The most important advance in years is the matter of keeping beer absolutely pure, has been the Pipe Line System of Bottling. This is used by practically all of the country's largest breweries for their best grade of beer. It is used exclusively for bottling.

**Fisher
Beer**

Many outside breweries, however, find the shipping cost of their Pipe Line Bottled Beer almost prohibitive to distant markets like this. They therefore ship beer in bulk to be bottled locally.

You will be absolutely sure of Brewery Pipe Line Bottling when you order FISHER BEER, which is all Pipe Line Bottled, all the time.
