NEWS BRIEFS FROM ALL OVER THE WORLD

A Glance Reveals What is Being Done From One End of the Earth to the Other.

It is given out that the State Retail Merchants Association will endeavor to have a law passed by the next legislature permitting the garnishment of wages for debt.

A dead negro was found by the railroad track near Hoarne. He was supposed to have been killed by the train.

Judge R. S. Lovett, a former Texan, for some time general attorney for the Harriman lines, is spoken of as Harriman's successor should the wizard's health compel him to retire from the management of his vast railroad interests.

Another "peace" fleet is to be sent across the Pacific by Uncle Sam. It will comprise eight of the strongest and fastest cruisers in the navy and will leave San Francisco a week from next Sunday. According to the Navy Department's schedule of an 8,282-mile journey, after making several side trips to Chinese and Japanese ports, the whole squadron will reassemble at Yokohama and will sail for home Jan. 19, 1910.

J. R. Key a Mexican tamale vender was run over by a train at Lufkin yesterday and killed.

ANOTHER GOULD DIVORCE GRANTED

Mr. Frank Gould Given Final and Absolute Decree of Divorce.

Special to the Eagle. New York, Aug. 26.—Mrs. Frank Gould obtained a final decree of divorce from Frank Gould yesterday.

The interlocutory decree was signed May 20 of this year. The decree gives the custody of the two children, Helen and Dorothy, to each parent for six months of each year.

Frank Gould will not be permitted to remarry in this state until after the death of his wife.

The papers do not mention alimony.

RECORD RUN TO CALDWELL.

There are several who are getting to be experts in riding the motor cycles that were recently purchased by Dr. A. L. Mondrick and Dr. P. M. Raysor, including the two doctors and some of the boys of the city. Several very remarkably high speed runs have been made, but an endurance test, and at the same time a high speed record, was made yesterday that eclipses all others. Dr. Mondrick and Meredith James made the trip to Caldwell and back yesterday, mention of which was made in the Eagle, but their time was not learned until after they returned late in the afternoon. They made the run to Caldwell in one hour and 10 minutes, including a short stop at Smetana and another stop at Parkers store. On the return they crossed Still Creek, five miles west of town just as the I. & G. N. passenger came along and they

Witnessed by 10,000 people Fred Tucker, a jockey of Nashville, Tenn., was thrown from the back of his running horse at the Great Kneel Fair, Carthage, Mo., Tuesday, and is dying at the Carthage hospital. He was trying to force his horse ahead of another when the horse tripped, throwing him against the quarter pole. His skull was fractured and his left arm broken.

Lieut. B. B. Rosenthal, Private Malcolm E. Parrot and Frank Zirbes, in the automobile in which they are traveling from New York to San Francisco with army dispatches, arrived in Chicago Tuesday. The travelers are fifty hours ahead of their schedule and have had good going all the way from the start.

Hammer Hall, the famous old antebellum structure and one of the landmarks of Alabama, which has housed a number of the greatest men of the South, was destroyed by fire yesterday morning at Montgomery, Ala. The origin of the fire is supposed to have been incendiary.

Baseball results in the Texas league yesterday were as follows: Galveston 7, Waco 5; Dallas 1, Shreveport 1; Houston 6, San Antonio 1; Fort Worth 7, Oklahoma City 4.

turned their machines on full speed to give the train a race to town. It was a race to make ones hair stand on end, but the pace was never slackened and the train and the two machines came into the city neck and neck.

Drs. Mondrick and Raysor use their machines altogether now instead of horses, and find them to be great time savers.

QUIT POLITICS OR QUIT JOBS

President Taft Intends to Put Census on Clean Business Basis.

Special to the Eagle. Washington, D. C. Aug. 26.—Acting Secretary McHarg of the department of commerce and labor yesterday received a letter from Carpenter, secretary to the President, stating that the census supervisors who hold political positions such as secretaryships or chairmanships of county committees must give up either their political or government positions. In a number of states, and this is particularly true throughout the south, Republican politicians have been recommended for appointment as supervisors of the census.

A SMALL BLAZE.

A fire alarm at 5:30 this morning called the fire department to the big Lawrence cotton warehouse. Two bales of cotton were found to be on fire and they were quickly rolled from the building and the fire extinguished. The damage was slight.

SAD TRAGEDY IN CAPITAL CITY

Miss McIntyre Killing Herself by Accident With Pistol.

Special to the Eagle.

Austin, Texas, Aug. 26.—Miss Nettie McIntire, a beautiful young woman, aged 17 years, accidentally shot herself yesterday afternoon with a 32 caliber pistol, expiring one hour later. She was shot in the temple the bullet coming out on the opposite side of the head. The accident occurred at her residence at 806 West avenue.

She had three sisters all of whom were away at the time and upon their return they found her lying in a pool of blood on the second floor. Physicians were summoned but too late to do anything to prolong her life.

A. AND M. COLLEGE NOTES.

Professors are Returning from Summer Vacation—Steam Heating Plant Being Put in.

Col. James Hayes Quarles, Librarian of the College was in the city today.

Prof. and Mrs. O. F. Chastain have returned to the College from Chicago where Prof. Chastain took a summer course of special work. The professor was in the city today.

Capt. Andrew Moses and Dr. O. M. Ball are attending the military tournament at Dallas this week.

Prof. F. A. DeLay, who was at the head of the Electrical Engineering department last session, has tendered his resignation to the president and the same has been accepted. This department will be in charge in the future of Prof. Bolton, late of the A. and M. College of Mississippi. Prof. Bolton has already arrived at College and is familiarizing himself with the surroundings before the opening of school.

The contract has been let by the College authorities for a big boiler to supply steam for a steam heating plant to heat Goodwin hall, the Engineering building and the Experiment station building. It will be remembered that the item in the appropriation bill for a central steam heating plant to heat all the college buildings, was cut out of the appropriations, and this purchase is made from an independent fund and not from any money appropriate for that purpose, by the state.

Col. Quarles reports that his future domicile (old B. & T. C. depot) has already been moved to the campus and carpenters are now at work remodeling and changing it into a snug little place of abode. He says when they get through with it, it will be one of the coziest little places on the campus.

COMPLIMENTED?

A young Louisville man who was out West not long ago has returned telling a yarn which he admits is at his own expense, but which he declares to be about one of the most interesting experiences of even his checkered career. "I was walking along the street of a Western town," he said, "when suddenly across the way I saw a Louisville girl whom I recognized immediately. She saw me, too, and I expected her to bow rather coolly and distantly, as had been her wont back home. I was considerably astonished therefore, when she dashed across the street, seized me with both hands and fairly bubbled over with delight. I was so surprised, in fact, that I commented on it.

"I am glad to see you too," I said when I had managed to extricate myself from her exuberant greeting, "but to tell you the truth, I hadn't expected to see you so excited over my appearance. You always treated me a la iceberg at home, you know. What has caused your change of heart?" "She was nonplussed for only a moment, and then explained: "Mr. Smith, I've been away from home so long that I'd be glad to see even a dog if he came from Kentucky." "I let it go at that."—Louisville Courier-Journal.

WORK LARGE FORCE OF HANDS.

Mr. W. R. Ertle went to Valley Junction today where he met eighty-five Mexican laborers from San Antonio and brought them back to College. He will work this large host of laborers on the farm of Mr. E. J. Fountain in the Brazos bottom, picking cotton. Mr. Ertle stated to the reporter that Mexican labor was the best to be obtained and he expected to get fine results from such a large number.

PLENTY OF MONEY TO MOVE CROPS

No Help Needed From Eastern Banks Says Acting Secretary of the Treasury.

Special to the Eagle.

Washington, D. C., Aug. 26.—Western banks and those of the interior generally are overflowing with money. They can get along with little aid from the eastern banks. This is the view of Acting Secretary of the Treasury Norton, who has just returned from Beverly, where he had a conference with the president.

Any talk indicating that the banks are pressed for money with which to move the crops seems to be discounted by this view by the acting secretary. The banks of the south are included by Mr. Norton when he described those of the country generally as being in excellent condition.

THE WEATHER.

New Orleans, La., Aug. 26.—Tonight and Friday: increasing cloudiness. Showers tonight or Friday.—Cline.

"THE SLAUGHTER OF THE GAMBINITES"

Every noted infidel of the past has criticized the Christian religion for the account given in Scripture of the command to slaughter the Canaanites, as recorded in Deut. 20: 16-17. Some have attacked the authenticity and integrity of the Bible, while others on account of the fancied injustice and inhumanity of the command, have denounced the God of the Bible. Brother Morris announces that next Sunday morning at the Methodist church, he will discuss the question: "Did God do right to order the slaying of men, women and children?" A cordial invitation is extended to all to attend this service.
