## The Perfection of Union Pacific System Service

Is not a chance—it is the result of the expenditure of millions of dollars in money and the working-out of a positive plan of betterments, which has extended over a period of many years.—

As a consequence, the Union Pacific System has been brought to a state of operating regularity—the effects of which are felt through every channel of the service; the work goes on from day to day, and the public is assured of the full benefits resulting therefrom.—

When you buy transportation, you buy it with the same economic conservatism you would use in purchasing government bonds or other dependable securities.—

In traveling you are entitled to stability-service, and protection, for every dollar you expend.

The Union Pacific System has been termed "The Standard Road of the West"; it is "standard" in everything the word implies.

Six trains east daily; two trains north and northwest.
