.

DR. JOHN BULL'S VEGETABLE WORM DESTROYER is prepared in the form of candy drops, attractive to the sight and pleasant to the taste.

THE MOST SUCCESSFUL REMEDY ever discovered as it is certain in its effects and does not blister. READ PROOF BELOW.
Hutchinson's Ranch, 12 miles north of Denver Col., March 5th, 1883.
Dr. B. J. Kendall & Co., Gents:—For the past three years I have used Kendall's Spavin Cure. In every case of Spavin, of which I have treated five, it has killed them all, and entirely removed three. In case of splint, I find it has no equal, one case I had was of three years standing and the Spavin Cure removed it entirely. I had a cow get spavined and it entirely cured her. One year ago a two hundred pound block of ice fell out of a wagon, striking my foot on the instep and toes, it would be impossible to mash a foot more without breaking any bones. I was taken home and carried into the house, I do not think amputation of the leg would cause any more pain. I went for Kendall's Spavin Cure, it was all I need and in six days I could walk around. About three weeks ago my team ran away and threw me out of the wagon, and the hind wheel struck my knee, after applying several highly recommended liniments without obtaining any relief, I went for Kendall's Spavin Cure. My leg was drawn up and my knee swollen badly. In three days I was able to walk to the barn. I could go into details more fully, and make this a very long letter, but will not weary you.
I am very respectfully yours,
OSCAR F. HUTCHINSON.

ORGANIC WEAKNESS & IMPOTENCY IN MEN
Harris Remedy Co. Prop'rs, St. Louis, Mo.
"As to the success of your medicine, this I know, whereas six months ago, I was weak, lean and stoop-shouldered, with aspirations, but no inward force to execute them, whose nights were spent in tossing and rolling upon a sleepless bed, whose days were haunted by melancholy reveries or blighted by blinding headache. I say whereas that was the case then. Now, after the use of your most excellent remedy, I feel myself a MAN—erect, strong; weight 175 the spirits so good that I whistle in the house and shout out of doors. In sight of all this the $5.00 sinks into insignificance. I wish I might be able to benefit lewd or deluded young men by recommending your remedy."
