Nat C. Goodwin Mining and Leasing Company

We are offering a limited number of shares belonging to the treasury of the Nat C. Goodwin Mining and Leasing Company at .05. We guarantee that the entire 5 cents realized for each share sold will go into the treasury of the company. The company is capitalized for 1,250,000 shares, of which 500,000 shares are treasury stock. Nat C. Goodwin is president. The company owns the Tecumseh and Osceola claims in Rawhide, about 800 feet from the Rawhide Consolidated, one of the camp's bonanzas, and also owns the Nat C. Goodwin Lease on the Rawhide Queen, which adjoins the Ogilvie-Reynolds and Kearns No. 1 Leases and is situated within 300 feet of the sensational Kearns No. 2, which is believed to be another Mohawk.

Development work on the Nat Goodwin Lease has been prosecuted continuously for several months. A two-compartment vertical shaft is down 85 feet. The shaft is now in ore running from \$2 to \$10.80 per ton, and a cross cut has been started for the intersection of the cross-vein of the Kearns No. 1 and the contact vein of the Kearns No. 2. The best engineering talent in our employ is a unit that a high-grade ore-shoot will be opened up along this contact at the junction of the cross-vein of the Kearns No. 1 and the contact vein on which the Kearns No. 2 has found its richest ore. The lease runs until 1910 and the royalty paid to the Queen company is 22 1-2 per cent.

The lease is assuredly one of the most promising projects on the Queen estate, and we are convinced that the offering is without a parallel from the standpoint of price and intrinsic value behind the security. Our friends near at home are subscribing rapidly for this issue. Subscriptions from remote parts that are delayed may result in disappointment, for the reason that we are confident we will not have enough stock to go around. Immediate subscriptions are invited. Remit in full for the number of shares desired at the rate of 5 cents each.

NAT C. GOODWIN & COMPANY.
