COTTON RUSH NEARING PEAK

The cotton harvest is well advanced. The weather is ideal for the crop, and the farmers are optimistic about the yield. The cotton is expected to be of high quality, and the harvest is expected to be a successful one.

Sugar Allotted At Lower Price

The government has allotted sugar at a lower price. This is good news for consumers, as it will result in lower prices for sugar products. The government is committed to providing affordable food for all Americans.

ROCKPORT OIL & GAS Co.

(A Trust Estate)

- DAVE ODEM President
President First National Bank, Sinton, Texas.
- W. B. MCGILL Vice President
Oil Operator, San Antonio, Texas
- CHAS. G. JOHNSON Secretary and Treasurer
President, National Bank, Rockport, Texas

Our holding consists of 15,000 acres on the north end of St. Joseph's Island. We have two crews working day and night and are now down 1,900 feet. We have struck oil three different times; the first strata at 198 feet, the second at 1,216 feet, and the third at 1,777 feet, which threw oil half way up on derrick. This oil was accompanied with a little gas. We are now going down after a gusher and expect to complete the well within the next thirty or forty days. The company has a few thousand dollars worth of stock that has not been sold. If anyone in this vicinity would like to purchase stock in one of the best propositions that has ever been offered to the people you can find me at Jos. Mirieur's harness store, 409 Mesquite street, between the hours of nine a. m. and three p. m., daily. There is an immense pool of oil in the vicinity of Corpus Christi. Who will be the first to tap this liquid gold, remains to be proven. My stay here is limited to a few days only.

Respectfully,
W. B. MCGILL
