Letter to Louis Ehlers.

SHINER.
 Dear Sir: Our agent ought to
 sell nine-tenths of the paint of his
 town and region; no use to try for
 the other tenth. The proportion of
 men, who won't take good advice,
 and use the least-gallons paint is
 about one in ten among even own-
 ers of houses and stores and shops
 and barns and fences.

One man in ten will buy a gold
 brick or green goods if he has the
 money and gets a good chance.

Devoe at \$1.75 a gallon is better
 than gold; adulterated and short-
 measure paints are green goods and
 gold bricks.

Devoe saves half more or less of
 the labor and wages of painting; it

is all paint; full strength and full
 measure. There is no other such
 paint within ten per cent. Ten per
 cent of labor and paint is worth
 saving; and ten is the least. There
 are scores of paints that throw away
 half of both gallons and labor on
 whitening, china-clay, ground stone,
 barytes, benzine, water—all they
 are good for is to make gallons of
 nothing and look like paint in the
 can; more gallons to buy and more
 gallons to pay for putting on—gold
 bricks and green goods. Here's
 how they work.

Judge I D Fairchild owns two
 houses exactly alike in Lufkin,
 Texas. J H Torrence painted both
 houses; one Devoe, 15 1/2 gallons; the
 other with another paint sold at
 same price; 25 gallons. That 25
 gallon paint is weak and 15 per
 cent whitening; that's why it took 9 1/2
 gallons more.

Yours truly

Cuba and United States.

President Roosevelt has sent
 Secretary of War Taft and Acting
 Secretary of State Bacon to Cuba
 to pacify the conflicting political
 interests represented by the Mod-
 erate and the Liberal parties. Their
 tales of woe have been listened to
 patiently and the entire situation
 gone into at length. To add weight
 to his visitors' advice, Uncle Sam
 has sent a number of warships to
 Cuban waters, and these are kept
 constantly in evidence. Americans
 having sugar plantations in Cuba
 are anxious that the United States
 take over Cuba bodily. The sober
 common sense of the American
 people is opposed to any closer rela-
 tionship than that of exercising a
 liberal protectorate over this "Gem
 of the Antilles." The mixed and
 discordant races occupying Cuba
 render the problem of self-govern-
 ment extremely difficult and always
 dangerous to the party in power.—
