

**PULLING STUMPS, ETC.**

Editor Deseret Farmer:—Would be very grateful for information regarding a stump puller, and whether it will pull bunches of Willows and green stumps, as my land is covered with willows and am thinking of buying one if it will do the desired work, and will be glad if you will inform me through your paper.

Yours respectfully,

E. MULLINER, Ibapah, Utah.

Answer by Prof. J. C. Hogenson.

Stump pullers usually do satisfactory work with bunches of willows and green stumps if they are not too large. Pullers made by the Zimmerman Steel Co., Lone Tree, Iowa; or W. Smith Grubber Co., La Crescent, Minn., do good work.

**LOOKING AFTER THE FAMILY.**

A father and mother, with six children, spent their summer holiday at the seaside. Immediately on arrival they set about looking for cheap lodgings.

At length they came to a notice of a "furnished room to let" and made inquiries.

"Oh, yes," said the landlady in answer to the father's question, "it's here the room is to let, but there's only one bed in it."

"Oh, that's all right," replied the father; "we're used to roughing it. The wife and children will sleep on the floor."

**BROTHER**

Accidentally, on camping trip, have discovered a Root that will cure both tobacco habit and indigestion. No drugs, but nature's remedy. Let me write you about this wonderful root.

**Modern Sheep: BREEDS AND MANAGEMENT.**

BY "SHEPHERD BOY."

This is a book that every sheepman should have. It is undoubtedly the best book ever written on sheep, as it is from the pen of a practical shepherd, whose experience has been wide and varied. It contains nearly 850 pages of packed (not padded) matter, which means an equivalent to 700 pages of some similar works. It is beautifully illustrated with over 100 half-tones, and its subjects are treated in eight parts: History and Breeds; General Management; Sheep Management in the Western States; Fitting for Show; The Raising of "Hothouse" or Spring Lambs; Dressing Sheep and Lambs for Market; Pasture, Forage Crops, Etc.; and Diseases. No matter what books you have on sheep, your library is decidedly incomplete without this splendid work.

Secretary Wilson, Dep't of Agriculture, says of this book: "I have looked over 'Shepherd Boy's' book on modern sheep, and believe it would be valuable for ready reference to the teacher, editor, lecturer and farmer." It can be secured through this office at its published price of \$1.50, postpaid.

"Deseret Farmer" one year, with "Modern Sheep" \$2.00
