WARD HEELER CARVED COPS

NEW ORLEANS POLITICIAN PUT TWO CITY POLICEMEN TO THE RAZOR.

WOUNDS NOT CONSIDERED FATAL

Assailant Got Ten Bullets in Him as a Reward for the Cutting and He Can Not Live Long.

New Orleans, Sept. 19.—A desperate array resulting in the fatal wounding of two policemen threatened a general riot today in the seventh ward, where an exciting primary for delegates to the city convention was in progress.

Albert Rabassa, an engineer, a ward worker for one of the factions, was drunk and threatened trouble. Police- man Wm. Anderson put him under arrest. Rabassa immediately drew a razor and cut the policeman terribly across the arm. Patrolman Adam Ar- tigh went to Anderson's assistance.

Rabassa slashed him across the abdomen. The police drew their weapons and a perfect fusillade of shots fol- lowed. When it was over Rabassa was on the ground with ten shots in his body. Intense excitement followed the tragedy, but Acting Inspector Journee hurried to the scene with a large force of blue coats and further trouble was avoided.

Woman's Relief Appointments.

Boston, Sept. 19.—Mrs. Francis E. Hines of Concord, N. H., national president of the woman's relief corps, announced general staff appointments for her first general office, which was issued today. The list includes the following: Secretary, Helen Meyers; Concord; press correspondent, Mary Sherman Allen, Dallas; Texas; chief of staff, Mary L. Gilman, Roxbury, Mass.

THE OIL WORLD

The report that oil has been struck at Starks, La., has not been confirmed. We hope that it is true as it is quite close to Beaumont and would be of great importance to the oil business here and any of the surrounding fields.

W. A. Meagher has commenced drilling at Sulphur, Louisiana, where there are said to be excellent indications of oil. The result of his work will be awaited with much interest in Beaumont.

Messrs. Bass and Binkenstein are providing a million barrels storage for the output of their wells in Louisiana. They do not propose to sell any oil unless they get the right kind of a price and this will no doubt help to keep the market steady.

The writer is convinced that there is but little reliance to be placed in the rates posted by the oil companies and that they will frequently pay much more than their posted rates. We don't attempt to explain the why-fore of their methods.

A well just finished on Spinale Top for W. A. Meagher showed 200 feet of oil in the casing and he thinks that it will make a splendid producer. The well bit still out a big figure in Texas oil and the Enterprise predicts that it will continue to do so for some time to come.

The continued blowouts reported from the Hamlets prospect at least indicates that there is a lot of wind coming from there. It may not be for the means of starting a hard boom but it has all the earmarks of a real estate boom.

D. R. Beatty has been prominent as an oil company promoter and producer, was in the city yesterday. Mr. Beatty is now operating in Ken-ucky oil fields.

Large English Families.

The four prizes annually offered by the Lincolnshire (Eng.) Agricultural society for the largest families have this year produced some remarkable records. Ten men who entered had between them 150 children, one having twenty, another nineteen and others fifteen.

True Yankee Woman.

"Your wife is somewhat strong minded, isn't she, Littlejohn?" "Strong-minded? Well, a furniture peddler came here yesterday, and in five minutes' talk she sold him some pitch she had made herself."—Boston Congregationalist.

Prohibits Sorcery.

In the Rhodesian Government Gazette is published a proclamation prohibiting the practice of sorcery throughout the territory, including the throwing of bones, the use of charms, any manner of conjuration and trial by ordeal.

Steals Little Boy's Shoes.

An English child was arrested when he was 10 inches high for stealing a pair of shoes in order to put on a new pair and leave him in charge of the shop. When they returned, he was found, he had the shoes very good.
