Model Kitchen Makes Happy Dispositions

More than 35 per cent of the average family income is spent for food, according to Mrs. Beulah Mackay Yates who will conduct the four day Cooking School for the Brownsville Herald at the Junior College

On Tuesday, Wednesday, Thursday and Friday at 2:30, Mrs. Yates will tell her audiences in Brownsville just why every housewife should know the scientific principles

back of every day cooking.

"Whether the family income is large or small," she says, "cooking and eating must go on. The kitchen is the heart of the home ... and it should be made a place of happiness.

Dispositions are made in the kitchen; and why not happy dispositions?

"The woman who goes to her daily task in the kitchen with boredom, is missing a great enjoyment that can be hers. She can turn her kitchen into a laboratory of creativeness. So long as the housewife must cook for the family or must at least plan the meals, why not get some fun out of it."

In her cooking school, Mrs. Yates will teach the women of Brownsville and the Valley how to get fun out of the kitchen ... how to nave a "Happy Kitchen," which is the name she gives her Model Kitchen, used in the demonstrations. Come and see this "Happy Kitchen" and hear this charming woman discuss in the most practical way the science of cooking.
