Are You An Heir?

If you are interested in the settlement of an estate, and are not familiar with Probate Practice, we shall be glad to have you call and consult with the President or Trust Officer of this Company, who will, without expense to you, explain the necessary steps to be taken, and the time and expense required in the settlement of the estate in which you are interested.

We are especially organized and equipped to serve the public as Administrator, and will be pleased of an opportunity to explain the advantages and economy which a Trust Company offers.

SPLENDID NEW GARAGE

Salt Lake is to have one of the largest and finest equipped motor garages between Denver and the coast, Saturday morning General Manager Warren Paul and a large force of salesmen and assistants will formally open the new building of the Utah-Idaho Motor company at Fifth South and Main streets. The salesrooms offer a frontage on Main street of eighty-two feet while the service department and the garage open on Fifth South with a frontage of fifty-five feet, the entire building being almost half a block in depth and more than eighty feet wide, with self-supporting trussed roof covering an area of nearly half an acre and giving ample space for the storage of more than a hundred motor cars. Every sort of a mechanical device that pertains to the repairing and care of automobiles, has been installed.

At the rear of the salesrooms and across the entire building are suites of elegant offices, one section being a richly equipped rest room for ladies. The Utah-Idaho motor company handles the Marmon, the Paige, the Chevrolet, service trucks, G. M. C. trucks, Knox tractors, Form-trucks and Detroit electrics.

A SCHOOL MASTER NEEDED

(Continued from Page 2.)

guns; no available supply of ammunition, and not enough food to support a real army for a month. More, so much food has been sent abroad, that the poor of the country are already reduced to small rations and the prices are soaring out of sight.

What common prudence has been exercised in husbanding the country's resources? Suppose a war was to be sprung upon us tomorrow what explanation for the country's condition could those who handle our army and navy and the general government give for the condition the country is in? What could stop the ravaging of our coasts? What could possibly prevent the killing, uselessly, of from 100,000 to 500,000 of the bravest and best men of the republic?

When our little war with Spain was declared and volunteers were called for, more of those volunteers died in camp than in battle, because there were no men competent to establish sanitary camps for them? Will our country never get the sense to use a little common prudence in keeping the country in at least a little way ready to meet whatever call may be made upon it, and in time of peace to prevent the people from being robbed and wronged by speculators?

JOSEPH F. SMITH

(Continued from Page 1.)

From that time until this his service to the Mormon church has been a record of large achievements.

He served in England on another mission in 1874 and 1875 and in 1877 went to England on his third mission. On account of the death of President Young he was chosen second counsellor to President John Taylor, in October, 1880, holding the same position under Presidents Woodruff and Snow. Upon the death of President Snow he succeeded to the First Presidency. Under his direction the church has grown in power until it is accounted one of the most perfectly organized bodies in existence. As trustee of the vast properties of the church he has become one of its greatest financial leaders.

His life all these years has been lived with great simplicity, constant labor and great personal frugality.

He stands today a patriarch ruling with a gentle hand over a people blessed with such prosperity as few religious bodies have ever known.

Something Different
