TELEGRAPHIC NEWS.

THE GREAT IRON STRIKE NEARLY ENDED.

Cholera in Spain English Affairs A Kentucky Feud Other News.

WASHINGTON, June 16.—There are at present 136 special agents of the Pension Bureau, whose term of office will expire on June 30, next, but the new appropriation allows their reappointment for another year at a reduction of salary from $1600 to $1200. These appointments come under the civil service rules, and it is not probable that the entire number will be reappointed.

NEW ORLEANS, June 16.—A dispatch from Yazoo City, Miss., to the Picayune says: Yesterday evening the body of a negro man was found hanging to the limb of a tree near the public road, about seven miles from here. A placard pinned to the body contained these words: "Revenge awarded by outraged society. Five o'clock p. m." An inquest will be held. It is rumored that the deceased attempted to outrage the daughter of a white farmer in the neighborhood.

PITTSBURG, June 16.—At the conference of iron manufacturers and workmen, the sheet mill men will offer to compromise with the manufacturers on 5 per cent reduction. If accepted the scale will be signed, as the differences between the two sides have narrowed down to the sheet mill clause. The workmen say this is the last concession they will make. The compromise was decided upon after long deliberation and for the purpose of avoiding a long strike. It is believed that the manufacturers will accept.

LOUISVILLE, June 16.—A gentleman just returned from Knott county, Ky., reports that the Hall and Jones factions are under arms, and an engagement between them is expected at any moment. The Hall party number 21 and the Jones gang 18, and all are armed with Winchester rifles and defy arrest from any and every source. On Monday of last week, on Beaver creek, Perry Sherwood and Bill Hawk Stegmore, the latter one of the most noted and bloodthirsty desperadoes in the mountains, were waylaid, shot and killed by ambushed enemies. They both belonged to the Hall faction.

WASHINGTON, June 16.—Acting Assistant Surgeon Orr, of the Marine hospital service, has reported to the bureau that the Norwegian bark, Augustinus, arrived at the Delaware breakwater quarantine from Cien Fuegos to-day. All on board were well except the Captain, who was suffering from supposed yellow fever. The vessel will be detained for fumigation. The Captain will be taken to the hospital on shore, if necessary. Consul Willard has reported to the State department from Guaymas, Mexico, that the west coast of Mexico is now free from yellow fever. The Marine Hospital Bureau is informed of an outbreak of yellow fever near Cayenne, on the Salut islands.

PHILADELPHIA, June 15.—Joseph H. Cottinger, the former secretary and treasurer of the Central Transportation company, who is charged with illegally issuing certificates of the stock of that corporation, and who was arrested at Rashkill, N. Y., on Saturday, was brought here this afternoon. He was taken to the office of the company and there confessed his guilt to the directors, and stated that he did not ask for mercy. Cottinger was taken before a magistrate where testimony was presented, showing that there had been an over issue of 3085 shares of stock, the par value of which over issue was $154,250. When asked by the magistrate if he had counsel, Cottinger replied that he had not, and that he did not want any. The magistrate then committed him in $50,000 bail to answer at the next term of court. This amount of security could not be furnished, and Cottinger was sent to jail.

PITTSBURG, June 16.—The iron strike in this district is at an end. The scale has been signed and a general resumption of work will follow immediately. Outside of Pittsburg, however, the strike will continue, and the mills of Chicago, Cincinnati, Wheeling and the Mahoning and Shenandoah valleys will remain idle for an indefinite period. This is the result of to-day's conference. The conference was in session continuously from 2 o'clock this afternoon until 10 o'clock to-night. About an hour before the adjournment the Western manufacturers withdrew, and after their departure the Pittsburg mill owners signed the scale. Pending a settlement of the sheet mill and old rail clauses, the manufacturers operating those departments will pay old scale wages. The result of the conference was received by the workmen here with expressions of intense satisfaction.

MADRID, June 16.—There were five new cases of cholera in this city yesterday and one death. In the city of Valencia there were two fresh cases but no deaths. In the province of Valencia, however, outside of the city, there were forty-five cases and twenty-seven deaths. The city of Murcia reports forty new cases and seven deaths, while other parts of the province of Murcia return twelve fresh cases and four deaths. In the province of Castellon de la Plana yesterday there were eight cases of cholera and six deaths. Thirty thousand people have fled from Murcia, owing to the terrible dread of the disease which has taken possession of the people. In the city of Murcia alone, yesterday, there were, according to the last rumors, sixty-four new cases of cholera and thirty-nine deaths. In the province of Murcia, outside of the city, there were fifty cases of cholera and sixteen deaths within the same period. The Official Gazette confirms the statement that cholera is raging in the provinces of Valencia, Castellon de la Plana and Murcia and in the city of Madrid. The "opposition" newspapers, on the contrary, deny that cholera exists in Madrid, and say that all testimony regarding the suspicious cases is insufficient to give warrant for the assertion that they are cases of cholera.

MADRID, June 16.—All the public gambling houses and poker rooms in the city were closed this afternoon by the city authorities, at the request of the grand jury of the Criminal court.

WASHINGTON, June 16.—There was a full attendance at the cabinet meeting to-day. The principal topic discussed was the case of Mr. Santee, a naturalized citizen under arrest in Ecuador. The conclusion reached was that Mr. Santee should be recognized as an American citizen, and as such was entitled to the full protection of this government. It is understood that a demand will be made for his release.

SARATOGA, June 16.—The special train bearing General Grant arrived here on time. A great crowd was at the depot trying to catch sight of the General, but he was visible but a moment as he stepped from the train that had brought him from New York to the one that was to convey him to Mount Metcegar. Post Wheeler, Grand Army of the Republic, in full uniform, acted as a guard to keep the crowd back.

MOUNT MCGREGOR, June 16.—General Grant arrived here at 2:45 this afternoon. The last stage of the journey was the worst. The jolting caused the General much pain and fatigue.

LONDON, June 16.—Lord Salisbury has definitely accepted the Premiership. It is stated that Sir Stafford Northcote has accepted a Peerage, leaving Sir Michael Hicks Beach to lead the Conservatives in the House of Commons. Lord Randolph Churchill will have an important position in the new cabinet, but the distribution of the portfolios will not be decided upon until the arrival of the Queen, who is traveling with the utmost speed. Lord Randolph Churchill agreed to the renewal of the coercion act, on condition that it only be enforced if found imperative. Several Liberal ministers held an informal meeting at Mr. Gladstone's residence to-day to decide upon their action in response to the conservative overture for support.

WASHINGTON, June 16.—There has just been placed in the Museum of Washington, for permanent preservation and exhibition, what is known as the Avershire life car, the invention and property of the venerable Joseph Francis, known the world over as the inventor of the Francis life boat and other life appliances. This car is the one that was used at the wreck of the British ship, Avershire, on the coast of New Jersey, on the night of January 12, 1856, in a severe snow storm, saving the lives of 201 persons. It is interesting for its associations and in its construction. It has been often publicly exhibited in Europe and America, and has traveled over 30,000 miles. It was transferred to Prof. Baird for the museum by a representative of Mr. Francis, together with miniature models of various kinds, and also the diploma presented to Mr. Francis by the ship-wrecked society of all nations.

From Abilene.

Editor San Antonio Light:

ABILENE, TEX., June 15, 1885.—Rain and hail visited Jones county Saturday night; no damage done. Crops very fine in all counties. 400 head yearlings and two-year olds sold here Friday at $14 per head. Colorado river still on a rise in this section. Abilene has a prisoner who has succeeded in breaking all chains that have been placed on his wrists without aid—a young Sampson. Business is brisk here in all lines. Marriage is the epidemic that has struck Abilene. H.

Presidio Del Norte News.

A gentleman, recently from that remote corner of the world, furnishes quite a budget of news:

Henry Kelley, one of the oldest and most prominent merchants, is contemplating retiring from the merchandise business and devote his entire time to sheep and horse raising.

Messrs. A. Spencer & Bro. are now occupying their new store, one of the finest buildings in the place.

Mr. Joe Goodman is about to establish a large branch store in the State of Durango, Mexico, where he is now, already having made several very large and successful transactions.

The river at Presidio is high and still rising. The town is generally very prosperous, and its future prospects are flattering.

Building Permits.

Carmel Trevino, lumber dwelling east side North Concho street, Second ward, to cost $150.

G. Fritche, lumber kitchen, corner Erie Avenue and Macon street, Second ward, to cost $15.

J. D. Petty, lumber stable, west side Olive street, Third ward, to cost $55.

Nance Harris, lumber dwelling, north side "M" street, Third ward, to cost $150.

Peter Gaze, lumber porch, corner Chavez and North East street, First ward, to cost $50.

He Should Not Laugh!

Editor Light:

During the progress of the fire last night, the horses attached to the hook and ladder truck became unmanageable and in their effort to run away threw the occupants on the truck—all members of said company, who had worked hard to extinguish the fire—to the ground, injuring several of them. To make matters worse the truck completely turned over and at that time a calamity seemed unavoidable. A certain merchant of this city, who was hard by, noticing the peril under which the boys were laboring, thought fit to stand there in his magnanimous form, laughing to his heart's content, and exclaiming to the bystanders, "Look at the sideshow?"

Is this the thanks the boys receive from the citizens for risking their lives and safety for the comfort of others? We wonder if San Antonio has many more such generous and public-spirited citizens.

Signed: MEMBERS OF T. H. & L. CO.

New Music.

Messrs. Goggan & Bro. have sent the Light a sheet of new music just issued by them. It is composed by Miss Lenora Rives, of Mission Valley, Texas, entitled, "The New Administration March," dedicated to President Grover Cleveland.

—Every first-class dealer sells Opera Puff cigarettes. Avoid injurious imitations. tf

WHOLESALE ROBBERY.

Arrest of Two Hard Citizens Last Evening.

For a period of some months past, merchants of the city have been at a loss to discover why so many articles shipped to them have not reached them in their entirety, one or more of the articles having been abstracted. Mr. C. W. Hebert, of the International freight depot assisted by Captain Tom Hughes and Special Officer Martin set to work to trace these numerous robberies to their source. After two months vigilant watch, they discovered two employees of Frosbosse & Santleben, Jone Yates alias Fraser, and a man named Henry Edward to be the parties concerned, and it was found that a systematic wholesale robbery had been carried on by them for some months past. They were both arrested last evening, and at Yates house, 420 West Houston street, the following property was discovered: One ham, branded "Fowler & Bros," 2 pair, boots marked "Popular;" 2 pair boots, "Boss of the World;" 1 pair boots, "Texas Siftings;" 1 pair No. 8 brogan shoes, AX; 1 pair No. 5 lady's shoes, city made; 1 pair calf skin shoes No. 8, slightly worn; 2 dozen ladies' white hose, "Lowell Iron Frame;" 2 dozen pair white half hose, unmarked; 2 dozen pair Balbriggan hose, marked "129;" 1 dozen pair blue striped hose; 1 fine corset; 3 shirts, branded B. H.; 1 shawl, white and pink, and 1 shawl blue and white, both fringed with white; 2 black shawls and 1 pale blue shawl; 2 dozen ladies handkerchiefs, pink and blue; fine borders; 1 bolt polka dot calico; 2 bolts "Our Own" bleached domestic, 1 bolt pink check calico; 1 bolt blue and white stripe calico; 1 bolt hickory shirting; 3 rosaries; assortment of suide jewelry, mostly shirt studs; sleeve and collar buttons; 1 new ax marked "Alamo Pride;" large assortment of crockery and glassware; two valises, etc.

This property is now awaiting identification at the bat cave. Yates and Edwards have been transferred to the county jail, and are believed to be the parties who made an attempt to buse up the safe of their employers, Frosbosse & Santleben, and also believed to be the perpetrators of the many mysterious burglaries that have lately occurred.

Sanitary Matters.

Editor San Antonio Light:

It is about time that the public should be enlightened on sanitary matters, as it seems the whole sanitation of the city is in such a muddle that even our worthy Mayor and Council don't know what they are doing. First, ordinances are passed; the public go to the expense of acting accordingly, then after a lapse of years these very ordinances are attempted to be repealed. Sanitary laws are strictly enforced, thereby compelling parties, even ladies, to be pulled before the august presence of the Recorder at the "bat cave," where the general melee are drunks and soiled doves. Furthermore, the sanitary inspectors under the present city administration compel people to have their yards and outhouses cleaned where it is quite unnecessary, only for the purpose of making money for their own pocket, besides salaries paid to them by the city. No reports are made at headquarters or to the Board of Health, but at a certain office on Houston street. It seems as if progress is not inscribed on the banners of the new city administration else they would not endorse the old system called bucket or hoe boys. The San Antonio Sanitary and Fertilizing company has been put to great expense to obtain the odorless excavating pump, successfully used in Boston, Philadelphia and Baltimore, notwithstanding the Council goes back to the old system, and even sanctions it. Every day parties are complaining of the fearful stench created by the latter process; worthless disinfectants are used to no good whatever. The proceedings against the San Antonio Sanitary and Fertilizing company are too fresh in the memories of the public that they deserve some comment.

H. M. LANDAUER.

Recorder's Court.

Ed. Braden, for allowing contents of vaults at his hotel to empty in the river, dismissed.

Jim Jeffreys pleaded guilty to the charge of being drunk, $5.

John McClusky, an old chronic case, was again before the court, who told him he was coming to this court two often. He was fined $5.

Thomas Murray was fined $5 for being drunk on the street.

Robert Richardson and G. W. Gilder, two colored men were charged with fighting between themselves. There were two charges against Gilder. That of beating and striking he pleaded guilty to. The fight occurred in a restaurant on West Commerce street, and it was about a hair cutting. Gilder struck Richardson on the back of the head with a rock which cut his head. Gilder was fined $10 in one case, dismissed as to the other charge, and Richardson was dismissed.

J. L. Moore, another colored man was charged with fighting with Jim Beard on the West side of the San Pedro near Milam park about some money he had missed, and which he thought Beard had stolen. Beard resented this imputation in his honesty. The case will be continued to Friday morning.

Nellie Raymond and Emma Hart, two little colored girls were charged with beating and striking Julia English, a white girl. The cases were continued for witnesses.

Francisco Torres was charged with being a vagrant. Officer Brown testified that he boarded at the chile stands on the charity of the owners. Last night he stole 45 cents from one of his benefactors. He was fined $2.

Patents.

The following patents were granted to citizens of Texas, bearing date June 9, 1885, reported expressly for this paper by Louis Bagger & Co., mechanical experts and solicitors of patents, Washington, D. C.:

S. H. Magie, Galveston, rope clamp.
E. G. Rust, Grand Prairie, sash holder.
J. O. Scott, Tyler, car axle box.
