The economy of Kenilworth Summer Coal is not only in saving time, trouble and kindling wood, but this coal is especially adapted to summer use, and will give better service for the same money you pay for other coals. A few twists of newspaper starts a fire that burns. Order a ton today from any dealer.

SAUNTERINGS

The decision of the board of directors of the Country club to permit resident guests when personally accompanied by a member of the club to be entertained at meals or other house functions is an excellent one and will undoubtedly make the club more popular. Such guests will in no case be entitled to the privileges of the games or ground facilities, which is also a splendid idea. Neither will they be permitted to entertain guests in the name or by arrangement with members of the club. That is exactly as the rule should be; but the provision allowing such guests to accompany members will undoubtedly result in a large number of dinners and luncheons which members, under the old rules, were obliged to give elsewhere.

On Monday last, City Clerk Scully in New York officiated for forty-seven marrying couples in the marriage chapel in the municipal building, the first day of operation of the new marriage law recently signed by Governor Whitman, the law providing that the clerk charge \$2 for each marriage ceremony, the fee to be turned into the city treasury. Therefore instead of paying over a dollar for a license and regular gold sky pilot, anyone can take the plunge for a matter of \$3.

The word "obey" is nix in the new form, which means something to the modern bride, and the reduction in the ante for the gentleman in the case starts him off with the mistaken impression that the lunatic was right who said that two could live as cheaply as one.

Dr. D. Moore Lindsay will sail from New York during the coming week on his way to London to bring home his son who was wounded while serving with the British army in France. Young Lindsay is a lieutenant in the famous Black Watch regiment, and has made a splendid record since going to the front, having been promoted soon after the first battles in which he took part in the western trenches. He has been in the hospital in London for four months, where his mother has been with him. They will arrive in America in June, and will come directly to this city.

W. S. Home announces the engagement of his daughter, Jessie Scribner, to Dr. E. C. Fairweather. The wedding will take place at St. Paul's church at high noon on June 1st, and will be a quiet ceremony attended only by relatives and a few intimate friends.

The wedding of Miss Alice K. McCoy and Donald S. Lochrie occurred on Wednesday at the First Congregational church, Rev. Elmer I. Goshen officiating. An informal reception was held later at the residence of the young people, No. 759 So. Second East, where they will be at home after June 1st.

The opening of the beautiful little Country club in Ogden, which was scheduled for Friday evening, was postponed because the club burned to the ground earlier in the day. It was one of the prettiest clubs in the west, and its destruction is the matter of the keenest regret not only among the Ogden members, but those in Salt Lake who have visited there. The Ogden spirit will probably be responsible for an immediate rebuilding of the clubhouse, but its burning just on the eve of what promised to be a great season will mean an indefinite postponement of the summer festivities that were planned.

News comes from New York that Miss Florence Kimball, who has been with the Leo Dietrichstein company for several months as under-
