A GREATER JOY BY FAR.
 A prominent representative of the Pullman Palace Car company submits the following lines for publication with profound apologies to the author of "When the frost is on the pumpkin and the corn is in the shock":
 Poets may sing of the joys of spring, of the sunshine, the fresh and budding trees,
 Of fragrant flowers, of shady bowers, of the charms of lakes and seas,
 To me there's a joy that is greater far than the glamour of sea and sky:
 'Tis when the bloom is on the cocktail and the rock is in the rye.
 A test of the fire pressure of the water works plant was made yesterday just after noon and was highly successful, both to the firemen and the management of the plant. The city seems to be in vastly better shape as regards water supply and fire protection than ever before. AGUINALDO JEALOUS OF AMERICAN INVASION.

He is Respectful to Dewey, Merritt and Consul Wildman, but Will Give Them no Aid.

New York, Aug. 2.—A cablegram to The Journal from Cavite under date of July 30, via Hong Kong, reports the correspondent of that newspaper spent two days interviewing insurgent leaders. As a result the correspondent says he discovered evidences of jealousy of the American invasion, but no actual anti-American feeling. The dispatch adds:
 "Aguinaldo is respectful towards Dewey, Merritt and Consul Wildman, and will go any length to retain Wildman's good opinion, but holds back from giving energetic help to United States forces. He gives only a negative sort of assistance until he knows the exact form which the American policy will take. He is disturbed by the telegraphic reports that the United States will abandon the islands and return them to Spain. There are some indications of a clash between Merritt and Aguinaldo."

The prisoner has confessed his crime and says he is willing to take the consequences. Wass murdered F. H. Ruschhaupt, a druggist, on May 14. Wass's wife, who was divorced from him, was married to Ruschhaupt.

Populists Hold the Situation.
 Lincoln, Neb., Aug. 2.—A night of caucusing and conferences failed entirely to clarify the political atmosphere, incident to the fusion state convention which met today. CHANGE TO BE MADE IN NEW BATTLESHIPS.

They Will Be Made Larger, the Guns Changed, and Speed Increased to Eighteen Knots.

Washington, Aug. 2.—The question of the speed of the three battleships provided for by the new naval programme has been reopened again. It is proposed now to change these designs completely, to drop everything that has been done and start all over again with the intention of making the new war vessels larger than was intended, and speedier and consequently costlier. To do this will require an amendment to the law providing for the building of the three battleships. That law says they shall be of a displacement of "about 11,000 tons" and shall not cost more than \$5,000,000 each.

The proposition now under consideration is to give the proposed ships a displacement of 13,000 tons instead of 11,000 and to fix their minimum speed at 18 knots instead of 16.

The new scheme contemplates a main battery of 13-inch and 8-inch guns instead of 12-inch and 6-inch as in the present designs, this change being prompted also by the lessons learned from the Santiago engagement.

A further and a most important change proposed to be in the new ships is the addition of copper sheathing. The experience of the fleet in southern waters during the present war when the battleships and cruisers have steadily lost what speed they started with as the result of marine growth on their hulls, has convinced the board that, costly as the sheathing is, it will be economical in the long run, since it will enable the ships to retain their speed for an indefinite period.

Will Be Treated as Aliens.

San Francisco, Aug. 2.—Hart H. North, commissioner of immigration at this port, has received instructions from Washington to treat all immigrants from Hawaii as alien immigrants until such time as laws can be perfected to govern them. The rule will settle all question as to the entrance of certain races for the time being and will be a warning to steamship companies.

Tank Gave Through a Skyscraper.

Dallas, Aug. 2.—The foundation to a 90-barrel tank, being erected on the Crowds Drug company's building here, gave way and the tank crashed through the skylight of the Scarf & O'Connor building adjoining, landing in the basement 2-stories below. One man working on the tank went down with it, but escaped harm. Scarf & O'Connor place their loss at about \$9000.

Mr. Clute was a man of means, having made money in manufacturing in New York. He had been in Texas about twenty-two years, residing in Brazoria, Freestone and Leon counties. He came to Bryan from Oakwoods nearly two years ago. He was unmarried, and his only relative here is Miss Jane Sheldon whom he raised from childhood.
