A SINGING MOUNTAIN.

...rada Has a Musical Wonder That Has Long Puzzled Prospectors.

In the Truckee mining district, down ...Truckee river, near Pyramid lake, is ...ssed Nevada's musical mountain. ...mountain was first discovered by the ...ttlers in 1863, at which time ...e was some excitement in regard to ...e mines found in its neighborhood. The ...rvers were a party of prospectors from ...Comstock.

They had pitched themselves at the foot ...e mountain, and for a few evenings ...ught themselves bewitched. Each ...ming a little after dark, when the air ...s calm and all was quiet, a mysterious ...sort began. Out from the face of the ...mountain were wafted soft strains ...d seemed to cause the whole atmos...re to quiver as they floated over the ...p. The music then appeared to pass ...r until it was far, far away and almost ...t in the distance, when, beginning with ...inkling as of many silver bells, there ...uld be a fresh gush of sweet notes from ...e mountain.

During the daylight hours little of the ...sterious music was heard, and it was ...t settled that it was not caused by the ...nd. A spring near which the explorers ...d pitched their tents afforded the only ...d camping grounds in the neighbor...od, and as each new party of prospect...s arrived at the spot the wonder grew.

...me Piute Indians who came along ...d camped at the spring were found to be ...quainted with the peculiar musical ...omenon of the mountain. They called ...e the "singing mountain."

...me of the men collected in the camp ...ecame more interested in the mountain ...an in prospecting and gave most of ...eir time to an investigation of the mys...ery of the musical sounds heard to pro...ceed from it. They found that the whole ...ce of the mountain was covered with ...ns formed of hard crystalline rock. There ...ere immense beds of these flakes. The ...estigators concluded that the musical ...unds heard proceeded from this loose ...terial, huge drifts of which seemed to ...e gradually wearing their way down ...e steep face of the mountain.

...n the grants, the strains heard at the ...t of the mountain in the evening's still...ss seemed to be produced by the uniting ...d blending of the myriads of bell-like ...ellings proceeding from the immense ...ds of shaly debris sweeping, glacierlike, ...wn the slope.

...e solution of the mystery of the mus...al mountain is the only one worthy of ...te. As no mines of value were found, ...e district was soon deserted and has ...ce seldom been visited. Therefore few ...ops old time prospectors knew much ...out the singing mountain.—Virginia ...y Enterprise.

Died For His Superstitious Faith.

That reminds me of an instance of ...ld superstitious faith on the part of a ...w Mexican Indian which I witnessed ...ay back in the seventies. It was just ...er one of the annual snake dances, in ...e course of which rattlers are handled ...n the greatest impunity, probably be...se the priests had previously removed ...r fangs. A reward for zealous devo...n is immunity from death from snake ...es for exactly 12 months, and the man I ...w to showed his faith in the promises ...getting bit. He was showing a party ...posed of myself and three other men ...ut across the country, and as we ...e traveling along an almost hidden ...l we came across an enormous rattle...ke. We were for killing it right away, ...t the red guide implored us not to, say...g that the death of the snake would ...ak the charm over him. While argu...g with us he deliberately trod on the ...ke with his moccasined foot to show ...at he could not be injured by it. In ...stant the snake had planted its ven...m into the fleshy part of his leg. We ...w the animal a wide berth and resumed ...r journey. The Indian sang happily for ...me, then became strangely quiet. He ...d not go much longer than the average white ...an would have done under the circum...nces, but as we had no remedies with ...m nature took its course, and he died be...re the sun went down.—St. Louis Globe-...mocrat.

Eyes With Axes at Variance.

"I was astonished to learn the other day ...at the axes of my eyes are at variance ...th their position," remarked L. M. Met...f, a Philadelphia drummer. "I had ...en thinking for a long while that there ...as something wrong with my optics, ...en I blinked them I discovered that ...r a moment afterward everything look...d jumbled. I went to an eminent oculist, ...d as soon as he had examined my eyes ...ld me that the axis of the right was ...ntal in position, while that of the ...t was perpendicular, and that I was ...n with the internal mechanism of my ...es in that peculiar condition. I was ...a little distressed until he connected me ...h the assurance that at least a third ...the men and women of our race were ...arly affected, though the discovery of ...s comparatively new to the science of ...thalmology. No medicine will cure ...fliction, nor will the surgeon's keen ...e.

"The only way to correct this contrari...y of vision is by the use of glasses spe...ly and delicately made to fit each par...lar case."—St. Louis Republic.

Mary Stuart.

...ary Stuart was one of the most fasci...ng widows who ever lived. She had ...ensive experience in the condition of ...ehood and thoroughly understood ...ends of all sorts and conditions of ...e. She fascinated every one with whom ...e came in contact, and even her jailer, ...ng her last imprisonment, rivaled his ...s in unsuccessful attempts to secure ...ence. Unluckily she was exposed to ...e jealousy of an old maid, the virgin ...h, who could not endure the idea of ...e being more fascinating than her...lf, and so at the earliest opportunity ...y was locked up by the rival, who was ...ne of her beauty, and after a long ...eatment was finally put to death ...y of pure jealousy.—Chicago Herald.

Not What He Meant.

Mr. Striker—Don't you believe in the ...ss of labor?

Mr. S.—Of course I do. Why, my dear, ...re was no union of labor the greed ...pital, with its iron heel, would——

Mrs. S. (interrupting)—That's all right. ...ow you go up and build the fire, and ...ck breakfast.—Detroit Tribune.

...hat is asserted to be the oldest life-...ce in existence is preserved at South ...ra, England, as a valued relic. It ...s built into, and during more than ...ty years of active service was instrumental ...ving 1,005 persons.

...small is the thread carried by the ...ts of the pigeons that the process ...ending requires the aid of mechanical ...s.

GREAT IN TEXAS,

...Sherman Sells. Who Has Seen the State Office.

...Tex., Oct. 6.—A great many ...ers with their strings of horses ...ed today and next week they will ...n to ship beyond the staples. Colonel ...ing pro...ce to-morrow.

It will be even better than we anticipated."

Colonel Peter Sells of Columbus, O., the veteran showman, is in Texas recuperating his lost health. He said today: "I have been coming to Texas for the past fifteen years, and feel that I have an interest in the state. I regard the possibilities of Texas far greater than even Australia offers, as the state is certain to become the most advanced of the statehood owing to its mixed population and its magnificent school system. Settlers are pouring in from Nebraska, Kansas and other states. The virgin soil, salubrious climate, independence of the people, their hospitality and freedom from political bigotry are the great inducements offered to homeseekers. I am glad that the state fair promises to be a great success. The fair should be sustained. It draws the people together in close bonds of friendship and cultivates those essentials necessary for advancement in agriculture, the arts and sciences. Texas is in splendid shape and is destined to become the empire state of the union."

AN A. P. A. MAN,

Who Is a Judge, Gets After an Editor.

Omaha, Neb., Oct. 6.—Judge Cunningham B. Scott of the criminal branch of the district court and a leading A. P. A. cited Mr. E. Rosewater, editor of the Bee, to appear before him Tuesday and show cause why he should not be adjudged in contempt of court. The court has undertaken to establish a press censorship with reference to reports of the routine work of his court. Yesterday the Bee printed a local item reciting the manner in which Judge Scott questioned applicants for citizenship appearing before him with reference to their religious opinions and particularly as to the relative superiority of church and state [illegible] the answers those secure or denies to those professions for serving the church certificates were refused.

THE best investment in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Strictly Pure White Lead

You cannot afford to use *cheap paints*. To be sure of getting Strictly Pure White Lead, look at the brand; any of these are safe:

"Southern," "Red Seal," "Collier."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead the desired shade; they are of no more trouble to use than a combination of perfect pure colors to the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property owners by having our book on painting and color-card. Send us a postal card and get both free.

NATIONAL LEAD CO.,
St. Louis Branch,
Clark Avenue and Fourth Street, St. Louis.
