COTTON HAS A STRONGER TONE

EXPECTATION OF BULLISH CROP WAS THE CAUSE OF IT.

REPORT DISAPPOINTED THE BULLS

The Market Was Finally Steady at An Advance of From 9 to 13 Points.—Other Trade Notes and Movements.

New York, Sept. 13.—The cotton market opened firm at an advance of 10 to 17 points on active covering, and buying in response to firmer cables than expected, expectations of a bullish crop report at mid day and fears that the colder weather in the north might work southward into this belt. Cables continue firm and the market worked steadily upward until just before the mid day hour, it showed a net gain of about 19 to 22 points. The government report was on the whole disappointing to the bulls. Following the reading prices broke sharply under liquidation and selling by New Orleans.

After declining to a net advance of only 4 or 5 points, however, the downward tendency was checked and in the late trading, the market showed a very firm tone with demand more or less general. The market was finally steady at a net advance of 9 to 13 points.

Sales were estimated at 400,000 bales.

Bureau Reports Shedding.

Washington, D. C., Sept. 13.—The weather bureau's weekly summary of cotton crop conditions say that while rust and shedding continue over a large part of the cotton belt, reports of inquiry from these causes are less numerous than in the previous week in the central districts.

New Orleans Cotton.

New Orleans, Sept. 13.—In the spot cotton market there was a good demand at slightly higher prices. Offerings were somewhat restricted. Sales 6,400 bales, including 4,900 to arrive.

Quotations advanced 1-16.

Futures opened steady at an advance of 8 to 14 points, responding in a measure to the improvement in Liverpool and New York. The general belief was that sensationally bullish weekly bureau report would be put out and on this belief quite as much as on the strength of the other markets, prices advanced until just before 11 o'clock when the most active options stood 25 and 26 points above the close of yesterday. The bureau report while bullish, was not as bad as expected and its reading was followed by rapid declines of 15 to 16 points.

In the trading October opened 14 points up at 10.08, advanced to 10.19, declined to 10.01 and finally recovered to 10.15. December opened 14 points higher at 10.13, advanced to 10.25, declined to 10.06 and finally recovered to 10.19. The market closed active and firm.

Net gains were September 28 points and 20 to 22 on the other months.

FINANCIAL.

SECURITIES STRONG.

Were Influenced by the High Price of Wheat. Fear of Frost.

New York, Sept. 13.—Securities were influenced by high prices of wheat today. The low stage to which the wheat crop prospects have fallen, has become an accepted fact in Wall street so that the principal attention is paid in speculaive circles to the corn crop on which remaining hopes are largely based to redeem the condition of affairs. The unseasonable weather in the corn belt therefore cause great alarm which the stock market was unable to withstand.

A weather forecast which told of frosts for tonight in the corn belt created apprehension.

Southern railroad showed good resistence to the decline but this movement is attributed to the existence of a pool in the stock and did not save the other common carriers from suffering.

The weakness of stocks had no effect on bond. Total sales par value $4,775,000.

U. S. bonds unchanged on call.

Too Truthful Youngster.

In a city public school, Miss H——, who is somewhat beyond her teens, was exercising a class of small boys in spelling and defining. The word "bedlamite" was correctly spelled, but one after another failed to give its meaning. Miss H——, becoming impatient and wishing to help them by a suggestion, asked in a vexed tone: "What am I now?"

A youngster instantly replied: "Please, ma'am, an old maid!"

Perhaps it is needless to add that Miss H—— gave a still more dramatic illustration of the required definition.

KILLING FROSTS BOOSTED WHEAT

JUMPED THREE CENTS OWING TO COLD WAVE IN CANADA.

FLIGHT OF WHEAT TONIC FOR CORN

Market Was Dominant by Possibility of Subsequent Frosts as a Great Part of the Crop is Yet Maturing.

Chicago, Sept. 13.—Killing frosts caused sensationally bullish trading in wheat and corn today. At one time, all deliveries of wheat were four cents above yesterday's closing, an advance of 8 cents in 48 hours. December wheat advanced to 116 3-4. At the close, wheat prices were up over 3 cents. Corn was up almost 2 cents; oats 3-4 c higher and provisions 12 1-2 to 25 cents higher.

Intense excitement prevailed in wheat at the start with apparently every trader an avowed buyer. The demand was so urgent and offerings so limited that all deliveries were bid up 2 cents at the opening. December being 1 3-8@2 1-8 and May up 1 1-8@2 1-8.

The cause of the turmoil was a cold wave which spread over the Canadian northwest last night, practically ruining much of the wheat still standing. In Manitoba, the loss was estimated at 25 to 30 per cent of the crop. The desire to buy wheat was increased by the strong tone of cables, sharp advances abroad furnishing indications of universal alarm regarding the American crop. The buying was of such a heavy scale that it was almost impossible to follow the market. The high point on May was reached at 118 3-4@7-8, nearly 2 cents above the former high record mark, December was correspondingly strong, advancing to 116 3-4. The unusual activity continued throughout the session, the market closing with May 117 7-8 and December at 115 3-4.

Minneapolis, Duluth and Chicago reported 671 cars against 1,608 last week and 1,489 a year ago.

The upward flight of wheat prices acted like a tonic on corn, bringing out liberal buying by shorts and heavy purchases for investment account. The action of wheat, however, was only a matter of secondary importance, the dominating influence being forecasts of frost tonight. A great part of the crop is still maturing and a blighting frost, it is claimed, would cause enormous damage. During the day offerings were exceedingly light, coming largely from small holders who were willing to accept a moderate profit. December opened 3-8 to 1-2 higher. With the announcement of the weather bureau predicting the price quickly went to 54 1-8@1-4. A small reaction followed on profit taking, but the market closed strong with December at 53 1-2. Receipts 738 cars, 37 contract grade.

Oats shared in the generally bullish sentiment. Trading was active and fairly liberal. December opened 1-8@1-4 higher, sold up to 33 3-4 4and closed at 33 1-4.

Receipts 240 cars.

Provisions were weak early as a result of continued realizing on holdings. Later there was a little flurry in January pork on active covering by shorts, the advance extending throughout the list. The market closed firm with January pork up 27 c at 1265; lard up 2 1-2 at 715 and ribs 7 1-2@10 higher at 662 1-2@665.

Estimated receipts tomorow: Wheat 138 cars; corn 510; oats 123; hogs 20,000 head.

Ignorant Children.

In a class in a Manchester (Eng.) school not one of the children knew what a bee was. This statement was made at Norwich the other day at the conference of the Museums Association by Mr. Prittehard, of Boston, America. The ignorance in his own town was even greater. Statistics showed that 77 per cent. of the school children there had never seen a crow, 57 per cent. had never beheld a frog, 20 per cent. had not seen a butterfly, 91 per cent. did not know an elm tree, 72 per cent. did not know what season of the year it was, and 50 per cent. could not say what butter was made of."

Free Wine

We want to send you FREE, costing you absolutely nothing, a trial bottle of "Drake's Palmetto Wine." Drop us a postal and it comes a-humming. You know that "way back in the timespeople took wine "for the stomach's sake." But the modern grape wine is not good either for stomach, brain or pocket. "Drake's Palmetto Wine" is vastly different. It comes gushing "from the palm-fruit of our own sunny South. It is a superb appetizer, tonic and nerve-bracer. It cleans and purifies the blood and thus feeds brain and brawn. It builds up athletes and nourishes thinkers.

Drake's Palmetto Wine

Is also a natural medicine. It is a wonderful specific for constipation, flatulency and all dyspeptic troubles. It positively heals catarrh of nose, throat, stomach or bowels. It regulates perfectly the liver, kidneys and bladder. For women it is a true God-send. A tablespoon dose daily cures all those troubles. Our Days.

God broke our years
To hours and days,
That hour by hour
And day by day
Just going on a little way,
We might be able all along,
To keep quite strong.
Should all the weight of life
He laid across our shoulders, and the future, rife
With woe and strength, meet us face to face
At just one place
We could not go;
Our feet would stop, and so
God lays a little on us every day,
And never, I believe, on all the way,
Will burden bear so deep,
Or pathways lie so threatening and so steep,
But we can go, if by God's power,
We only bear the burden of the hour.
