### AMERICAN ORGAN DEDICATED

The new pipe organ, the greatest in a moving picture house in this country, was dedicated this week in the presence of an audience of music lovers that packed the American theatre. The dedicatory address was made by Governor Wm. Spry. A special train brought a number of Ogden visitors during the day. All records for daily attendance at the American were broken,—more than 15,000 persons being admitted. During his address Governor Spry said "It is a fine thing to have in Salt Lake such men as Mr. Swanson; Utah needs more men like him, and we welcome him here. Abroad I point with pride to the American theatre, and now I am doubly proud that I can point not only to the world's greatest moving picture theatre, but to the world's greatest theatre organ as well. I wish also to commend Mr. Swanson for bringing to Salt Lake such a man as Mr. Tobin. I have known him a number of years and can personally speak highly of him. In its reconstructed equipment the American organ is the largest theatre pipe organ in the world. It consists of four departments: great, swell, choir and pedal, with the echo organ provided for in the general scheme. It has a wealth of accessories. The combinations of tone color, and the various tints that may be produced upon it are practically without limit, extending into the thousands.

At last the house painter had finished, and the place shone fresh and clean in new paint.

"Could you spare time to scrape off the paint from the window panes?" asked the mistress of the house.

"Certainly, ma'am, if you can lend me a coin," was the reply.

Having nothing less than half a crown, the lady lent that. Half an hour later the man returned her a worn and thin six-penny piece.

"But—er—I—er—wasn't it half a crown I gave you?" stammered the lady.

"It was," said the man with emphasis, "but it's worn down a bit."—London Tit-Bits.

Wife—Henry, you really must have the landlord come and see for himself the damage the rain did to our ceiling. Husband—I can't without letting him see the damage the children have done to the rest of the house.—Boston Transcript.
