lumber, coal and iron ore to make shells and guns and airplanes. The same that have billions of dollars worth of lost from invaded territories back into Germany.

These cars and locomotives did not carry food from the farms to the towns for four years, and yet the populace didn't starve. Where are the cars and engines that performed that service for four years?

The allied war council that dictated the terms of the armistice also adopted a resolution to provision Germany against starvation this winter.

President Wilson in his speech to congress said that the allies and Americans are already organizing to feed Germany as they organized to feed Belgium.

Berbert Hoover is today enroute to Europe to start this humanitarian work. If he finds that those cars and locomotives are needed in his task you can depend on it that he'll get them.

Enough said. Some day we may forget how tickled were the German people—women included—when the Lusitania was carried down with its previous burden of our women and babies.

Some day we may forget the pleasure that the people of Germany get when hundreds of women and children were blown to bits in London and Paris by Zeppelins.

But we're not stupid enough to be taken in any more by German propaganda and cunning. We're not quite certain what's the game in this anti-zeppelin appeal but we know it's a trick.

Public Opinion

CONCERNING STREET CAR SERVICE

To the Business Men and Citizens of Amarillo:

An Appeal. It is with great interest that I have read of the various efforts of the part of Amarillo citizens to re-establish the street car service and also to retain the Santa Fe general station in Amarillo.

Remembering now a year ago I was returning from a trip to Kentucky, I met a man from Amarillo, who was in the Pullman car conductor's office at Kansas City's station, but who had been transferred to Amarillo.

Why, she hasn't even started car service? Not having been in Amarillo for the street car service and having had a rather busy, swiftest life, I had not heard of the street car service having been discontinued in Amarillo.

That was going some, when she considers how great was the sum of money that she had to pay for the street car service in the middle of the great war.

Thousands of Americans, having lost faith in the word of the German government, set the peace talk down as propaganda, and they are now pockets and prodded Uncle Sam to "do it."

That is the spirit of an uneducated people. That is the spirit which, shown by the Allies, set forty years of liberation of thought and will to the world's democracy.

THE GERMAN APPEAL AND THE JEREB IN IT.

Woman women are not appealing to American women to supply them with supplies of free food.

Christmas is Near

No matter who you are going to make presents to, either a child or a grown person, you must give some useful article, that is a request from the government. We have followed the government's request by having bought for you only articles which will be of use. This is no time as yet for luxury, for there are many "over there" which have to be taken care of for some time to come. Cloth must be had for all our allied nations, for the ships were not available for shipments of the goods that we were able to furnish them. Now you will see a flow of regular merchant ships taking away from this country all kinds of merchandise to replenish the stocks of Europe which are and have been exhausted for months, and we want to advise you to buy as soon as you can, for everything will not be sold at less than it is sold today, but there will be many things of necessities which will not be had at any price.

BUY ONLY DEPENDABLE MERCHANDISE—WE HAVE IT.
