

The Unseen Army

PEERING through his trench periscope, across the shell-scarred waste of No Man's Land, the German soldier catches an occasional glimpse of the new enemy that he has already learned to dread. Deep forebodings of evil begin to take form in his mind.

America's millions of boys in Khaki are flowing in a steady stream to the fields of France. Soon *more* ships will be carrying *more* fighters and *more* food that they will need to "carry on" to Berlin.

The Hun can see this army. But he fears even more the *bigger* army that is making possible the presence of millions of our boys in the trenches.

It takes 6 to 8 men to back up one soldier on the firing line. It is this Unseen Army that will make possible the steady, resistless fighting force that will roll back the Hun hordes.

Realize this, men! These men rely on YOU to fill the gaps in this great agricultural army.
