

THANKS OF THE TERRITORY REAPED UPON HIM. Rawlins Is Snowed Under by the Congratulatory Telegrams. COME FROM ALL POLITICAL FAITHS.

He Has Already Turned His Attention to the Upper House. Senator Faulkner Will Be the Champion of Utah in That Body, and There is No Doubt but the Virginian Will Be Emphatically Successful—Republicans, True to Their Principles, Continue to Fight Against the Admission of the Western Territories—Voorhees' Silver Bill Not at All Satisfactory—The President's Hawaiian Message.

Washington, Dec. 14.—[Special.]—Mr. Rawlins received last night and today many telegrams from Salt Lake and other portions of the territory congratulating him on getting through the House so promptly, and by such an overwhelming vote, the Utah statehood bill. They came from men in all political parties and quite a number were lengthy, while all were extremely cordial.

Mr. Rawlins gave a large portion of today in the senate chamber, conferring with leading senators relative to the taking up of the measure in that body at an early day. His purpose is to get, if possible, action before the Christmas recess, and if the bill goes through it will be a still further triumph for Utah's delegates.

Senator Faulkner, chairman of the Senate territories committee, remarked to The Herald correspondent today that the success in passing the measure through the House was simply unprecedented, and he would do all in his power to have it go through the Senate speedily. So far as he was able to learn, but very little opposition was manifested in the Senate and the manner in which representatives spoke yesterday ought to have a marked effect on the members of the upper branch of Congress.

THE ARIZONA BILL. Republicans Fight Hard Against the Admission of the Territory. Washington, Dec. 14.—[Special.]—The Republicans fought hard and effectively in the House today the bill providing for the admission of Arizona.

Deligate Smith, however, proposes to get away until he puts his measure through and he is meeting with great encouragement and expects to win when more Democrats are present. It was not generally known that he would try today to bring up the Arizona bill, hence so many absentees.

Voorhees' Silver Bill. Washington, Dec. 14.—[Special.]—The silver bill introduced in the Senate today by Voorhees is believed to have the support of the administration, but the drift of opinion is that when the question comes up, if the purpose really is to legislate, amendments will be added in both branches of Congress looking to a much larger coinage.

THE ARIZONA BILL. The Democrats expect to have their own government present tomorrow. The McCarran bill was called up during the morning hour, but was filibustered against by Sayers, of Texas, chairman of the appropriation committee.

Immediately after the reading of the journal, Dockery called up the bill to improve the methods of accounting in the postoffice department. The bill abolishes the postal note, reduces the schedule rates on money orders approximately to the scale fee charged by the express companies and makes other changes. The bill was passed without debate.

The bill limiting the time under which the claimants to property under the donation act of 1850 must appear to the land office, and giving the present occupants of lands a preferential claim in case title under the act of 1850 was not perfected, was taken up.

be 2,500 to 3,000 words long. The president himself is now engaged in writing the message. It will probably not go to Congress before Monday. The state and army department reports collected on Hawaii are now in the president's hands, having been taken to him today and none of it will be made public until he sends it to Congress.

VOORHEES' BILL. It Does Not Appear to Find Favor with Anybody. Washington, Dec. 14.—Senator Voorhees has introduced his long promised financial bill. Washington, Dec. 14.—[Special.]—The Republicans fought hard and effectively in the House today the bill providing for the admission of Arizona. THE CROWS ARE OUT AGAIN. Killing Cattle Wantonly on the Stillwater. St. Paul, Dec. 14.—Billings, Mont., Pioneer Press special: The Crows are out again. Nearly all the young men of the tribe belonging to the Briar mountain branch, the one who made trouble last spring on the newly ceded strip, are massed at the head of Stillwater creek, of the reservation, and killing cattle wantonly. Agent Wyman has refused to make an effort to drive them in and return the sheriff to the governor for aid. Sheriff Ramsey has telegraphed Governor Rickards the status of affairs, but has reason to believe that he will be obliged to take into their own hands. The locality where the Crows are doing their chief work of destruction is about forty miles from Stillwater.

With his wife, he confined himself strictly to his studies until September, when he returned home for a brief vacation. WORLD'S FAIR AWARDS. The Foreigners Get Sixty-Three per Cent. of the Prizes. Washington, Dec. 14.—The World's fair board of awards has struck a balance on the awards they have made, disclosing for the first time that the foreign exhibitors will secure 63 per cent. of the prizes, while the American exhibitors will only receive 37 per cent. Chairman Thacher says this showing will put an end to the criticisms made by the foreigners and taken up in this country, that the foreign exhibitors were not receiving full consideration. He anticipates that American exhibitors will now be heard from, and will feel the board has not been sufficiently patriotic towards home exhibitors but Thacher says he and his associates have been governed by the findings of the judges and the latter are responsible for giving the foreigners the bulk of the prizes.

THE LONDON STANDARD ROASTS THE HOWLERS AT HAWAII. London, Dec. 14.—The Standard, referring to the Hawaiian situation, says: The knot of merchants, speculators and office-seekers who planned and carried out the revolutionary movement in Hawaii constituted themselves the provisional government, as might be expected, furious at President Cleveland for having decided that the United States must decline to accept the islands offered them as the result of nefarious intrigues by American citizens. No other decision could have been expected from an honest, honorable man, but it has astonished the group of adventurers, who thought they would be enthusiastically hailed by a grateful country for what they had really done only for personal advantage.

TO THE PEOPLE OF THE UNITED STATES. Address from the American League at Honolulu. AGAINST THE PROPOSED ACTION. Their Reasons Why Cleveland Should Not Interfere. If the President Insists on the Restoration of the Queen, the League Will Appeal to Congress and to the People of the United States at Large for What They Consider to Be Their Rights on the Islands.

Seattle, Dec. 14.—A. Feek, a Seattle contractor just arrived from Honolulu, is the bearer of an address to the people of the United States from the American League at Honolulu. The address protests against President Cleveland's assumption that the provisional government should cease to exist because he disapproves of the proposed union with the United States. It insists the present government of Hawaii has the same right to exist that the United States had after the successful revolution of 1776.

The provisional government was established, not by citizens of the United States, but by people born and raised on the islands or have resided there many years and only organized for the purpose of opposing the league would appeal to Congress and the people of the United States to prevent so great a crime against liberty and good government.

If Hawaii is not wanted in the great sisterhood of states, we feel we have the right to withdraw the support of the re-establishment of a corrupt monarchy.

The Atchison company has large payments to make from time to time. It is public knowledge that since the reorganization the Atchison has met all obligations promptly, and every statement I have made in regard to its financial condition by facts.

Chicago, Dec. 14.—The American Federation of Labor, at this morning's session, refused to take action on the communication from the plush workers of Bridgeport, Conn., involving the question of the tariff under the McKinley and the Wilson bills. In fact, they fought very shy of the matter. Resolutions were adopted in favor of the government ownership of telegraphs; the election of United States senators by popular vote; free compulsory education; to petition Congress to establish postal savings banks.

Chairman Morgan, of the committee on resolutions, submitted a programme for a national convention of railway telegraphers, etc., as proposed by the English economists, as a basis for a labor party movement in this country. The platform included the establishing by direct legislation of a legal 8-hour day; sanitary inspection of workshops, mines and houses; liability of employers for physical disability; abolition of contract labor in all public work; abolition of the sweating system; municipal ownership of street cars, electric gas plants; nationalization of telegraphs, telephones, railways and mines; collective ownership by the people of all means of production and distribution; referendum in all legislation.

The presentation of the platform caused a very lively discussion, some of the delegates considering it too nearly socialistic or anarchistic. At the afternoon session, a resolution was adopted favoring a series of national and international labor organizations in all countries.
