SHOT TO DEATH

MRS. JESSIE GABLE KILLED BY
CHARLES EASON AT FORT
WORTH.

TURPED GUN ON HIMSELF

Barber. After Firing Shots into Back
of Fleeing Woman, Drank Poi-
son and Made Certain of Sui-
cide by Shooting.

Special to the Eagle.
Fort Worth, Texas, Sept. 15.—After
talking to the woman over the tele-
phone for half an hour or more, Char-
les Eason, employed in the Congress
barber shop on Main street, proceeded
about 7 o'clock Tuesday evening to
the home of Mrs. J. H. Doughty at
914 Florence street and after quarrel-
ing with Mrs. Jessie Gable, to whom
he had addressed his remarks over the
telephone, fired one shot into her back
as she fled up the stairway, and after
emptying the remaining four bullets
of the 38-caliber revolver into her body
as it lay at the foot of the stairs,
drained the contents of a two ounce
vial of carbolic acid and producing
another revolver, fired one shot into
the wall and then turned the muzzle
of the weapon to the center of his
forehead and pulled the trigger. He
fell and died almost instantly with
one hand across the body of his vic-
tim, who lived several minutes, but
died before a physician, rushing to
the scene in a taxcab, could reach her.

Of the Cattle Raisers' Association of
Texas.

Special to the Eagle.
Fort Worth, Texas, Sept. 15.—With
the exception of the election of the
Agricultural and Mechanical College
to membership in the association and
the hearty endorsement of Sam David-
son, one of the vice presidents of the
association, as census enumerator for
the Twelfth congressional district only
minor matters occupied the attention
of the executive committee of the
Cattle Raisers' association of Texas
in the third quarterly meeting of the
year.

Several minor matters affecting the
interests of the cattlemen were discus-
sed by the committee, but no definite
action was taken regarding any of
them.

TOLTEC PYRAMID FOUND

Discovery Made in Uncovering Buried
City in Mexico.

Special to the Eagle.
Mexico City, September 15.—An im-
portant archaeological discovery was
announced here yesterday by Prof.
Ramon Mena, who headed a govern-
ment expedition to Otumba in the
State of Mexico, which has uncovered
a buried city of great antiquity. A
pyramid similar to that uncovered at
San Juan de Teotihuacan has been ex-
posed. The pyramid is sixty feet in
height and measures 200 feet square
at the base. The remains indicate
that the city was built and occupied
in the time of the Toltecs.

ALLEN ACADEMY OPENED

LARGE NUMBER OF LADIES AND
GENTLEMEN WITNESS OPEN-
ING EXERCISES.

PRES. R. T. MILNER SPOKE

Largest Enrollment in History of the
School—All Available Room
Taken.

The eleventh annual session of Al-
len Academy opened at 9:30 this morn-
ing with the largest enrollment in the
history of the school. It was indeed
a flattering beginning and one of
much gratification to the principals.
Many of the old boys are back, yet in
the assemblage this morning many
new faces were to be seen.

The most cordial invitation of the
principals to the citizens to attend the
opening exercises, was accepted in
the spirit in which it was extended and
a large and representative audience
was present.

The assemblage was called to order
by Prof. R. O. Allen, who stated the
greatest enrollment of any previous
year was 90, while this year it would
reach not less than 120 and perhaps
125. This meant students from a dis-
tance and had no reference to local
patronage.

He felt that the young men who had
come here not only from Texas, but
from other states, were not alone com-
mitted to the teachers of Allen Acad-
emy, but to the citizenship of Bryan
jointly. The conditions the citizens
help to make would help largely in
the future destiny of the students.

He expressed the thanks of the prin-
cipals for the presence of so many citi-
zens, and especially so many business
men.

Dr. M. E. Weaver read as a scrip-
ture lesson the 19th Psalm and a por-
tion of the 12th chapter of Ecclesiastes.
Dr. T. H. Morris invoked the di-
vine blessing upon the school, the fac-
ulty and students.

Short and informal, but thoroughly
practical talks, were then made by
Mayor J. T. Maloney, Dr. J. L. Foun-
tain, Mr. A. W. Wilkerson, Mr. Ed
Hall, Mr. H. O. Boatwright, and Hon.
C. Davis. The talks were short,
but to the point, and running through
all of them was a cordial welcome
to the boys to Bryan, to the homes of
the people, to the churches and Sunday
schools. They were made to feel that
they were indeed among friends who
were interested in them, and who
stood ready at all times to give them
every assistance possible.

Col. R. T. Milner, president of the
A. and M. College, was introduced,
and delivered an address abounding
in fatherly counsel and advice, that
will wield a potent influence upon all
the future years of the students' pres-
ent. Col. Milner said he wanted to
congratulate Bryan on having within
its borders such splendid schools. There
was no better investment in which
the people could put their money,
and none that pays greater divi-
dends. He wanted to say to the boys,
and especially those coming for the
first time, that he knew what each
of their mothers said to them when leav-
ing home—"Be a good boy"—He also
knew what was in their fathers heart—
an undying interest in their sons, and
each father would rather see his son
come home in a coffin, than to come
home expelled. The hardest duty any
teacher had to perform was to write
to a father that his boy had to be
expelled. He urged each boy to make
up his mind now, if he had not already
done so, to do his full duty in the
school. They would then be in harmo-
ny with the faculty and a large ma-
jority of the students, for the majority
always did right. To be successful in
their studies, they must have good les-

sons, and a boy always feels better
after he recites a good lesson. They
must go about their work earnestly.
Do everything in dead earnest, both
study and play. He urged the small
boys who have come from a distance
to make up their minds to be mother's
earnest boys in Allen Academy.
Through earnestness alone could come
success. Bryan's intense earnestness
had made him the leader of the demo-
cratic party, and Paul's earnestness
had made his letters, after the lapse
of twenty centuries, the most widely
read of all the writings of the world.
Earnest men were needed more today
than at any other time in the world's
history. A great railroad president
had said to him that the world's great-
est need was men. There was plenty
of money, but a scarcity of real men.
Profitable positions awaited every
young man when prepared to fill them.
Must first be equipped and be in ear-
nest and success awaits you. He re-
ceived letters every week from great
corporations wanting young men who
were equipped, that he had more places
than he had boys. He closed by
beseeching the young men to go about
their work with that earnestness that
ultimately brings success.

After announcements by the prin-
cipals, the audience was dismissed.
