

COUNTERFEIT W. S. S. HERE

Have you bought a war savings stamp recently? Where did you buy it? And did the little banner of patriotism and thrift look genuine? This is not a question; it is a warning.

The postoffice department has called attention to the fact that counterfeit war savings stamps are on the market, but those various channels through which the stamps are sold despite government laws and warnings.

The last noticed spurious war savings stamps are a close reproduction of the genuine stamps of the El Paso postoffice. "Don't buy them except from banks or the postoffice," was the warning given.

The only noticeable difference from the genuine article is a slight swelling on Benjamin Franklin's left cheek.

But there is a ray of sunshine—some of the counterfeit stamps have been reported to the El Paso postoffice.

PLAN SATURDAY HALF HOLIDAY

As a result of a questionnaire sent out by the chamber of commerce to the jobbers of El Paso, asking views on closing doors during the months of May, June, July, August and September, replies indicate that a majority are in favor of Saturday afternoon closing, resuming their employees for relaxation and pleasure.

All the firms dealing in foodstuffs, and fuel and wholesale firms dealing in dry goods, clothing, boots, shoes and hats have all agreed to close on Saturday afternoons during the summer months.

The vote from the wholesale produce men and grocers is divided on the issue, some not believing it practical to close on Saturday afternoon, others for the months of June, July and August. The decision has been left to the trade, as the movement is a voluntary one.

A number of wholesale firms have been observing Saturday afternoon closing for some time back, among those being A. Mathias & Co., Mottman-Dunnean-Kyan company, Henry S. Beach, C. H. Halsey company and the El Paso Smelter Supply company.

Among the specialty houses that have agreed to observe the summer program are the Tri-State Accessories corporation, the Bordenland Auto Supply company, the Welch Bedding company, S. W. & F. Polard, Meyer & Gott Co., Trueman Steel company, Southwestern General Electric company, Southwest Optical company, General Cigar company and Pant Coffee company.

The decision as to whether the wholesale dealers in tobacco will observe Saturday afternoon closing depends upon an agreement with the trade, several firms agreeing to close providing that all do.

Among the merchandise brokerage firms who have expressed a willingness to observe Saturday afternoon closing during the summer months are J. W. Leontary company, Swanson Brokerage company, Runkle & Peacock, Inc., Malcomson Brokerage company, W. H. Constable & Co., Taylor & Smith, Winter & Dean, Four States Brokerage company, Northern Butter company, De. Korte Egg & Produce company and the Central Produce company.

WAGONS TO MEXICO WATERS

(Continued from page 1.)

Destroyers Fail To Report. The Oklahoma should reach Key West several days ahead of the transport Henderson, which now is en route to League Island to take on an additional force of 1200 marines.

The department early today had received no report from the four destroyers en route Tampico yesterday. Estimates of the state department place the number of Americans in Mexico at between 5000 and 7000, including radicals and strikers who crossed the border to escape the law. The department had no additional advice today from any of its agents in Mexico.

Official confirmation of the fall of the Mexican capital was received yesterday by the state department from the American embassy, which reported there was no disorder in the capital incident to the transfer of authority.

Where Is Carranza? The American embassy report made no reference to Carranza and Carranza and Carranza said they had failed to find him. A report that he had been arrested in Esperanza, state of Veracruz, was without confirmation here either in official dispatches or through advice of revolutionist agents.

Four destroyers left Key West yesterday for Tampico. The remaining two destroyers of the six sent south from New York had week will also proceed to Tampico as soon as minor repairs are completed.

The department made no explanation of its decision to rush ships to Mexican waters. Those to route are the Isherwood, Putnam, Dale and Cass. The Reid and Flusser are at Key West. It was indicated that the senior Blackhawk, with Capt. Leonard officer of the flotilla, aboard, also would proceed to Tampico.

American Is Executed. Los Angeles, Calif., May 15.—Mrs. Harry H. Lyons, of Ventura, today received word that her husband, an American, was shot by Mexicans in the state of Durango late in April, says the Examiner today.

Lois had been conducting a restaurant in the Mexican state, the name of the town not being stated. It is declared that Lyons was arrested by men opposed to the Carranza government and executed after being sentenced by a military tribunal.

Big Plans For Future. Agua Prieta, Sonora, May 15.—If Carranza succeeds in getting out of Mexico, the revolutionists will be pleased; if he is captured he must stand trial in the civil courts for any crimes which he may have committed as president. Gen. Elias Calleja announced here last night.

Gen. Calleja made the announcement in outlining the plans of the revolutionists just before he left for Juarez. He declared that as Mexico City is in the hands of the revolutionist troops marching from Sonora, Juarez probably would be sent direct to Mexico City for garriens duty.

A provisional president will be named to serve until the elections, he said, in accordance with the plan of "Agua Prieta."

The revolutionists desire to acquire, through purchase or legal procedure, all big land holdings, which will be taken over by the new government and opened for settlement under a plan similar to that used in the United States, according to Gen. Calleja.

Trained Men on the Job. Educated and qualified Mexicans in Mexican border states where he declared living conditions were the best in the country as a result of the people coming into contact with American ideals and methods, will be put at the head of various government departments, he said.

A plan for establishing schools and educating the people is to be launched as soon as the revolution is settled, he declared.

"Mexico is making no progress," he said. "It is exactly where it was a century ago. Poor people must have land; they must have credits with which to buy animals and farming implements; they must have education and a new understanding of actual conditions instead of being misled by ignorance and superstition; they must be given an opportunity to produce."

A delegation of Douglas, Ariz., business men and citizens visited Agua Prieta today to bid Gen. Calleja to return through an interpreter, he addressed the delegation.

Reclamation Departments Formed. He told them that a department of reclamation has been established by the Sonora state government for the purpose of starting reclamation work and interesting foreign capitalists in the development of arid lands. In the past, the central government has not authorized irrigation projects, leaving reclamation work to the state or community, he declared.

It was announced at the military headquarters that the international boundary and irrigation commission named by Carranza have joined the committee. The members will continue their usual work, it was announced. Gen. Calleja stated that the commissioners turned over 10,000 pesos to Roberto Y. Pezuela, fiscal agent of the revolutionary party. P. A. Pezuela is head of the boundary commission and P. Perez is chairman of the irrigation body.

TRIED ON BURGLARY CHARGE. Vicente Rogers, accused of having burglarized the Gray jewelry store in the Mills building last month, was on trial Monday in the 14th district court, Judge W. D. Howe presiding.

Cattle are still on the water ranges, chairman Crab stated, and will not be moved to the northern range until the first of July. He added that losses from loco weed were heavier than ever before.

Need of vaccinating cattle this year was stressed by chairman Crab, who cited the danger of blackfly.

MORE TOWNS JOIN REBELS

(Continued from page 1.)

have fallen within the past few days are the towns, Aguacatlan, several small garritons in Tamaulipas, Llaneros, Nuevo Leon, and Parral.

With the flight of Carranza and the entry of the rebel troops into Mexico City, the leaders of the revolutionary movement declare that their mission is practically accomplished and the success of the revolution is assured. They expressed the belief that within a week Carranza will admit the loss of the entire northern half of Mexico.

"We are beginning where the United States began in 1776," Arturo Elias, brother of Gen. P. Elias Calleja said yesterday in discussing the revolution with Americans. "We have followed your example. Before we went into this thing we studied the progress of your working classes and we intend to profit by your example. This revolution was begun 80 years after you had your freedom, but was suspended because there was not sufficient strength to cope with the tyranny we had to overcome. Never again will Mexico hearken to the dictates of an autocrat. She has shaken off the yoke and is going to initiate as far as possible the progress of the American people in obtaining their freedom and prosperity."

Message from Obregon. Gen. Obregon sent the following message to governor de la Huerta, the Obregon junta announced Monday.

Tampico, Mexico, May 8, 1915.—I take great pleasure in advising you that the capital has been liberated and the movement of the revolutionary forces which practically were besieging the city.

A great portion of the forces which constituted the convoy and which escorted Carranza to the state of Coahuila, were overtaken by General Trevino's forces, causing them serious losses.

The first forces to enter the capital were those of Gen. Sidronio Mendes under direct command of Gen. Trevino. The troops of the commander which comes from the states of Morelos and Guerrero, reached the valley of Mexico yesterday afternoon, and today at 4 a. m. (May 8) I arrived here with some military trains, where forces under Gen. Francisco Coello Robledo, Gen. E. Llaneros, Salvador Gonzalez, and Benjamin Hill are joining us. These generals have taken active part in the movement through the valley of Mexico.

City of Polanco Taken. The detachment which I sent from Aguila in the state of Mexico under the command of Gen. Francisco Mayocote and Francisco Figueroa has captured the city of Polanco.

The state of Coahuila joined our movement under the command of Gen. Luis T. Morales on the second instant. I ordered Gen. Morales at once to advance on to Toluca, in the state of Puebla, and to Maltrata, in the state of Veracruz. This movement was so rapid that Gen. Trevino's artillery there to prevent Carranza's convoy proceeding to the state of Veracruz.

Congressman Sanchez and others at Puebla, joined our movement and Gen. E. Reyes Garza occupied Puebla, advising me of it and placing himself and his forces under my orders. Manuel M. Diquez, who is completely bottled and his condition is critical.

Gen. Francisco Murguía before leaving Mexico City ordered a massacre in the Santiago Tlatelolco residential district of the city. The criminal order there were 13 generals, Triana, Lathana, Artigas, Cejudo and others.

"A Obregon." Tells of Chihuahua Fall. Travelers arriving in Juarez bring details of the attitude of the captors of Chihuahua City toward Carranza. Gen. Eugenio Martinez and Joaquin Amaro issued a proclamation immediately following the capture of the city, repudiating Carranza and stating that the army was tired of being humiliated by him and his false promises of punishing wage-floppers. Reports state that the defense societies or home guards also announced their repudiation of Carranza and pledged themselves solely to obey Ignacio Enriquez, who is commanding them at present.

A Chihuahua report states that Enriquez will have at least 10,000 home guards under his direct command within a week.

Pablo, a Turkish subject who formerly operated the gambling hall in Juarez, and who with others remained a staunch supporter of Carranza, was robbed of a valuable automobile and all his belongings during an attempt to flee from Chihuahua City after the fall of Juarez with several others were allowed to leave by the revolutionists, but met with a revolting band which was headed by Pablo. This band robbed him and his companions and forced them to return to Chihuahua.

Travelers also reported that in Chihuahua the new party has levied "forced loans" upon wealthy Mexican citizens, promising in return whatever amount is loaned. Immediately following the establishment of the new government, American business men have not been asked to loan or contribute any funds and have been given every protection, these reports state.
