John Wannamaker has signified his Barklens.

The paramount issue of the day is just \$50,000,000.

Some of the modern literary lights are very lurid.

Straight Democracy and no fusion! should be the cry.

It looks as though Old Glory were about to achieve new glory.

Uncle Sam got the sinews of war without having his leg pinched.

The advice to keep cool is probably given so as to avoid the draft.

Uncle Sam told Spain to "shut up," and the Lee incident was closed.

Sterling Morton's paper, the Dynamo, will give the news of current events.

The Denver News now prints its most important war news in red ink. "Blood."

"Peace with a—but," says the New York World. Yes, with the butt of a gun.

Zola's "Paris" is said not to be selling well. That is probably because it is a sell.

There is a great deal of difference between cheap talk and gas at \$2.25 a thousand.

The passage of the Cannon bill shows that congress can act, when there is occasion for it, as well as talk.

"The mill will never grind with the water that has passed"—Motto of the would-be superintendent of waterworks.

How strange this year is the solicitude of Democracy's hereditary enemies for the welfare of the Democratic party.

If a Spanish army were to land in Florida it wouldn't even be able to reach the hotel charges, much less the nation.

Because a war between the United States and Spain would be chiefly on the ocean doesn't remove the ground of conflict.

Congressman Cannon must be a smooth bore to have got that \$50,000,000 appropriation through without any opposition.

The jackets that are put on the big guns are not blue jackets, but after they are on it is the bluejackets who handle them.

While Command—Brownson is visiting the ship yards of Yarrow he should seize the opportunity to take a look at the braces of Yarrow.

It is said the Union Pacific will absorb the Oregon Short Line. It is the destiny of watered stock to be absorbed some time or other.

The engineer corps is locating more mines along the coast and in the harbors than are being located by all the miners in the Klondike.

That old question—"The book that helped me most"—is revived. More people's lives are influenced by the "Book of Fate" than any other.

He doesn't laugh loudest who laughs last. He just indulges in a series of intermittent snickers and smiles, interspersed with strokes of the chin.

Davy Crockett's advice: "Be sure you are right, then go ahead," needs to be supplemented with "Be sure you are prepared before you go ahead."

A Kansas paper says that "money is now a drug in this state." Nothing strange about that. There always was more money in drugs than in anything else.

Much has been said during the past year about teaching Spanish in the public schools. But now the demand of the country is that the Spanish in Cuba be taught.

How fortunate for the reading public that the Zola trial ended before the year news got so hot and heavy. In a way it is a tempering of the wind to the storm lamb.

Emperor William is going to Palestine to fix definitely the sites of Gethsemane and the crucifixion. After he has fixed them it will be his majesty's duty to dispute their correctness.

"The United States hasn't indulged in a foreign war for the last three-quarters of a century, but Spain hasn't mistake this for a case of total abstinence," says the Chicago Times-Herald. How about that affair with Mexico?

WHY NOT BE HONEST?

Mayor Clark and his immediate advisers act on the theory that the people of this city are deeply in love with non-partisanship in municipal affairs.

No matter how he regards himself, the fact is that Mayor Clark is intensely partisan. His appointees say that if he has become partisan, it is because the partisans in the city council—Democrats and Republicans—have made him so.

Mr. Clark is an honest citizen. Why isn't he equally honest politically in making his appointments? He would covet and say he makes his nominations for political reasons, but that the nominees are, in his opinion, well qualified to discharge the duties of the offices to which they are named.

There are many true friends of silver who have not been in the Democratic ranks in the past, but they should be found in them in the future. A homogeneous party is always stronger and more aggressive than a fusion party.

Perhaps the verdict in the case of Sheriff Martin was not unexpected, but it is by no means an easy matter to determine whether it should be approved or condemned.

Will any diplomatic complications now arise? Austria-Hungary will not like the verdict, but what can they do? Those who fired upon and killed their subjects have been brought before the bar of justice and tried according to the laws of the state where the killing took place.

The Tribune says The Herald is engaged in reading people out of the Democratic party because of their views on the silver question. It errs greatly. The Herald is engaged in trying to read people into the Democratic party and not out of it.

DANGER IN SODA. Serious Results Sometimes Follow Its Excessive Use. Common soda is all right in its place and indispensable in the kitchen and for cooking and other purposes.

Dr. Harlandson recommends as the safest and surest cure for sour stomach (acid dyspepsia) an excellent preparation sold by druggists under the name of Stuart's Dyspepsia Tablets.

Dr. Wuerth states that he invariably uses Stuart's Dyspepsia Tablets in all cases of stomach derangements and finds them a certain cure not only for sour stomach, but by promptly digesting the food they create a healthy appetite.
