

AT THE SACRAMENTO

Iowa and Nebraska Owners Pleased With the Mine.

ALSO EXAMINE THE DAISY THE STOCK BROKERS HAVE A GOOD DAY.

A Good Deal of Trading in the Pit—Road to Gold Mountain—Enterprise of Maryvale People—The Mercury and Geyser-Marion—Mining Notes.

F. A. Benson of Templeton, Ia., and F. M. Wilson of Omaha, Neb., who are heavy owners in the Sacramento, at Mercur, and the Daisy, on the west side, returned here yesterday after spending a week in making a thorough examination of these properties, and they go back most highly pleased over the magnificent showing in these two mines, and thoroughly satisfied that their investments in the same will make them a mint of money.

Mr. Benson, in speaking of the Sacramento, stated that the mammoth bodies of ore disclosed in this mine were truly wonderful, and that there had been such a decided improvement in the property since his last visit here that he was hardly able to recognize it as being the same mine. In fact, he alluded to this producer and disseminator as a "cracker-jack," and is of the opinion that the future has great things in store for it. Mr. Wilson is one of the heaviest holders of Sacramento stock in the east, and he has purchased a good many thousands of shares at 15 cents, and the stock is now active between 40 and 50. He has reason to feel well pleased with the venture, and he is satisfied that the stock will go considerably higher than this figure when the additions to the mill are completed, which will be within a reasonable time now.

During the visit of Messrs. Benson and Wilson contracts were let for the lumber and the necessary machinery for the Daisy mill, the plant to be erected by the company under the supervision of John Shea, who believes that he will be able to have the works in operation by the first of May. The mill, on the start, is to have a tankage capacity of 100 tons daily, while the crushers will be able to handle 300 tons during the same period, so that it will be an easy matter to increase the output at any time by the addition of more tanks.

It is now several months since these gentlemen visited the Daisy. They thought then that they had a mine, but it has grown so big since then that there is no comparison between what the property was last October and what it is today.

A GOOD DAY FOR STOCKS. And Many Securities Took Part in the Dealings on 'Change.

Mining stocks were brisk and active yesterday, and the tone of the market was excellent, with upward tendencies noticeable, although the hours were able to bring about a victory in a few instances.

One of the features of the call in the pit of the stock exchange was the demand for Four Aces, which had been sold at a figure a few cents lower than the quotations the first of the week. Bullion-Beck and Centennial-Burch, while not participating in the transactions of the day, were strong and firm in the bidding, while Daily West figured in the same class. Much attention was given to Geyser-Marion, which sold well at a slight advance, being in good shape at the close at the quotations given below. Galena enjoyed small gains, and was a favorite with the brokers, while Mercur was strong, though, but strong. No change was observable in Mercur. Northern Light was inactive, but all the same it closed marked with a slight advance. The Swansea found a buyer at \$1.20. Dexter is in the market for business, and sold at an advance over former quotations, which sold well at a slight advance, but will gradually regain lost ground. A bear raid was made on Colorado Point, which sold as low as 5 1/2 cents. Operations and Tetro were called, but were not much sought after, and were not in the transactions of the day were as follows:

Table with columns: NAME OF STOCKS, Bid, Ask, and Price. Includes items like Four Aces, Bullion-Beck, Centennial-Burch, Daily West, Geyser-Marion, Galena, Mercur, Northern Light, Swansea, Dexter, Colorado Point, Operations, Tetro, etc.

ROAD TO GOLD MOUNTAIN.

Enterprise Maryvale People Out After Trade.

Richfield, March 25.—John Fullmer, Martin Reinheimer and George Smith, three substantial merchants of Maryvale, have decided to connect that town with Gold Mountain district by wagon road, which they will begin building next month.

The completion of the driveway will mean much for both Maryvale and the Gold Mountain camp, reducing the wagon road distance between the mines and the town about ten miles, it now being about 20.

There are three adjoining mining districts on the Baldy range in Plute county, the Baldy, Ohio and Gold Mountain. Of these the first named is southwest of the town of Maryvale, the second is west and the third is north of the town. The Ohio district are distinctively the Maryvale country, because of their proximity and their connection by good roads, but since there has been no wagon to drive from Gold Mountain to the Vale without first descending to Sevier county via Clear Creek canyon, almost all the traffic of the district has come to Joseph, Eldonore and Richfield in Sevier county, and Richfield has been the real headquarters for that camp. The building of the new highway by Maryvale's enterprising merchants will doubtless make a change in this respect. Already there is a fine thoroughfare running west from Maryvale up Beaver canyon. The new road will lead off north from the Beaver canyon at a point five miles west of Maryvale; will trend thence north over the divide to Deer Creek canyon, along by Silver King over to the Golden Star company's Blue Bird, down to the Anne Laurie and from there to the Brockbridge.

The finest road on the mountain is "Jim Lopez's boulevard," which runs from the Brockbridge to the Surprise road leading to the Sevier mine. From the Sevier road run around to the Miller and other properties on the Clear Creek side of the hill and also north down the mountain to the Clear Creek road, connecting Sevier and Millard valleys.

The portion of the road to be built will be five miles long and will cost about \$100,000. Along almost its entire route it will be a highway of easy grade.

Mercur and Geyser-Marion. Hon. John Dorn, manager of the Mercur and Geyser-Marion mines, who has returned from a visit of inspection of these two valuable properties, informs The Herald that in the work of enlarging the Geyser mill the new foundations for the tanks are now more than half completed, while the new engine is being put in place. The old tanks are being taken out and new ones will be put in their place, a matter that was not contemplated when the work of enlargement first started. It is expected that the plant, with its increased capacity, will be started within ten days or two weeks. In fact, the tanks are being filled with ore and used as rapidly as they are put up, while the mill is running with nearly ten tanks more of the time as work progresses.

At the Lulu tunnel, on the Mercur ground, trouble has been experienced in the construction of the tramway to the Mattie ore bins, and some of the work has had to be torn out and put in over again, as the workers interested would discharge readily, so that it will be some time yet before the tram will be in active operation.

This week has not stood in the way of regular work in the operation of the mine, however, and the extraction and reduction of ore goes steadily on, and there is no falling off in the quantity or value of the regular shipments of oxides.

It is understood that both mines are looking well. In fact, that they are in better condition, physically, than ever before, and in mining circles it is believed that those producers have many surprising surprises in store for the future.

Rich Float From a Well. Richfield, March 25.—Thomas F. Gillan is in Richfield from Maryvale, where he has just returned with a beautiful specimen of quartz that is almost smothered in free gold. It came from the Stewart's house in Maryvale, four years ago, and must have laid 15 or 20 feet below the surface of the ground.

The specimen Mr. Gillan carries is a chip from a piece of rock twice as large as a cocoon, the whole boulder being matted all over with gold. It contains an ounce and a half of gold, and is of a character from any of the gravel about it, and of course was float that has been covered up by ages of sediment.

Silver and Lead. The silver and lead quotations yesterday were as follows: Lead, 10 1/2; Copper, 12 1/2; Zinc, 11 1/2.

Ore and Bullion. The ore and bullion receipts yesterday were as follows: McCormick & Co., bullion, \$1,100; ore, \$1,500.

Mining Notes and Personal. Dave Evans, an Ogden mining man, was in the city yesterday.

H. L. Green, who has been on the sick list for some time, is recovering, and is again receiving the congratulations of his many friends.

The A. J. Grant of the Colorado Iron Works company, who is in his office yesterday after being confined to his home by illness, is now able to go to work.

A. St. Grant, of the Colorado Iron Works company, who is in his office yesterday after being confined to his home by illness, is now able to go to work.

George Small, well known in Utah mining circles, returned yesterday from Mexico, where he has been on a tour of inspection of the leading mines of that country.

Arrivals from the different mining camps, which are now very active, are in the hills an account of recent storms, which will interfere with prospecting for some time.

A car of Homestake ore is being loaded at Silver City, and Hon. Frank Harris, who has been on a tour of inspection of the time checks, Southall promised repentance and was allowed immunity. But, unfortunately, he was also allowed to remain in the office of the engineer in St. Paul, and from that vantage point renewed his industry.

The estimate of the total volume of the checks is still high, and is estimated to be in the neighborhood of \$100,000,000, and so far the total is less than \$400,000,000, as far as the issues have been disclosed.

It is said that the government has issued no time checks since 1890, and all bearing any date later than that year are declared "bogus."

Bobolink a Total Loss. San Francisco, March 25.—The schooner Bobolink, Capt. Nelson, went ashore last night at Cape Point, the southern point of Marinette harbor and will be a total loss. Peter Nelson, a sailor, was drowned, but the rest of the crew was saved.

An Honest Offer. Dear Mr. Editor—Kindly inform your readers that if written to confidentially, enclosing stamp for reply, I will cheerfully make known to them in a sealed letter, free of charge, the plan pursued by which I was promoted to the position of Chief Engineer and Superintendent of the Western States and Nevada Feederlines. I have no scheme to get money from any one, and I am not a swindler. I am a D. I. but am simply anxious to make known to others who may be suffering as I was, this means of certain and permanent cure. Address: JAMES A. HARRIS, Box 41, Delray, Mich.

Schilling's Best baking powder ought to sell for twice as much as the next best.

of going to press we are unable to learn the assay value. The Butcher Boy is being worked under a lease by the late owner, Mr. Frank Pearson, and it is well known as one of the old time producers of the south end. Colonel G. T. Pearson has returned from the Sterling coal mine in the southern portion of the state, and is stating that the coal is of a high quality, and is being worked at the rate of ten feet a day. The company will be taking out coal.

Early yesterday morning the Germania smelter, a few miles south of the city, was reported to be on fire, and before the flames could be controlled a large quantity of the smelter's plant furniture, was consumed, two of the furnaces being destroyed. The plant is blowing from the south at the time, but had it been otherwise the whole plant would have been a total loss. The loss will be considerable, and the capacity of the works will be materially lessened.

A. H. Mayne, who can justly claim the distinction of being one of the pioneers of the west dip country in Camp Floyd district for the discovery of the rich lead and silver veins, was reported to be on the west dip in which, with Mr. Mayne, they are heavily interested. Mr. Mayne is reported to be in a most gratifying manner, and that in the west dip country, the drifts have been run from the foot to the hanging wall, proving that the body of ore is continuous. During the stay of the associates in the camp the mine was sampled three different places, and the results were as follows: On the face of the cross-cut in the hanging wall, the formation being lime, and the ore was reported to be of a high grade. On the face of the cross-cut in the hanging wall, the formation being lime, and the ore was reported to be of a high grade. On the face of the cross-cut in the hanging wall, the formation being lime, and the ore was reported to be of a high grade.

FOR SWEET CHARITY.

MEETING TO ORGANIZE A VISITING NURSES' ASSOCIATION.

Hold at the Ladies' Literary Club House—Temporary Officers Chosen—Funds Pledged and Expected.

The laudable purpose of a number of prominent workers in charity ministrations to organize a visiting nurses' association, the need of which is sorely felt in Salt Lake City, was given a gratifying impetus at a meeting held in the club house of the Ladies' Literary club. The meeting was well attended by representatives of the organized charitable organizations. Mrs. Kenyon was chosen to preside. A free discussion was had of the manifest necessity of providing the services of trained nurses in the homes, where sickness, want and suffering frequently are attended with fatal and pathetic consequences. In the judgment of the informed persons, many an innocent life is needlessly sacrificed because of lack of proper nursing, and without dissent it was resolved that much effective relief could be accomplished by organized effort on lines of charity.

THE TEMPORARY ORGANIZATION. A temporary organization was effected with Mrs. Kenyon as president, Mrs. Maynard, vice president, Mrs. Critchlow, secretary, Mrs. Sol Stock, assistant secretary, and Miss Mackintosh, treasurer. An advisory board will be named later by the temporary president, and it is expected that the work will be chosen from among prominent men.

FUNDS PLEDGED AND EXPECTED. When the question of ways and means was broached, Miss Houghton announced that she had secured \$100 from her friends; Mrs. Maynard gave the assurance that her efforts would yield as much; Mrs. Kenyon pledged her services to furnish an equal sum, and she doubted not that the other women's clubs would respond with suitable contributions. Mrs. Grant H. Smith stated that the trained nurses from St. Mark's hospital would subscribe \$5 monthly, and Mrs. Critchlow announced that she had secured \$100 from her friends.

That Chicago Irish Parade. Kavanagh Was Given Lawful Permission, It Now Appears. Chicago, March 25.—Adjutant General Rice, by direct order of Governor Hiram A. Wheeler, commander of the First brigade, 1st N. G., asking if it was true, an attorney, Colonel James S. Kavanagh, commander of the Seventh regiment, that he had granted permission to the latter to parade his command on St. Patrick's day, and if it would be granted by that authority permission was granted.

Brigadier General Wheeler said that he had granted permission to Colonel Kavanagh to parade his command on St. Patrick's day, and that he did not understand where Colonel Kavanagh had violated the provisions of the code. "If you favor this parade, please unite in asking Superintendent Park to make such a recommendation to the school officers of the state."

President J. Tanner, Professor Stewart, Professor Kingsbury, President Kerr and a number of others are thought to favor the plan and some are expected to make a speech at the parade on St. Patrick's day.

CATHOLIC LOYALTY. Strong Words For America From a Knight of Columbus. Chicago, March 25.—At Central Music hall last night, before a large audience of Roman Catholics, presided over by Archbishop Feehan, Hon. John J. Delaney of New York delivered an address under the auspices of the Knights of Columbus.

Delaware Lay Methodists. Wilmington, Del., March 25.—The Wilmington Methodist Episcopal conference at Lewis town adopted by a 2-1 vote, a resolution favoring equal representation of lay and ministerial delegates in the general conference.

Movement on Foot Among the Utah Educators.

IDEA IS TO MAKE THE CHOICE A FORMALITY.

Reasons Urged For Such a Plan—Circular Letters Sent out and Educators Are Asked to Make a Recommendation to Superintendent Park and the State School Officers.

There is a movement among educators in Utah to have the school elections to be held next July merely a matter of formality so far as the choice of county superintendents is concerned. The plan is to have the trustees of all the school districts in a county to get together in convention and name a candidate for school superintendent of the county.

Political parties could then endorse this candidate, and the result would be ratified at the polls. It is the intent of the school law when it placed the election of the county superintendent in July, was for the express purpose of removing the school election from the sphere of politics, and this plan would still further accomplish the result desired. "No political party," it is urged, "can afford to neglect the school law, and campaign machinery at work for this one office, and no candidate can, for the salary paid, afford to conduct a campaign for the office."

There will be an election in each precinct to elect not only a county superintendent, but a trustee for that precinct, whose duty it will be to see that the school law is similar to that followed now in cities where the boards of education select the superintendent. The plan, it is said, is to be carried out in the summer of 1900, when a number of educators talked the matter over informally and asked one of their number to address a circular letter to prominent educators throughout the state, and ask them to address a communication to Superintendent Park on the subject, and ask the superintendent to favor the plan.

At this meeting there were Superintendent Van Cott, of Salt Lake; Oldham of Cache; Porter, of Davis; Nelson, of Sanpete; Hall, of Weber; and Marks, of Tooele.

As a consequence several school men have had to receive copies of a circular letter recommending certain legislation in the interests of the schools, and at the close was a postscript reading as follows: "The intent of the school law in placing the election of county superintendents in July was to prevent, as much as possible, political strife in the election. Do you not believe the object would be attained, if the trustees of each county would meet and nominate a candidate for superintendent, leaving it to political parties? The trustees are representative citizens of each district, they are better acquainted with suitable candidates than any other persons, and I believe they could be relied on in every county to nominate a suitable person for superintendent."

This would be in accord with the admirable plan used in our cities, and it would prevent the expense and strife of political intervention. "If you favor this plan, please unite in asking Superintendent Park to make such a recommendation to the school officers of the state."

President J. Tanner, Professor Stewart, Professor Kingsbury, President Kerr and a number of others are thought to favor the plan and some are expected to make a speech at the parade on St. Patrick's day.

TURBULENCE ALL DAY. Stirling Scenes of Fifty-first Congress Revived Yesterday.

HARTMAN BEGAN THE ROW. OVERCOME BY CZAR REED AND THE MAJORITY.

Montana Congressman Essayed a Political Speech During the Consideration of the Naval Bill—Fillibustering Kept Up, and Only Four Pages of the Bill Read.

Washington, March 25.—The stirring scenes of the fifty-first congress, when members of the minority were charging down the aisle, protesting against the majority, were revived yesterday in the turbulent protests made by the minority against the reading of the naval appropriation bill. The reader, in effect, compelled the members to confine their remarks to the five-minute rule, and the subject before the house was read against Mr. Hartman's protest.

Brigadier General Wheeler said that he had granted permission to Colonel Kavanagh to parade his command on St. Patrick's day, and that he did not understand where Colonel Kavanagh had violated the provisions of the code. "If you favor this parade, please unite in asking Superintendent Park to make such a recommendation to the school officers of the state."

President J. Tanner, Professor Stewart, Professor Kingsbury, President Kerr and a number of others are thought to favor the plan and some are expected to make a speech at the parade on St. Patrick's day.

UNITED STATES SENATOR PITCHARD

Mrs. Pritchard Got Entire Relief from Rheumatism By Use of Paine's Celery Compound

United States Senate, WASHINGTON, D. C.

Washington, D. C., March 25, 1898. Mr. Pritchard, U. S. Senator.

I find Paine's Celery Compound an excellent remedy for Rheumatism. I feel better and am now in almost perfect health again. I shall certainly give it another trial.

Senator Pritchard of North Carolina became prominent in the co-operative movement in North Carolina, the success of which resulted in his election to the U. S. senate in the term of the late Senator Z. B. Vance. He was re-elected to the senate in 1887.

Mrs. Pritchard's testimony to her faith in Paine's celery compound is reproduced above. Below is a testimonial received from the wife of U. S. Senator Warren of Wyoming, whose distinguished services for the country's best farming interests are so well known.

"I was persuaded to try your Paine's Celery Compound in the early spring, when I was in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting, and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and am truly glad that I am in almost perfect health again. I ever find myself running down again, I shall certainly give it another trial."

question of privilege could be raised in committee of the whole. THEN HE GOT MAD. Pending a decision upon Mr. Dingley's point of order, Mr. Hartman was allowed to proceed by the gentleman from Maine. Thereupon, Mr. Payne called him to take his seat.

Mr. Bailey moved that he be allowed to make a speech, and the gentleman from Maine, thereupon, Mr. Payne called him to take his seat.

Mr. Hartman then inaugurated a filibuster, demanding a vote by yeas and nays, and the gentleman from Maine, thereupon, Mr. Payne called him to take his seat.

Mr. Hartman then inaugurated a filibuster, demanding a vote by yeas and nays, and the gentleman from Maine, thereupon, Mr. Payne called him to take his seat.

Mr. Hartman then inaugurated a filibuster, demanding a vote by yeas and nays, and the gentleman from Maine, thereupon, Mr. Payne called him to take his seat.

Senator Pritchard

Washington, March 25.—Senator Davis said that it was his understanding that the Maine report would be sent to congress next Monday, but its transmission might be delayed until Tuesday. As to the disposition to be made of it by the senate he said that in all probability after the reading of the Maine report, the committee on foreign relations and probably be printed. Any senator, however, might demand the reading of the report in the senate and if it should prove to be not too long, that course might be pursued on account of the intense interest of the public in the Maine report. He declared that he would be decidedly of the opinion that there would be no debate upon it until it had been considered by the foreign relations committee.

What pleasure is there in life with a headache, constipation and biliousness? The medicine which I used could become perfectly healthy by using Dr. Williams' Little Earth Pills, the famous little pills. Smith & Swift, Druggists, 12 Main.

Large Shipment of Child's Jacket. Just received in all the latest shades and styles. Ages 2 to 14 years. F. AUERBACH & BRO.

ASSESSMENT NOTICE. Mining and Milling Company. Principal assessors, Messrs. J. H. Smith and J. H. Smith, Salt Lake City, Utah. Notice is hereby given that a meeting of the directors of the above named company, to assess the capital stock of said corporation, payable at once to P. O. Perkins, at room 218 Atlas block, West Second South Street, Salt Lake City, Utah. Any stock upon which assessments are unpaid on the 23rd day of April, 1898, will be delinquent and will be advertised for sale in public, and the proceeds of such sale will be used to pay the assessments. P. O. PERKINS, Secretary and Treasurer of Heald Bros Mining and Milling Company, Room 218, Atlas Block, Salt Lake City, Utah. Dated the 23rd day of March, 1898.

MASTER'S SALE. IN THE CIRCUIT COURT OF THE UNITED STATES FOR THE DISTRICT OF UTAH, CHRISTOPHER SCHUBERT, plaintiff, vs. JUAN A. FRITZCH, defendant. Notice is hereby given that an order of sale and decree of foreclosure was made on the 15th day of April, 1898, at the court house of the United States for the district of Utah, held at Salt Lake City, in said district, in favor of the plaintiff and against the defendant, in which order and decree it was ordered and decreed that the said property should be sold at public auction, at the court house of said district, at Salt Lake City, Utah, on the 15th day of May, 1898, at 11 o'clock a. m. of said day, at said room 218 Atlas block, Salt Lake City, Utah, to pay the amount of the assessments, together with costs of advertising and expenses of sale. P. O. PERKINS, Secretary and Treasurer of Heald Bros Mining and Milling Company, Room 218, Atlas Block, Salt Lake City, Utah. Dated the 23rd day of March, 1898.

POWER IN THE PRESIDENT. Bill Providing For Exigencies Pending Next Session of Congress. Washington, March 25.—General Wheeler of Alabama today introduced in the House a bill providing that in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to employ such troops in the event of an act of war being committed by Spain or any other foreign nation, prior to the meeting of the next session of congress, the president of the United States is authorized to accept tenders of volunteer troops, to purchase arms and munitions of war, to equip such troops for active service, organize and train them, and to
