DALLAS.

Judge A. B. Norton to Stump Ohio and Indiana for Blaine.

And is to Be Made Territorial Governor of New Mexico as a Reward.

Unmerciful Whipping Administered to a Darky by Latter-Day Ku-Klux.

News Gathered for the Public by a Gazette Correspondent.

DALLAS, June 15.—Telegrams to-day announce that the route to New Orleans via the Houston & Texas Central and Texas & New Orleans roads is again open and through trains are running regularly, all obstructions between Houston and New Orleans having been removed and damages repaired.

News was received here to-day that ex-United States Marshal A. B. Norton has determined not to return to Texas until the end of the presidential cympaign, but will stump Indiana and Ohio for Blaine and Logan, and that in the event of their election he is to be made territorial governor of New Mexico.

Application was to-day made at the United States attorney's office, invoking the federal government's aid, under the ku-klux laws, to have a mob of white men headed by Thos. Huff arrested and punished for horribly whipping a deformed negro near Kaufman. The negro's name is Joseph Moore. He is called "Short-arm Joe," on account of his deformed shortness in those limbs. Huff is a livery man at Kaufman. The negro hired a horse from him and it is said he drove the animal very hard, and that as a punishment Huff and others tied him up in a stable and whipped him almost to death with a buggy whip and that the negro's life is despaired of. United States Attorney Bigger decided that there are no federal laws to reach the case, and advised that the state courts be invoked in the matter.

An unconfirmed report reached here to-night that forty horses were demolished and many persons killed and injured by a great wind storm at Sherman this evening.

The next and last grand excursion of the Gould system for the summer (they will be resumed again early in the fall) will leave St. Louis on the 25th of June. The rate has been reduced to one fare for the round trip, and the largest party of the season is expected. The following is clipped from a copy of one of 100,000 circulars now being distributed in the old states:

Midland, the new town on the Texas & Pacific railroad, in Tom Green county, was started on May 13, at which time the auction sale of town lots took place. The sale aggregated near $50,000. Midland is situated in the center of a fine grazing, and soon to become a rich agricultural country. All the conditions are favorable for a prosperous town, and the county seat at an early day. The location is one of the most beautiful and healthy in the state of Texas. We advise all seeking location for stock-raising, farming, and for those wishing to engage in any kind of business to visit this growing town.

On the circular referred to appeared the address of N. R. Warwick, land and passenger agent of the Missouri Pacific Railroad company, Cincinnati, Ohio.

Mein Brothers' band of Dallas, probably the finest in the state, will furnish the music at Fort Worth to-morrow for the state firemen's convention.

The Dallas militia, smarting under the unfavorable showing made at the late interstate drill made at Houston, are working like beavers to retrieve the city's reputation at New Orleans in the international drill next December. The Queen City Guards, under Capt. Houston, are drilling daily, and have organized a drum corps of ten drums, which will add much to the eclat of the organization. The Tompkins light infantry are also working hard and developing rapidly.

The passenger train on the Missouri Pacific, due here from St. Louis at 7 a. m., did not arrive till about 11 o'clock. The delay was on account of the cylinder head of the engine blowing out.

W. C. Connor of Galveston, president of the State Firemen's association, and a large number of delegates from various departments, passed through the city to-day en route to the state firemen's convention at Fort Worth. The delegation from Houston, headed by Chief Coyle, was the largest, having eight in the party.

The pleasant weather is allowing the bois d'arc block street paving to proceed rapidly. The contractors, Harry Brothers, have a very large force of men and teams at work and are rushing things.

The opinion among leading Democrats here is that the state convention at Houston should fix the basis of representation for the next convention at one delegate for every 500 Democratic votes cast for governor at the coming state election, as a delegate for a less number of votes will make the convention too large and unwieldy.

C. W. Slattery, the original Fort Worth street paving and sewerage contractor, is in the city direct from New Mexico, where he and his son have for several months been railroad contracting. Mr. Slattery is here to attend federal court in the suits against the city of Fort Worth for alleged violation of contract, for which he asks damages. The case is to be called to-morrow. Mr. Slattery says New Mexico does not compare with Texas as a desirable country to live. He considers the country about Dallas and Fort Worth as the garden spot of the Southwest.

In the local report of THE GAZETTE this morning on the game of base ball yesterday in Dallas occurs the following remark: "Their (Missouri Pacific's) victory is a creditable one, as there were six of the old famous Brown-Stocking nine of the Dallas side." The author of this statement is badly mistaken. Only one member of the "famous old Brown Stockings" played in yesterday's game—Blakeney, at third base. The following members constituted the Browns of last season: Moloughney, catcher; Coft, pitcher; Murray, short-stop and pitcher; Mullally, first base and catcher; Fisher, second base; Cahill, third base; Lewis, left field; Blakeney, center field; Rawlings, right field, with Seery, Crawford, Stockwell, Parker, Whatley, Mansfield, Scott and Geiss as general players at various stages of the season. Ten of the above named are now playing in Northern professional clubs, two are playing at Shreveport and two have entirely retired from the game. Look yesterday's score-sheet over carefully and see if six of the above names appear thereon. If "six of the famous old Brown Stockings" had been in yesterday's game it is certain to dough-nuts that the side that played against them would have suffered a complete "shut-out." The Missouri Pacifics are no doubt the strongest team in North Texas at present, but before the season is over they will in all probability be given an opportunity to face "six of the famous old Brown Stockings." No two towns in Texas vied so heartily with each other last season as Fort Worth and Dallas to build up base ball, and those pleasant relations still exist, as was demonstrated yesterday. This feeling and endeavor should continue, in order to advance the interest of base ball in Texas. The Dallas boys will try hard to win a trophy from their Missouri Pacific friends on the 29th instant, when they meet at Fort Worth.

Dr. Harris of the Midland Town company is in the city. He is preparing to move his family from Illinois to Midland, where he proposes to permanently locate.

Among the delegates from Houston fire department to the Fort Worth convention, who spent the day in Dallas, is probably the ranking veteran of the fraternity in the South, in the person of Dr. R. Brewster, who has been continuously a member of Protection No. 1, of Houston, 44 since 1840. He is now secretary and treasurer of the company.

A large party of Dallasites left for Fort Worth to-night. Nearly twenty members of "Old Tige" No. 1, leave to-morrow taking their steamer with them.

A much-needed thunder shower fell between 5 and 6 o'clock this evening.

The mortuary report for the week shows nine deaths.

Cards are out for the marriage of A. M. Wheeless, superintendent of the water-works department, and Miss Eugenie Hamilton, to occur on Thursday evening, June 19.

The farmers are harvesting their grain crops most industriously. They keep their labors up through Sunday.

The following parties were united in marriage yesterday: L. O. Beeman and Miss Willie Russey, William Huckleby and Miss Margaret Simms; J. M. Greenberg and Miss Estel Starman.

The tenth annual commencement of Ursuline convent is set for Thursday, June 26.

Walker Barrett, out on bond, has been lodged in jail on three charges of cattle-stealing.

Alderman Alexander of Fort Worth is in the city investigating the workings of our city government. In Fort Worth the city officials get pay for their work in fees instead of salaries, and the people are represented as clamorous for a change. It is estimated that the city secretary manages to get between $4,000 and $5,000 a year out of his office, and the other officers rake in the reals in proportion.

In the case of Plankington & Armour of Kansas City vs. J. D. Lassiter of Greenville, the plaintiffs were given judgment for $1,700 sued for. In the case Schmidlap & Co. et al. vs. Bomar & Dougherty, a motion for a new trial was overruled, and notice of appeal given.

The following paper was adopted by the Pastor's association at its regular session this morning, all the pastors present signing the paper:

Whereas, marriage is a divine institution, and is used in scripture to illustrate the union that is between christ and His church, approved by his presence and first miracle at Cana of Galilee, regarded by the Apostle Paul as honorable among all men, and

Whereas, religious bodies and pastors' associations in different parts of the country have recently expressed themselves in no uncertain way concerning the unscriptural divorce laws, and the evils resulting therefrom in most of our states, and

Whereas, a morbid condition of social morality in our republic has led to lax legislation in nearly all of the states on the subject of divorce, rendering the dissolution of the marriage relation easy, and tending to violate and destroy it, therefore

Resolved, that we, the members of the Pastors' association of Dallas, express our disapproval of such legislation, and will do all in our power to enlighten the public mind and quicken the public codsclence on this matter to the end that we may obtain legislation in harmony with the Word of God, which recognizes one, or at most but two grounds for divorce, adultery and desertion.

Resolved, that we are opposed to the remarriage of the guilty party who has been divorced according to God's laws; also that of all persons who have been unscripturally divorced, and as ministers of the gospel we will withhold our services from such persons applying for the same in order to be remarried.

The annual meeting of the Dallas County Pioneer association coming on the 12th of July, the undersigned committee on invitations take this method of making it known that the association was intended to include every person who settled or was born in the county prior to the 1st day of January, 1850, together with their descendants; and it is hoped that every one of those, no matter where they now reside, how old they are and who compose their families, will attend with any and everything else of interest in regard to their immigration to and settlement in Texas. Man and wife, of course, are one, and either being a pioneer makes the other so.

The committee are directed to say that the meeting is intended to be a quiet, unostentatious gathering, suited to the taste and comfort of the old folks and the enjoyment of the young; that the grounds are in a fine shade of native trees and comfortably provided with seats, stands and water.

That there are ample grounds just outside the park for wagons and teams, and even for camping if persons are provided for doing so.

That arrangements will be made with the wagon yards of the city for the best terms possible for camping and keeping stock.

That it is desirable to make this a complete reunion of those who composed the vanguard of the vast body of people who now inhabit the country, so that their names may be enrolled and all the interesting incidents of their immigration and settlement recorded.

That it is expected that each person or family will bring a supply of provisions that we may eat upon the grounds and near each other, so that as little time as possible may be lost of social intercourse.

That a programme will be published in time and distributed that all may understand the order of proceedings.

That a committee of reception will be appointed and notice of it given, so that every person or party will be waited upon on their arrival and directed to the place of meeting and advised in regard to any accommodation they may need.

That the meeting will be held at Shady View park, on San Jacinto street, about one and one-half miles northeast from the court-house, beginning at 10 o'clock a. m., Saturday, 12th of July, and continuing two days, subject to the pleasure of the association. Pioneers of all the counties of North Texas are invited and requested to unite with us in our picnic and in the pleasures of our reunion.

The papers of Dallas and of other places in North Texas, especially westward, are requested to publish these arrangements.

Z. E. COOMBS,
JOHN C. MCCOY,
Committee.

James Wilkinson, one of the leading gambling-house keepers, to-night settled with the county by paying $5,000 cash and signing an agreement never to again gamble in Dallas county. It is generally believed that this ends the famous gambling war so bitterly waged in Dallas for the past year, as the indicted parties who had not compromised have left the city. It is said their bonds are of such a character that it is doubtful if the city can realize against the sureties if it brings suit. Wilkinson, if he had stood trial and been convicted on all cases against him, would have had to pay in the neighborhood of $30,000.

Jack Brock, the alleged stage-robber recently convicted for life in the United States court for alleged mail robberies in Black Hall, is to have a hearing on Wednesday next for a new trial. Four of his alleged accomplices came clear, and there is much sympathy for him.

The rapid increase of summer resorts at the West is affecting the business of the Eastern hotels more and more every year.

Assets and liabilities not yet stated but the former is believed nominal, consisting mainly of the plant which cost only originally $200,000; liabilities are chiefly in Southern cities. General depression in the trade for the past two years and uncertainty as to the action of congress on the tariff are given as the principal causes of the failure.

Exorbitant Charges Made for Transfer—Heavy Damage Suits Filed.

Special to the Gazette.

SAN ANTONIO, June 16.—Several damage suits will shortly be brought against the Sunset railway to recover costs and losses incurred by contractors who had been employed on the grading of the Mexican extension, in getting their outfits back to Texas. The railroad company and the Mexican authorities had an understanding that the outfits should be returned free of duty upon certificate by the railroad officials that the outfits extracted were exactly the same as taken into Mexico, and $250,000 were put up as security by Col. Huntington in the City of Mexico. The railroad authorities refused to sign, under the pretext that they might be laid liable to the duty laws and would offend the Mexican authorities to the detriment of the road's interest. Contractor Howard has just made a test of the question and succeeded in forcing the railroad's auditor at Piedras Negras to sign his papers and he was allowed to cross without paying the heavy duty which many others paid without contest. The contractors will sue to recover what they have so paid out and Mr. Howard will sue for several thousand dollars damages on account of delay and heavy court and incidental expenses. The cases promise to be interesting, as they will be tried in this state and many Mexican witnesses will be summoned.

It will take forty or fifty days to repair the washout on the Southern Pacific between Rice and El Paso. The fare between the points is $8 in uncovered wagons, with eight passengers to the wagen, and $5 extra for baggage.

PALO PINTO, June 16.—Dr. R. C. Buckner is here and preached yesterday in the court-house according to announcement four weeks since. He fully met the expectations of our people as a theologian. The people were expecting Prof. D. C. Hart to accompany Dr. Buckner and conduct the music in the meeting at this place. He failed to come, but we still expect him to be on hand, as the services will last for several days. All will be somewhat disappointed if Prof. Hart does reach here before the meeting closes.
